### **History of United States Naval Operations in World War II: The rising sun in the Pacific, 1931-April 1942**

Samuel Eliot Morison,2001 Volume III The Rising Sun in the Pacific 1931 April 1942 chronicles the difficult early months of the campaign in the Pacific detailing the navy's reverses at Wake Island in the Philippines and along the Malay Barrier

The Eagle and the Rising Sun Alan Schom,2004 On Saturday August 2 1941 the Washington Post reported that President Franklin D Roosevelt would depart the next day for a fishing vacation aboard his yacht Potomac By the morning of August 5 the Potomac was sailing toward the fishing waters off Cape Cod but the president was not on board Having quietly disembarked in the middle of the night the president now joined by his top military advisors was headed for Newfoundland where the U S and British governments would meet in a secret summit to coordinate their military efforts although the United States had yet to declare war on Germany The British were appalled at the state of American preparedness one British colonel remarking They have a long way to go before they can play any decisive part in the war But ready or not the United States would be catapulted into World War II within a matter of months Alan Schom's superb histories and biographies have been lauded for their dramatic sweep their focus on extraordinary personalities and their refreshingly iconoclastic perspective Schom begins this magisterial account of World War II in the Pacific by demonstrating an ironic paradox on one hand the American government and people were as inadequately prepared for war as any major power ever has been on the other the Japanese high command plunged headlong into the Pacific campaign despite clear evidence from their own analysts that Japan had too little oil and too feeble an economy to prevail against the United States It was a war that should not have been fought Schom recounts a tense saga of diplomatic maneuvering strategic blunders and pivotal successes played out in the halls of the White House Downing Street and the Imperial Palace as well as on the seas and shores of the Pacific Key figures in the war come vividly to life in a series of brilliant biographical sketches Emperor Hirohito a devotee of Western pursuits such as golf and jazz who hungered to expand Japan's global reach the destructively egotistical General Douglas MacArthur whose splendid achievements in World War I stood in stark contrast to his incompetent leadership in the Philippines Rear Admiral Kelly Turner whose realism and tactical savvy played a crucial role in turning the tide of the war and the cool headed Admiral Tanaka Raizo who repeatedly slipped through the Allied net transporting troops and supplies to and from Guadalcanal *The Eagle and the Rising Sun* embraces the broad strategic concerns of the war and the telling details and turning points of individual engagements As Rear Admiral Thomas Marfiak Ret CEO and publisher of

the U S Naval Institute writes in the Foreword From time to time we are privileged to be given extraordinary insights into the history of our age Alan Schom has given us a tapestry into which he has woven figures of immense proportions yet he has not lost sight of their humanity He writes in the grand tradition of Barbara Tuchman s The Guns of August Book jacket Rising Sun in the Pacific: 1931 - April 1942 - Volume 3 Samuel Eliot Morison,1948-01-30 History of the United States Naval Operations in World War II **The Military History of World War II** Trevor Nevitt Dupuy,1963 **War in the Pacific** Bernard C. Nalty,1999 The collective effort of ten military historians describes World War II s Pacific campaign describing each step of the conflict with clarity and in exhaustive detail Color maps Photos many in color **Rising Sun, Falling Skies** Jeffrey Cox,2014-03-20 Following the attack on Pearl Harbor the Japanese offensive in the Far East seemed unstoppable Allied forces engaged in a futile attempt to halt their rapid advance culminating in the massed fleet of American British Dutch and Australian forces ABDA clashing with the Japanese at the battle of the Java Sea the first major sea battle of World War II in the Pacific But in a campaign crippled by poor leadership and disastrous decisions the Allied response was catastrophic losing their largest warships and their tenuous toe hold in the south Pacific within the first 72 hours of the battle This defeat left ground troops cut off from reinforcement and supply with obsolete equipment no defense against endless Japanese air attacks and with no chance of retreat However although command decisions were to condemn the Allies to defeat the Allied goal was never an outright victory simply a delaying action Facing a relentless and thoroughly vicious enemy the combined forces responded not by running or surrendering but by defiantly holding on in a struggle that was as much a test of character bravery and determination as it was a test of arms ultimately costing the Allies ten vessels and the lives of 2 100 brave sailors In Rising Sun Falling Skies Jeffrey Cox examines the events and evidence surrounding the Java Sea Campaign reconstructing battles that in hindsight were all but hopeless and revealing where fatal mistakes and missed opportunities condemned the Allied forces in an insightful and compelling study of the largely overlooked clash in the Java Sea The Illustrated History of World War II. Trevor Nevitt Dupuy,1966 The Rising Sun John Toland,2014-11-26 The Rising Sun is quite possibly the most readable yet informative account of the Pacific war Chicago Sun Times This Pulitzer Prize winning history of World War II chronicles the dramatic rise and fall of the Japanese empire from the invasion of Manchuria and China to the atomic bombing of Hiroshima and Nagasaki Told from the Japanese perspective The Rising Sun is in the author s words a factual saga of people caught up in the flood of the most overwhelming war of mankind told as it happened muddled ennobling disgraceful frustrating full of paradox In weaving together the historical facts and human drama leading up to and culminating in the war in the Pacific Toland crafts a riveting and unbiased narrative history In his Foreword Toland says that if we are to draw any conclusion from The Rising Sun it is that there are no simple lessons in history that it is human nature that repeats itself not history Unbelievably rich readable and exciting The best parts of Toland s book are not the battle scenes but the intimate view he gives of the highest reaches of Tokyo politics Newsweek **The**

