Nautilus Sanction:

Federal Energy Regulatory Commission Reports United States. Federal Energy Regulatory Commission, 2002-04
Louisiana Scoundrels Dr. Alan N. Brown, 2025-01-07 Author Alan Brown guides the intrepid on a dark tour of the Pelican State's most infamous residents Louisiana beckons those the world over with its culture and Spanish moss draped beauty But that magnetic pull has also summoned a cast of reprobates vile enough to fill a book In this version of Louisiana pirate Jean Lafitte and gentlemanly train robber Eugene Bunch go ahead and help themselves to whatever they like murderous dentist Etienne De Champs is the stuff of dentophobic nightmares a psychotic killer known as The Axeman stalks the streets of New Orleans and a hail of bullets greets Bonnie and Clyde Indeed the sadistic Delphine LaLaurie and Voodoo Queen Clementine Barnabet are quite comfortable in this decidedly non moss draped history The Nautilus Sanction Simon Hawke, 1985 Time travel can be extremely hazardous to your health Especially if like Major Lucas Priest you're an agent of the elite Temporal Corps Anytime anywhere the Time Wars could begin again Now the Nautilus a Russian supersub armed with enough nuclear power to blow history apart at the seams has been hijacked from the 27th century Priest and his commandos clock back to pursue the sub and come face to face with a man whose thirst for revenge is so great he would start the greatest war of all time everywhere at once To stop him the Time Commandos have only the help of the Canadian fisherman Ned Land and a middle aged French writer of voyages extraordinaires named Jules Verne American Sanctions in the Asia-Pacific Brendan Taylor, 2009-12-04 Sanctions are a persistent many would argue increasingly central component of American efforts to shape foreign policy outcomes in the Asia Pacific The use of sanctions in the context of two of the most pressing regional security issues currently on Washington's radar the ongoing North Korean nuclear crisis and the management of China's emergence clearly reaffirms this pattern This book provides the first comprehensive treatment of US sanctions policy in the Asia Pacific Using the Bill Clinton and George W Bush presidencies as a basis for comparison it examines nine prominent episodes involving the US use of sanctions toward countries in this economically and strategically vital part of the world In each case it addresses the reasons why sanctions were employed in the first place the precise nature of sanctions and how they operated in practice before evaluating their effectiveness Finally it identifies common trends that emerge from this analysis and draws out practical implications for US sanctions policy in particular when and how the US can and cannot optimally use sanctions in an Asia Pacific context **Sanctions as Grand Strategy** Brendan Taylor, 2012-12-06 Economic sanctions are becoming increasingly central to shaping strategic outcomes in the twenty first century They afford great powers a means by which to seek to influence the behaviour of states to demonstrate international leadership and to express common values for the benefit of the international community at large Closer to home they can also offer a middle way for governments that apply them satisfying moderates and hardliners alike For some great powers in the multipolar world order however they pose a threat to trading relationships They may also serve as a prelude to military

action With China's international voice growing in prominence and Russia asserting its renewed strength often in opposition to the use of sanctions it will be ever more difficult to reach a consensus on their application Against this backdrop knowing what kind of measures to take and in which scenarios they are most likely to work is invaluable This Adelphi focuses on the different sanctions strategies of the United States China Russia Japan and the EU with regard to the unfolding nuclear crises in Iran and North Korea It examines how these measures designed to marginalise the regimes in both countries and restrict their ability to develop nuclear weapons have also influenced the sanctioning states international partners As such they are not just a tool of statecraft they are potentially an important facet of grand strategy *Sequels* Janet G. Husband, Jonathan F. Husband, 2009 A guide to series fiction lists popular series identifies novels by character and offers guidance on the order in which to read unnumbered series Peace Regime Building on the Korean Peninsula and Northeast Asian Security Cooperation Seung-Ho Joo, 2016-05-13 A permanent peace regime on the Korean peninsula has yet to be achieved even though the Korean War came to a halt more than half a century ago Without a peace treaty formally ending the Korean War the two Korean states are technically still at war The current situation on the Korean peninsula is extremely tense and precarious and tensions and distrust between the two Koreas and between the U S and North Korea escalated in the wake of North Korea's second underground nuclear weapons testing in 2009 The editors of this volume conceptually present a two track inter Korean and international approach to Korean peninsula peace regime building They argue that an inter Korean and international approach should be pursued simultaneously for the construction of a permanent peace regime on the Korean peninsula The contributing authors are established specialists and experts on Korean foreign relations and Northeast Asian international relations As natives of the U S Korea China and Japan they provide objective scholarly and diverse perspectives on the Korean peace regime building **The Outlaws of the Air** George Griffith, 2014-10-10 George Griffith writes an imaginative futuristic tale about aerial warfare and a new Utopian Colony in the Pacific *North Korean Military Proliferation in the Middle East and Africa* Bruce E. Bechtol Jr., 2018-09-07 North Korea has posed a threat to stability in Northeast Asia for decades Since Kim Jong un assumed power this threat has both increased and broadened Since 2011 the small isolated nation has detonated nuclear weapons multiple times tested a wide variety of ballistic missiles expanded naval and ground systems that threaten South Korea and routinely employs hostile rhetoric Another threat it poses has been less recognized North Korea presents a potentially greater risk to American interests by exporting its weapons systems to other volatile regions worldwide In *North Korean Military Proliferation in the Middle East and Africa* Bruce E Bechtol Jr analyzes relevant North Korean military capabilities what arms the nation provides and to whom how it skirts its sanctions and how North Korea's activities can best be contained He traces illicit networks that lead to state and nonstate actors in the Middle East including Syria Iran Hezbollah and Hamas and throughout Africa including at least a dozen nations The potential proliferation of nuclear and chemical weapons technology and the vehicles that carry it including ballistic missiles and

artillery represent a broader threat than the leadership in Pyongyang Including training and infrastructure support North Korea s profits may range into the billions of dollars all concealed in illicit networks and front companies so complex that the nation struggles to track and control them Bechtol not only presents an accurate picture of the current North Korean threat he also outlines methodologies that Washington and the international community must embrace in order to contain it

Sanctions, Statecraft, and Nuclear Proliferation Etel Solingen, 2012-03-29 Leading scholars analyse key dilemmas in the application of sanctions and inducements on states that violate international non proliferation commitments
