Navigating the Tides of Change David La Chapelle, 2001 This evocative work addresses the challenge of navigating the accelerating pace of change effectively so that we can live more sustainably through the medium of stories told from modern science esoteric and spiritual traditions and Earth wisdom By integrating these often strange bedfellows as well as by emulating great thinkers and doers from history Navigating the Tides of Change presents a compelling case that humankind can create a future in harmony with the Earth Choose Wisely Gary J. Boelhower, 2013 A model for wise decision making that proposes a process and a set of criteria based on core principles found across the spiritual traditions of the world

Wisdom of Weeds Katrina Blair, 2014-10-07 The Wild Wisdom of Weeds is the only book on foraging and edible weeds to focus
on the thirteen weeds found all over the world each of which represents a complete food source and extensive medical
pharmacy and first aid kit More than just a field guide to wild edibles it is a global plan for human survival When Katrina
Blair was eleven she had a life changing experience where wild plants spoke to her beckoning her to become a champion of
their cause Since then she has spent months on end taking walkabouts in the wild eating nothing but what she forages and
has become a wild foods advocate community activist gardener and chef teaching and presenting internationally about
foraging and the healthful lifestyle it promotes Katrina Blair's philosophy in The Wild Wisdom of Weeds is sobering realistic
and ultimately optimistic If we can open our eyes to see the wisdom found in these weeds right under our noses instead of
trying to eradicate an invasive we will achieve true food security The Wild Wisdom of Weeds is about healing ourselves both
in body and in spirit in an age where technology commodity agriculture and processed foods dictate the terms of our
intelligence But if we can become familiar with these thirteen edible survival weeds found all over the world we will never go
hungry and we will become closer to our own wild human instincts all the while enjoying the freshest wildest and most
nutritious food there is For free The thirteen plants found growing in every region across the world are dandelion mallow
purslane plantain thistle amaranth dock mustard grass chickweed clover lambsquarter and knotweed These special plants
contribute to the regeneration of the earth while supporting the survival of our human species they grow everywhere where
human civilization exists from the hottest deserts to the Arctic Circle following the path of human disturbance Indeed the
more humans disturb the earth and put our food supply at risk the more these thirteen plants proliferate It's a survival plan
for the ages Including over one hundred unique recipes Katrina Blair's book teaches us how to prepare these wild plants
from root to seed in soups salads slaws crackers pestos seed breads and seed butters cereals green powders sauerkrauts
smoothies and milks first aid concoctions such as tinctures teas salves and soothers self care beauty products including
shampoo mouthwash toothpaste and brush face masks and a lot more Whether readers are based at home or traveling this
book aims to empower individuals to maintain a state of optimal health with minimal cost and effort Katrina Blair's charming
and intelligent The Wild Wisdom of Weeds delivers just about the best argument I've read for the futility of figuring out what
exactly qualifies as a native plant and why invasive can be a flawed concept New York Times The Wild Wisdom of Weeds is
one of those rare and important books that has the capacity to radically alter your view of a world you thought you knew well
You'll never look at weeds the same again Ben Hewitt author of The Nourishing Homestead **The Rita Lila** Rita Ann

sensationalism or far out speculations And unlike most of the disaster preparedness and survival books it explains clearly that hoarding of food and survival gear is a futile endeavor if you neglect the inner work of opening healing and releasing Based on a view of humans as above all spiritual beings the author explains clearly and succinctly the metaphysical laws underlying the process of manifestation and healing He outlines the role we play as co creators and why the healing of ourselves and the planet are intricately interwoven Dr Luthke explains the stages of the transformation process and gives the reader tools to advance the inner work needed in preparation for a New Millennium For those who wish to take practical steps towards preparing for the Earth changes the appendix offers a comprehensive list of preparedness items and where to get them Accessible yet profound Riding the Tide of Change offers a message of hope and empowerment
