Nautical Quarterly 32 Winter 1985:

Nautical Quarterly, 1986 Fluid Transients in Fluid-structure Interaction, 1985 American Society of Mechanical Engineers. Winter Annual Meeting, 1985 **The Continental Shelf Beyond 200 Nautical Miles** Joanna Mossop, 2016 This book discusses states rights and obligations concerning the extended continental shelf in international law including protecting the marine environment and regulating activities such as fishing marine bioprospecting and exploitation of non living resources **The Timberclads in the Civil War** Myron J. Smith, Jr., 2008-10-07 In the most detailed history ever of Union warships on the western waters of the Civil War the author recounts the exploits of the timberclad ships Lexington Tyler and Conestoga Converted to warships from commercial steamboats at the beginning of the conflict the three formed the core of the North's Western Flotilla later the Mississippi Squadron The book focuses on the activities of these wooden warriors while providing context for the greater war including accounts of their famous commanders their roles in both large and small battles ship to ship combat and support for the armies of Gen U S Grant and Gen William T Sherman **The Biblical Archaeologist** George Ernest Wright, Frank Moore Cross, Edward Fay Campbell, Floyd Vivian Filson, 1990 The Pepper Wreck Filipe Vieira de Castro, 2005-03-21 In 1606 a Portuguese ship Nossa Senhora dos Martires put into Lisbon laden with peppercorns porcelain and other products from Cochin A large vessel for the time the merchantman displaced twelve hundred tons and carried three to four masts The ship foundered during a storm in a northern channel of the Tagus River Within hours the currents and the storm had torn it asunder and spread its precious cargo along the shores of the estuary The Pepper Wreck tells the story of the ship's excavation by crews working in cold water and fast currents between 1997 and 2000 four centuries after Nossa Senhora dos Martires went down Author Filipe Vieira de Castro discusses the nautical history of Iberia with special attention to shipbuilding and the development of the nau a type of round ship used by the Portuguese on routes to the East He also considers life aboard the ships describing a typical menu musing on the incidence of disease and distinguishing the privileges of the different social classes and the perquisites the more privileged enjoyed Turning to the excavation of the ship Castro describes the site the shifting laws governing archaeology in the region and the fast currents that limited divers to working during ebb tides The objects found with the wreck from pottery to astrolabes contribute substantially to knowledge of early modern shipbuilding techniques Valuable to historians of seafaring and of Iberia and to those interested in Portuguese trade with the East Indies this carefully wrought and generously illustrated volume is a veritable treasure trove for archaeologists **The CSS Arkansas** Myron J. Smith, Jr., 2014-01-10 While the Monitor and Merrimack are the most famous of the Civil War ironclads the Confederacy had another ship in its flotilla that carried high hopes and a metal hull The makeshift CSS Arkansas completed by Lt Isaac Newton Brown and manned by a mixed crew of volunteers gave the South a surge of confidence when it launched in 1862 For 28 days of summer the ship engaged in five battles with Union warships falling victim in the end only to her own primitive engines The saga of

the CSS Arkansas represents the last significant Rebel naval activity in the war's Western theater **The Old War Horse** Myron J. Smith, Jr., 2024-02-26 With a unique prewar history as a snagboat and James B Eads noted catamaran salvage vessel the Benton survived a tumultuous government acquisition process and conversion to become flagship of the Union's Civil War Western river navy From Island No 10 through the Vicksburg and Red River campaigns the revolutionary ironclad participated in both combat and administrative activities earning a prominent place in nautical legend and literature This first book length profile of the warship reveals little known details of both her prewar and wartime career and reviews her final disposal **How Wars Are Won and Lost** John A. Gentry, 2011-11-10 This provocative book seeks to answer a most crucial and embarrassing question concerning the U S military why the United States is so often stymied in military confrontations with seemingly weaker opponents despite its superpower status This fascinating book examines a question that continues to puzzle soldiers statesmen and scholars why do major powers including the ostensible superpower United States repeatedly perform poorly against seemingly overmatched adversaries And what can they and the United States do to better achieve their military objectives How Wars are Won and Lost Vulnerability and Military Power argues that beyond relying solely on overwhelming military might the United States needs to focus more on exploiting weaknesses in their adversaries such as national will resource mobilization and strategic miscues just as opposing forces have done to gain advantage over our military efforts The author tests the vulnerability theory by revisiting six conflicts from the Philippine War of 1899 1902 to the ongoing actions in Iraq and Afghanistan showing again and again that victory often depends more on outthinking the enemy than outmuscling them The Legend of Chris-Craft Jeffrey L. Rodengen, 1993 America's most popular nautical gift is back as an all new third edition The Legend of Chris Craft by noted author and historian Jeffrey L Rodengen with photography and design by Karine Rodengen This luxurious 9 x 12 coffee table volume details the history of the company people and products that made Chris Craft world famous The third edition contains new information a new chapter additional photos and a precise new index to over 1 500 models built between 1874 and 1998 Even owners of the original will want the new third edition for their collections Individually boxed 272 pp 103 color 260 black white images

The USS Carondelet Myron J. Smith, Jr., 2010-04-13 The USS Carondelet had a revolutionary ship design and was the most active of all the Union's Civil War river ironclads From Fort Henry through the siege of Vicksburg and from the Red River campaign through the Battle of Nashville the gunboat was prominent in war legend and literature This history draws on the letters of Ensign Scott Dyer Jordan and Rear Adm Henry Walke's memoirs *The Fight for the Yazoo, August 1862-July 1864* Myron J. Smith, Jr., 2014-01-10 Following the loss of the CSS Arkansas in early August 1862 Union and Confederate eyes turned to the Yazoo River which formed the developing northern flank for the South's fortress at Vicksburg Mississippi For much of the next year Federal efforts to capture the citadel focused on possession of that stream Huge battles and mighty expeditions were launched Chickasaw Bayou Yazoo Pass Steele's Bayou from that direction but the city

guarded by stout defenses swamps and motivated defenders could not be turned Finally Union troops ran down the Mississippi and came up from the south and the river defenses and the bastion itself were taken from the east From July 1863 to August 1864 sporadic Confederate resistance necessitated continued Federal attention This book recounts the whole story *The Historical Archaeology of Military Sites* Clarence Raymond Geier, Lawrence E. Babits, Douglas Dowell Scott, David G. Orr, 2010-12-15 The recent work of anthropologists historians and historical archaeologists has changed the very essence of military history While once preoccupied with great battles and the generals who commanded the armies and employed the tactics military history has begun to emphasize the importance of the common man for interpreting events As a result military historians have begun to see military forces and the people serving in them from different perspectives The Historical Archaeology of Military Sites has encouraged efforts to understand armies as human communities and to address the lives of those who composed them Tying a group of combatants to the successes and failures of their military commanders leads to a failure to understand such groups as distinct social units and in some instances self supporting societies structured around a defined social and political hierarchy regulated by law needing to be supplied and nurtured and often at odds with the human community whose lands they occupied be they those of friend or foe The Historical Archaeology of Military Sites will afford students professionals dealing with military sites and the interested public examples of the latest techniques and proven field methods to aid understanding and conservation of these vital pieces of the world's heritage **A**
