Miyazaki's Animism Abroad Eriko Ogihara-Schuck, 2014-10-21 After winning an Oscar for Spirited Away the Japanese director Hayao Miyazaki's animated films were dubbed into many languages. Some of the films are saturated with religious themes distinctive to Japanese culture. How were these themes or what Miyazaki describes as animism received abroad especially considering that they are challenging to translate. This book examines how American and German audiences grounded on Judeo-Christian traditions responded to the animism in Miyazaki's Nausicaa of the Valley of the Wind 1984, My Neighbor Totoro 1988, Princess Mononoke 1997, Spirited Away 2001 and Ponyo on the Cliff by the Sea 2008. By a close reading of adaptations and film reviews and a study of transitions in their verbal and visual approaches to animism, this book demonstrates that the American and German receptions transcended the conventional view of an antagonistic relationship between animism and Christianity. With the ability to change their shapes into forms easily accessible to other cultural arenas, the anime films make a significant contribution to inter-religious dialogue in the age of secularization. Speculations of War Annette M. Magid, 2021-02-15 Late 19th-century science-fiction stories and utopian treatises related to morals and attitudes often focused on economic, sociological, and at times Marxist ideas. More than a century later, science-fiction commonly depicts the inherent dangers of capitalism and imperialism. Examining a variety of conflicts from the Civil War through the post-9/11 era, this collection of new essays explores philosophical introspection and futuristic forecasting in science-fiction, fantasy, utopian literature, and film with a focus on the warlike nature of humanity. **Focus On: 100 Most Popular Fantasy Anime and Manga** Wikipedia contributors, Dialogues between Media Paul Ferstl, 2021-01-18 Comparative Literature is changing fast with methodologies, topics, and research interests emerging and reemerging. The fifth volume of ICLA 2016 proceedings, Dialogues between Media, focuses on the current interest in inter-arts studies as well as papers on comics studies, further testimony to the fact that comics have truly arrived in mainstream academic discourse. Adaptation is a key term for the studies presented in this volume; various articles discuss the adaptation of literary source texts in different target media: cinematic versions, comics, adaptations, TV series, theatre, and opera. Essays on the interplay of media beyond adaptation further show many of the strands that are woven into dialogues between media, and thus the expanding range of comparative literature. **Studio Ghibli Animation as Adaptations** Dominic J. Nardi, Keli Fancher, 2025-05-15 This collection investigates how Hayao Miyazaki, Isao Takahata, and other Studio Ghibli storytellers have approached the process of reimagining literary sources for animation. Studio Ghibli is renowned for its original storytelling in films like My Neighbor Totoro, but many of its most famous films, including Howl's Moving Castle and Ponyo, have their origins in pre-existing novels, manga, or fairy tales. Studio Ghibli's adaptations seldom directly translate source material to animation but instead transform the works to incorporate themes or imagery central to the studio's sensibilities. Studio Ghibli Animation as Adaptations explores how these adaptations often blur genre boundaries and raise questions about what

constitutes fidelity to source material The collection also shows how the studio reinterprets and recontextualizes stories across cultures for Japanese audiences and across mediums like manga

*Mechademia 9* Frenchy Lunning, 2014-11-15 If the source of manga and anime is physically located in Japan the temptation for many critics and scholars is to ask what aspects of Japanese culture and history gave rise to these media This ninth volume of Mechademia an annual collection of critical work on anime and manga challenges the tendency to answer the question of origins by reductively generalizing and essentializing Japaneseness The essays brought together in Mechademia 9 lead us to understand the extent to which Japan might be seen as an idea generated by anime manga and other texts rather than the other way around What is it that manga and anime produce that no other medium can precisely duplicate Is anime its own medium or a genre of animation or something in between And how must we adapt existing critical modes in order to read these new kinds of texts While the authors begin with similar questions about the roots of Japanese popular culture and media they invoke a wide range of theoretical work in the search for answers including feminist criticism disability studies poststructuralist textual criticism postcolonialism art history film theory phenomenology and more Richly provocative and insightful Mechademia 9 both enacts and resists the pursuit of fixed starting points inspiring further creative investigation of this global artistic phenomenon

**Forthcoming Books** Rose Army, 1995 "I'm Just a Comic Book Boy" Christopher B. Field, Keegan Lannon, Michael David MacBride, 2019-02-14 Comics and the punk movement are inextricably linked each has a foundational do it yourself ethos and a nonconformist spirit defiant of authority This collection of new essays provides for the first time a

thorough analysis of the intersections between comics and punk The contributors expand the discussion beyond the familiar U S and UK scenes to include the influence punk has had on comics produced in other countries such as Spain and Turkey

**Animism in Contemporary Japan** Shoko Yoneyama,2018-11-09 Postmodern animism first emerged in grassroots Japan in the aftermath of mercury poisoning in Minamata and the nuclear meltdown in Fukushima Fusing critiques of modernity with intangible cultural heritages it represents a philosophy of the life world where nature is a manifestation of a dynamic life force where all life is interconnected This new animism it is argued could inspire a fundamental rethink of the human nature relationship The book explores this notion of animism through the lens of four prominent figures in Japan animation film director Miyazaki Hayao sociologist Tsurumi Kazuko writer Ishimure Michiko and Minamata fisherman philosopher Ogata Masato Taking a biographical approach it illustrates how these individuals moved towards the conclusion that animism can help humanity survive modernity It contributes to the Anthropocene discourse from a transcultural and transdisciplinary perspective thus addressing themes of nature and spirituality whilst also engaging with arguments from mainstream social sciences Presenting a new perspective for a post anthropocentric paradigm Animism in Contemporary Japan will be useful to students and scholars of sociology anthropology philosophy and Japanese Studies *Miyazaki and the Hero's Journey*

and styles Christopher Bolton's *Interpreting Anime* is a thoughtful carefully organized introduction to Japanese animation for anyone eager to see why this genre has remained a vital adaptable art form for decades *Interpreting Anime* is easily accessible and structured around individual films and a broad array of critical approaches Each chapter centers on a different feature length anime film juxtaposing it with a particular medium like literary fiction classical Japanese theater and contemporary stage drama to reveal what is unique about anime's way of representing the world This analysis is abetted by a suite of questions provoked by each film along with Bolton's incisive responses Throughout *Interpreting Anime* applies multiple frames such as queer theory psychoanalysis and theories of postmodernism giving readers a thorough understanding of both the cultural underpinnings and critical significance of each film What emerges from the sweep of *Interpreting Anime* is Bolton's original articulate case for what makes anime unique as a medium how it at once engages profound social and political realities while also drawing attention to the very challenges of representing reality in animation's imaginative and compelling visual forms