**Early Air War in the Pacific** Ralph F. Wetterhahn, 2019-11-29 During the first 10 months of the war in the Pacific Japan achieved air supremacy with its carrier and land based forces But after major setbacks at Midway and Guadalcanal the empire's expansion stalled in part due to flaws in aircraft design strategy and command This book offers a fresh analysis of the air war in the Pacific during the early phases of World War II Details are included from two expeditions conducted by the author that reveal the location of an American pilot missing in the Philippines since 1942 and clear up a controversial account involving famed Japanese ace Saburo Sakai and U S Navy pilot James Pug Southerland *The War in the Pacific: Fall of the Philippines (Paperback)* , **Storm Clouds over the Pacific, 1931-1941** Peter Harmsen, 2020-01-10 An excellent primer about World War II in Asia prior to the involvement of the United States part one of a fascinating history trilogy New York Journal of Books War in the Far East is a trilogy of books offering the most complete narrative yet written about the Pacific Theater of World War II and the first truly international treatment of the epic conflict Historian Peter Harmsen weaves together a complex and revealing narrative including facets of the war that are often overlooked in historic narratives He explores the war in subarctic conditions on the Aleutians details the mass starvations in China Indochina and India and offers a range of perspectives on the war experience from the Oval Office to the blistering sands of Peleliu Storm Clouds Over the Pacific begins the story long before Pearl Harbor showing how the war can only be understood if ancient hatreds and long standing geopolitics are taken into account Harmsen demonstrates how Japan and China's ancient enmity led to increased tensions in the 1930s which in turn exploded into conflict in 1937 The battles of Shanghai and Nanjing were followed by the Battle of Taiierzhuang in 1938 China's only major victory A war of attrition continued up to 1941 the year when Japan made the momentous decision to pursue all out war The infamous attack on Pearl Harbor catapulted the United States into the war as the Japanese also overran British and Dutch territories throughout the western Pacific **Pacific Crucible: War at Sea in the Pacific, 1941-1942 (Vol. 1) (The Pacific War Trilogy)** Ian W. Toll, 2011-11-14 Winner of the Northern California Book Award for Nonfiction Both a serious work of history and a marvelously readable dramatic narrative San Francisco Chronicle On the first Sunday in December 1941 an armada of Japanese warplanes appeared suddenly over Pearl Harbor Hawaii and devastated the U S Pacific Fleet Six months later in a sea fight north of the tiny atoll of Midway four Japanese aircraft carriers were sent into the abyss a blow that destroyed the offensive power of their fleet Pacific Crucible through a dramatic narrative relying predominantly on primary sources and eyewitness accounts of heroism and sacrifice from both navies tells the epic tale of these first searing months of the Pacific war when the U S Navy shook off the worst defeat in American military history to seize the strategic initiative Maritime Strategy and Sea Control Milan Vego, 2016-04-14 This book focuses on the key naval strategic objectives of obtaining and maintaining sea control During times of war sea control or the ability of combatants to enjoy naval dominance plays a crucial role in that side's ability to attain overall victory This book explains and analyzes in much greater detail sea control in all its complexities and describes

