Natures Religion Versus Mankinds Spiritual Fraud:

Nature's Religion Versus Mankind's Spiritual Frauds! Gene Matlock,2003-08 Many people can't accept the truth that Nature has a unique plan and purpose for each animal species on earth. This plan is the religion she has outlined for them. Man's troubles have arisen because he has decided that Nature's religion or as the Hindus call it Isvar isn't good enough. He thinks manmade rules and religions are better than Nature's any day. But humans don't all think alike. The founders and leaders of Man's different religions have their own agendas for mankind. As a result, this world is overburdened with thousands of different artificially made religions, each claiming to have invented Mother Nature. Although some religions will actually kill people who won't convert, Nature does not destroy anybody for noncompliance. She just assigns them a different job description. If Nature were human, the religious nuts would even try to convert her. But Nature or the Isvar goes by its own rules, not mankind's. So why does mankind rebel and create his own ideas of right and wrong? What is it about Nature's religion that makes everybody hate it? To become healthy, wealthy, and wise, obey Nature's rules. This book points the way.

Christianity--Mankind's First Worldwide Religion! Gene Matlock,2005-12 It is my hope that this book will help all humans understand just exactly what Buddhism, Ketuloka, or Krishtaya is and apply its principles according to the uniqueness and level of their respective understandings for the improvement of their lives. Christianity, Catholicism, was mankind's first and oldest worldwide religion. According to author Gene Matlock, Christianity merely stepped into the shoes of an ancient existing worldwide religion of the same name. The infant Church did not begin to call itself Christianity until two or three hundred years after it was established. Before the Great Flood, Krishtayana was brought to India from Eastern Siberia by a highly civilized Turkish tribe called Kurus or Krishtaya. The Kurus were the world's first highly developed civilization, predating India, Egypt, and Sumeria. After conquering India, the Kurus went on to conquer the world, including Middle America. The Caribbean Indians told the Spanish that their gods were the Kurus, Rumi. Nearly all the Indian tribes of both Americas will find their respective tribes' Turkish and North Indian origins in this book. But what happened to keep Turkey from receiving credit as the founder of all human civilizations, as well as the first religion, Christianity? Mankind's First Worldwide Religion clears up many mysteries and shows that Jesus Christ really was all that Christians have been taught he was.

on the Essence of Religion Ludwig Feuerbach, 2018-06-21 This book translated for the first time into English presents the major statement of the philosophy of Ludwig Feuerbach Here in his most systematic work Feuerbach's thought on religion and on the philosophy of nature achieves its full maturity Central to the thought of Feuerbach is the concept that man not God is the creator that divinities are representations of man's innermost feelings and ideas Philosophy should turn from theology and speculative rationalism to sound factual anthropology My aim in these Lectures writes Feuerbach is to transform friends of God into friends of man believers into thinkers worshippers into workers candidates for the other world into students of this world Christians who on their own confession are half animal and half angel into men whole men

The Ego-Mankind's Inner Terrorist! Gene Matlock, 2005-09 Gene Matlock says personal testimonies of reincarnation contact with spirits bilocation and all manner of psychic events are invalid as scientific proofs Most people aren't conscious of psychic experiences and events operating in their lives Gene says that we can and must provide our fellow humans with a common and collective memory of having lived before They don't need to remember any details of past lives but just the memory of having had repeated births and deaths Gene claims to have valid evidence that all of us remember having lived before Gene also traces the original meaning of God back to its North Indian roots telling how God reveals his/her existence through natural archetypes He says Christianity originated more than ten millennia ago in India as Krishtaya providing historical evidence He also explains carefully why religion can never be eradicated plus many other fascinating and little known facts Gene shows how anyone can break the Bible Code easily without computer assistance Within these pages is a simple instant Cabala for all people of all religions The Encyclopædia Britannica: A-ZYM Day Otis Kellogg, Thomas
