NAUM SLUTZKY, 1894 - 1965 Rüdiger Joppien, 1995 **Jewellery in the Age of Modernism 1918-1940** Simon Bliss, 2018-11-15 Why has jewellery and body adornment often been marginalized in studies of modernist art and design This study explores the relationship between jewellery modernism and modernity from the jazz age to the second world war in order to challenge the view that these portable art forms have only a minor role to play in histories of modernism From the masterworks of the Parisian jewellery houses to the film and photography of Man Ray this study seeks to present jewellery in a new light where issues of representation and display are considered to be as important in the creation of a modern jewellery culture as the objects themselves Drawing on material from museums archives contemporary journals memoirs literary and theoretical texts this study shows how the emergence of modern jewellery began to seriously question conventional notions of body adornment **Transnational Discourses in Nordic Design** Astrid Skjerven, Rachel Gotlieb, 2024-11-14 Challenging the stereotypes of Scandinavian design these essays explore design in Denmark Norway and Sweden and assess the different roles that Finland and the wider Nordic region had in forming an image of Scandinavian design throughout the world By examining the legacy of Nordic design and its global impact editors Astrid Skjerven and Rachel Gotlieb shed light on the development of national and regional design identities and their historical associations Authors investigate the transnational circulation of ideas throughout the later 20th century and consider the influences on design practices production and consumerism They look at how different countries negotiated and promoted Nordic branding and ideology and offer new perspectives on design in relation to sustainability changing economies and indigenous traditions A range of leading international scholars evaluate the popularity of Nordic style in Soviet material culture the influence on jewellery design in post war Britain the impact of national design conferences exhibitions and education in Europe the USA Canada and Japan Drawing from a wealth of archival material and interviews with designers makers and other stakeholders this book reveals a lesser known history of cross cultural collaborations exhibition production and tensions between mainstream and indigenous design in Scandinavia *Transnational Discourses in Nordic Design* also provides an insight into some of the authors own design practices and reveals the challenges facing Nordic designers today **Eva Zeisel** Pat Kirkham, 2013-10-15 Eva Zeisel was one of the twentieth century s most influential ceramicists and designers of modern housewares Her distinctive take on modern industrial design was inspired by organic form and brought beauty and playfulness to housewares earning her designs a beloved place in midcentury homes This richly illustrated volume the first ever complete biographical account of Zeisel s life and work presents an extensive survey of every line she ever created all captured in gorgeous new photography plus 28 short essays from scholars collectors curators and designers The definitive book on the grande dame of twentieth century ceramics this is an essential resource for anyone who appreciates modern design **De Stijl Continued** Jonneke Jobse, 2005 From 1958 to 1964 the journal *Structure* was a major platform for artists

reconsidering the design tenets and underlying principles of the Bauhaus Constructivism and De Stijl This book explores the artists body of ideas in meticulous detail *Besteckentwürfe in Deutschland 1900 - 1945* Jörg Müller-Daehn,Falk Möller,2023 *The Gesamtkunstwerk in Design and Architecture* Anders V. Munch,2021-04-16 The history of modern design and architecture has seen many attempts to embrace and merge different art forms and to bring art into the framing of everyday life and the organisation of modern society in a process understood as total design or total architecture These attempts were historically based on the romanticist idea of merging all art forms into a uniting and transgressing work of art mostly associated with but certainly not limited to Richard Wagner s theoretical writings and musical dramas This utopian dream of the Gesamtkunstwerk or Total Work of Art was intended both to bring unity to the people and to bring art into the everyday life of their homes as well as into factories cities and even modern media As a result the experiments ranged from music poetry and drama to architecture design visual communication and city planning These ideas of merging art forms into more immersive and transgressive installations or design interventions to change everyday life are widespread today but their complex and often problematic roots are mostly ignored Design and architecture have delivered some of the broadest and most influential experiments with the Gesamtkunstwerk from garden cities for workers and corporate identity design to the German AEG corporation *Bauhaus Goes West: Modern Art and Design in Britain and America* Alan Powers,2019-08-20 An exploration of the Bauhaus school and its legacy in the context of the modernist period including its wider influence on art design and education Bauhaus Goes West is the story of cultural and artistic exchange between Germany and the West over a period of seventy years It presents a view of the influential Bauhaus school in relation to the wider modernist period distinguishing between the received idea of the Bauhaus and the documented reality Initially the Bauhaus was seen as an educational experiment only later was it recognized as a style and a movement Working from meticulous research Alan Powers reexamines speculations about the reception and understanding of individuals connected with the Bauhaus school and what they ultimately achieved Looking in greater detail at the theory and practice of art design and architecture between the arts and crafts movement and modernism this book challenges the assumption that the 1920s represented a void of reactionary conservatism Bauhaus Goes West offers an opportunity to recover some of the overlooked aspects of avant garde that ran parallel with the work of the Bauhaus such as the film making of Francis Brugui re and Len Lye and the development of art instruction for children under Marion Richardson and the London County Council

European Designer Jewelry Ginger Moro,1995 The dramatic evolution of 20th century European jewelry design documenting the innovative trends sources and makers Artists limited edition creations as well as fashion and costume jewelry are explored through the well researched text over 700 wonderful photos and vintage prints Biographical sketches are provided for the artists and couturiers who worked closely with the fashion designers **My Modern Movement** Robert Best,2024-10-01 For those of advanced tastes the Modern Movement was a welcome corrective to the debased

aesthetics of the commercial world Massed housing of the 1920s and 30s was as untutored as the products of light industry and both operated far from the enlightened thinking coming out of Central Europe that sought to harness architecture and design to social progress Robert Best the only British industrialist to have trained at art school shared the goal of better mass education but was troubled by the methods of Modernism s propagandists for reasons that they found hard to understand If the few knew better than the many and the many were incapable of raising their own standards was it not reasonable for the few to impose those standards from above And if they did not do so were they not betraying their enlightenment and their obligation to help elevate the less capable Best did not think so and in this extraordinary memoir written in the early 1950s but never published he explores his own growing concerns about the sense of noblesse oblige that directed such bodies as the Council of Industrial Design set up in 1944 to raise the quality of British manufacturing and its saleability This overdue book needs to be read widely to understand what lay behind the idealism of the design world in the second quarter of the 20th century With an introduction by Stephen Games biographer of Sir Nikolaus Pevsner