the main methods of obtaining and maintaining it Building on the views of naval classical thinkers this book utilizes historical examples to illustrate the main methods of sea control Each chapter focuses on a particular method including destroying the enemy forces by a decisive action destroying enemy forces over time attrition containing enemy fleet choke point control and capturing important enemy s positions basing area The aim is to provide a comprehensive theory and practice of the struggle for sea control at the operational level It should therefore provide a guide to practitioners on how to plan and conduct operational warfare at sea The book will be of much interest to students of naval strategy defence studies and security studies

**Japanese Military Strategy in the Pacific War** James B Wood,2023-06-14 In this provocative history James B Wood challenges the received wisdom that Japan s defeat in the Pacific was historically inevitable He argues instead that it was only when the Japanese military prematurely abandoned its original sound strategic plan to secure the resources Japan needed and establish a viable defensible perimeter for the Empire that the Allies were able to regain the initiative and lock Japanese forces into a war of attrition they were not prepared to fight The book persuasively shows how the Japanese army and navy had both the opportunity and the capability to have fought a different and more successful war in the Pacific that could have influenced the course and outcome of World War II It is therefore a study both of Japanese defeat and of what was needed to achieve a potential Japanese victory or at the very least to avoid total ruin Wood s argument does not depend on signal individual historical events or dramatic accidents Instead it examines how familiar events could have b Showdown in the Pacific War Ronald E. Martell,2015-03-06 Showdown in the Pacific War Nimitz and Yamamoto This unique book combines a carefully researched history with an easy to read analysis of the war in a fictional meeting between staff officers close to Admirals Chester Nimitz and Isoroku Yamamoto They trace the events leading to the Pacific War and the heroic struggles following the attack on Pearl Harbor to the eclipse of the Japanese war machine at Coral Sea Midway Guadalcanal and beyond Showdown reveals Yamamotos opposition to Japans waging a war it could not win along with his planning of her early successes and Admiral Nimitzs patient and careful reversal of the Empires offensives Showdown presents an even handed view of the nations that waged combat in the early stages of historys most famous naval war Ron Martell has given us a new and very interesting look at World War II in the Pacific Instead of simply retelling history he puts the reader in a fictitious yet plausible latter day conference between two of the conflicts high ranking adversaries key staff officers of the American and Japanese navies Its a genuine page turner for any fan of World War II history Ronald Russell author of No Right to Win A Continuing Dialogue with Veterans of the Battle of Midway Showdown in the Pacific is a thoroughly enjoyable read If someone asks me for a single book to read on how the Pacific War started and then was fought for the first 18 months I will heartily recommend this one Thom Walla Editor and Host of The Battle of Midway RoundTable Tropical Warfare in the Asia-Pacific Region, 1941-45 Kaushik Roy,2017-10-25 This is the first book to provide a comprehensive overview of the land war during the Second World War in South East Asia and the South and South West Pacific The extensive existing

literature focuses on particular armies Japanese British American Australian or Indian and or on particular theatres the Philippines Papua New Guinea Malaya or Burma This book on the contrary argues that warfare in all the theatres was very similar especially the difficulties of the undeveloped terrain and that there was considerable interchange of ideas between the allied armies which enabled the spread of best practice among them The book considers tactics training technology and logistics assesses the changing state of the combat effectiveness of the different armies and traces the course of the war from the Japanese Blitzkrieg of 1941 through the later stalemate and the hard fought Allied fightback Although the book concentrates on ground forces due attention is also given to air forces and amphibious operations One important argument put forward by the author is that the defeat of the Japanese was not inevitable and that it was brought about by chance and considerable tactical ingenuity on the part of US and British imperial forces
