## Navajo Slave:

*Kit Carson and the Indians* Thomas W. Dunlay, 2005-05-01 Portrayed by past historians as the greatest guide and Indian fighter in the West Kit Carson has become in recent years a historical pariah a brutal murderer who betrayed the Navajos and an unwitting dupe of American expansion and a racist Many historians now question both his reputation and his place in the pantheon of American heroes Here we are urged to reconsider Carson yet again Carson was a man of the nineteenth century whose racial views and actions were much like those of his contemporaries [Blanket Weaving in the Southwest](#) Joe Ben Wheat, 2022-06-21 Exquisite blankets sarapes and ponchos handwoven by southwestern peoples are admired throughout the world Despite many popularized accounts serious gaps have existed in our understanding of these textiles gaps that one man devoted years of scholarly attention to address During much of his career anthropologist Joe Ben Wheat 1916 1997 earned a reputation as a preeminent authority on southwestern and plains prehistory Beginning in 1972 he turned his scientific methods and considerable talents to historical questions as well He visited dozens of museums to study thousands of nineteenth century textiles oversaw chemical tests of dyes from hundreds of yarns and sought out obscure archives to research the material and documentary basis for textile development His goal was to establish a key for southwestern textile identification based on the traits that distinguish the Pueblo Navajo and Spanish American blanket weaving traditions and thereby provide a better way of identifying and dating pieces of unknown origin Wheat's years of research resulted in a masterful classification scheme for southwestern textiles and a book that establishes an essential baseline for understanding craft production Nearly completed before Wheat's death *Blanket Weaving in the Southwest* describes the evolution of southwestern textiles from the early historic period to the late nineteenth century establishes a revised chronology for its development and traces significant changes in materials techniques and designs Wheat first relates what Spanish observers learned about the state of native weaving in the region a historical review that reveals the impact of new technologies and economies on a traditional craft Subsequent chapters deal with fibers yarns dyes and fabric structures including an unprecedented examination of the nature variety and origins of bayeta yarns and with tools weaves and finishing techniques A final chapter constructed by editor Ann Hedlund from Wheat's notes provides clues to his evolving ideas about the development of textile design Hedlund herself a respected textile scholar and a protégé of Wheat's is uniquely qualified to interpret the many notes he left behind and brings her own understanding of weaving to every facet of the text She has ensured that Wheat's research is applicable to the needs of scholars collectors and general readers alike Throughout the text Wheat discusses and evaluates the distinct traits of the three textile traditions More than 200 photos demonstrate these features including 191 color plates depicting a vast array of chief blankets shoulder blankets ponchos sarapes diyugi mantas and dresses from museum collections nationwide In addition dozens of line drawings demonstrate the fine points of technique concerning weaves edge finishes and corner tassels Through his groundbreaking and painstaking

**Spatial and Discursive Violence in the US Southwest** Rosaura Sánchez, Beatrice Pita, 2021-03-01 In *Spatial and Discursive Violence in the US Southwest* Rosaura Sánchez and Beatrice Pita examine literary representations of settler colonial land enclosure and dispossession in the history of New Mexico Texas and Oklahoma Sánchez and Pita analyze a range of Chicano a and Native American novels films short stories and other cultural artifacts from the eighteenth century to the present showing how Chicano a works often celebrate an idealized colonial Spanish past as a way to counter stereotypes of Mexican and Indigenous racial and ethnic inferiority As they demonstrate these texts often erase the participation of Spanish and Mexican settlers in the dispossession of Indigenous lands Foregrounding the relationship between literature and settler colonialism they consider how literary representations of land are manipulated and redefined in ways that point to the changing practices of dispossession In so doing Sánchez and Pita prompt critics to reconsider the role of settler colonialism in the deep history of the United States and how spatial and discursive violence are always correlated

**Formal Approaches to Function in Grammar** Andrew Carnie, Heidi Harley, MaryAnn Willie, Eloise Jelinek, 2003-01-01 The contributions making

up this volume in honor of Eloise Jelinek are written from a formalist perspective that deals with stereotypically functionalist questions about language Jelinek's pioneering work in formalist syntax has shown that autonomous syntax need not exist in a vacuum Her work has highlighted the importance of incorporating the effects of discourse and information structure on the syntactic representation This book aims to invoke Jelinek's work either in substance or spirit The focus is on Jelinek's influential Pronominal Argument Hypothesis as an non configurational language the influence of discourse related interface phenomena on syntactic structure the syntactic analysis of the grammaticalization interactions between morphology phonology and phonetics and foundational issues about the link between formal grammar and function of language as well as the methodological issues underlying the different approaches to linguistics *The Syntax of Imperatives* Asier

Alcázar, Mario Saltarelli, 2014-01-23 The imperative clause is one of three major sentence types that have been found to be universal across the languages of the world Compared to declaratives and interrogatives the imperative type has received comparatively less attention Using compelling empirical evidence this cutting edge study presents a new linguistic theory of imperatives The World Atlas of Language Structures Martin Haspelmath, Matthew S.
