Navalists And Antinavalists

Richard Harding

Navalists And Antinavalists:

Navalists and Antinavalists Craig Les Symonds, 1976 **Navalists and Antinavalists** Craig L. Symonds, 1980 Naval History 1680-1850 Richard Harding, 2017-11-30 This collection of essays sets out to present a sample of the rich diversity of writings on naval history in this period. The collection covers subjects ranging from strategy, operations and tactics to administration, technology and the maritime economy. Within this volume, the reader will be able to see essays that influenced the development of modern naval history through to samples of some of the latest research. Talking about Naval History John B. Hattendorf, 2011. NOTE: NO FURTHER DISCOUNT ON THIS PRINT PRODUCT OVER STOCK SALE. Significantly reduced list price. Twenty essays selected from the writings of John B. Hattendorf, Ernest J. King, Professor of Maritime History at the U.S. Naval War College between 2001 and 2009. They represent a wide historical perspective that ranges across nearly four centuries of maritime history. A number of these pieces have been published previously but have appeared in other languages and in other countries where they may not have come to the attention of an American naval reading audience. This collection is divided into parts that deal with four major themes: the broad field of maritime history; general naval history with specific focus on the classical age of sail from the mid-seventeenth century to the end of the Napoleonic Wars in 1815; the wide scope of American naval history from 1775 to the end of the twentieth century; and finally, the realm of naval theory and its relationship to naval historical studies. They are reprinted with only minor alterations as they originally appeared. This work may appeal to general history readers, scholarly and general adult readers of history, especially naval and maritime, plus students pursuing coursework in military science degree programs. Silverman, 2015-03-09. The thirteen mainland colonies of early America were arguably never more British than on the eve of their War of Independence from Britain. Though home to settlers of diverse national and cultural backgrounds, colonial America gradually became more like Britain in its political and

judicial systems material culture economies religious systems and engagements with the empire At the same time and by the same process these politically distinct and geographically distant colonies forged a shared cultural identity one that would bind them together as a nation during the Revolution Anglicizing America revisits the theory of Anglicization considering its application to the history of the Atlantic world from Britain to the Caribbean to the western wildernesses at key moments before during and after the American Revolution Ten essays by senior historians trace the complex processes by which global forces local economies and individual motives interacted to reinforce a more centralized and unified social movement They examine the ways English ideas about labor influenced plantation slavery how Great Britain's imperial aspirations shaped American militarization the influence of religious tolerance on political unity and how Americans relationship to Great Britain after the war impacted the early republic's naval and taxation policies As a whole Anglicizing America offers a compelling framework for explaining the complex processes at work in the western hemisphere during the age of revolutions

Contributors Denver Brunsman William Howard Carter Ignacio Gallup Diaz Anthony M Joseph Simon P Newman Geoffrey Plank Nancy L Rhoden Andrew Shankman David J Silverman Jeremy A Stern American Amphibious Warfare Gary J Ohls, 2017-12-15 American Amphibious Warfare offers analysis of the early amphibious landing operations from the Revolutionary War to the Civil War Through a case study approach the operational and strategic significance of each action is analyzed and its impact on the development of the United States is assessed By focusing on seven major campaigns Gary J Ohls provides readers with a richer appreciation of the origins of American amphibious warfare For many Americans the concept of amphibious warfare derives from the World War II model in which landing forces assaulted foreign shores and faced determined resistance These actions usually resulted in very high casualty rates yet they proved uniformly successful The circumstances of geography coupled with the weapons and equipment available at that time dictated this type of warfare During the eighteenth and nineteenth centuries no such equipment or weapons existed for assaulting defended beaches Commanders attempted to land their forces in areas where the resistance would be light or nonexistent The initiative and maneuverability inherent in naval forces permitted the delivery of combat power to the point of attack faster than the land based defenders could react Ohls explains how amphibious traditions began in this era and shows how they compare with modern amphibious forces particularly the tactics of today's U S Marine Corps The author makes a compelling case for a continuing tradition of American amphibious warfare learned and honed through a set of key battles and carried forward Further Ohls argues that the Marine Corps is the true inheritor of this warfare tradition formed in early America concluding that weapons and equipment coupled with new doctrine actually allow modern forces to return to the sort of amphibious tactics and operations practiced more than two centuries ago Both a work of history as well as an analysis of operational conflict this study should please readers looking for a clearer understanding of U S amphibious operations Since the concepts presented in this book continue to serve as excellent tools for both the professional officer and the analytical historian

American Amphibious Warfare as a whole provides a much needed comprehensive history of naval and military warfare

Economic Warfare and the Sea David G. Morgan-Owen, Louis Halewood, 2020 *Economic Warfare and the Sea* examines the relationship between trade maritime warfare and strategic thought between the early modern period and the late twentieth century Using a variety of geographic and chronological examples it presents a *longue duree* approach to a crucial theme in maritime strategic thought

The Routledge Handbook of the War of 1812 Donald R. Hickey, Connie D. Clark, 2015-10-08 The War of 1812 ranged over a remarkably large territory as the fledgling United States battled Great Britain at sea and on land across what is now the eastern half of the U S and Canada Native people and the Spanish were also involved in the war s interrelated conflicts Often overlooked the War of 1812 has been the subject of an explosion of new research over the past twenty five years The Routledge Handbook of the War of 1812 brings together the insights of this research through an array of fresh essays by leading scholars in the field offering an overview of current understandings of the war that will be a vital reference for students and researchers alike The essays in this volume examine a wide range of military political social and cultural dimensions of the war With full consideration given to American Canadian British and native viewpoints the international group of contributors place the war in national and international context chart the course of events in its different theaters consider the war s legacy and commemoration and examine the roles of women African Americans and natives Capturing the state of the field in a single volume this handbook is a must have resource for anyone with an interest in early America

Policing the Seas Mark C. Hunter, 2017-10-18 This study explores the British and American attempts to suppress both piracy and slavery in the equatorial Atlantic in the period 1816 to 1865 It aims to demonstrate the pivotal role of naval policy in defining the Anglo American relationship It defines the equatorial Atlantic as the region encompassing the coastal zones of the Gulf of Mexico Central America Northern Brazil and the African coast from Cape Verde to the south of the Congo River It explores the use of sea power by both nations in pursuit of their goals and the Anglo American naval relations during this relatively co operative period At its core it argues that naval activities result from national interests in this instance protecting commerce and furthering economic objectives a source of tension between America and Britain during the period It confirms that the two nations were neither allies nor enemies during the period yet learnt to co exist non violently through their strategic use of sea power during peacetime The study consists of an introductory chapter eight chapters of analysis and a select bibliography

A Companion to American Military History James C. Bradford, 2009-11-03 With more than 60 essays *A Companion to American Military History* presents a comprehensive analysis of the historiography of United States military history from the colonial era to the present Covers the entire spectrum of US history from the Indian and imperial conflicts of the seventeenth century to the battles in Afghanistan and Iraq Features an unprecedented breadth of coverage from eminent military historians and emerging scholars including little studied topics such as the military and music military ethics care of the dead and sports Surveys and evaluates the best

scholarship on every important area and topic Summarizes current debates and identifies areas where conflicting interpretations are in need of further study
