Carlisle,1999 Over the years Welles Henderson the author of this intriguing book noted that the majority of maritime museums throughout the world placed their emphasis on ship paintings ship models figureheads navigation equipment nautical tools and weapons but

gave little insight into the daily life of the ordinary sailor For over four decades therefore he has been collecting material in an attempt to fill the gap This has been a great challenge as comparatively few real life depictions of shipboard activities and the life of a sailor at sea were made during the eighteenth and much of the nineteenth century There are countless ship portraits but very little of the human interest side of the sailor afloat While many well known expeditions including that of Captain James Cook had artists accompany them practically all their depictions were of flora fauna landscapes and local inhabitants rather than of shipboard life Finding a piece here and a piece there however Welles Henderson has painstakingly succeeded in putting together a fascinating mosaic of the life of a sailor from the time of his going off to sea until his death on board or on shore *Travels* Broadsheet Media,2022-10-25 There s nowhere quite like Australia Travels celebrates all that makes the country special from its natural beauty and ancient culture to its creative cities Discover remote thermal springs luxe tropical islands scenic day hikes deserted beaches regional art galleries easygoing country pubs the best restaurants in each city and more Featuring unforgettable destinations and experiences across all states and territories this is the ultimate Australian travel guide This is a specially formatted fixed layout ebook that retains the look and feel of the print book **Art & Antiques** ,1999
