of the credit going to the films producer Val Lewton A detailed examination of the director s full body of work reveals that
those elements most evident in the Tourneur Lewton collaborations the lack of monsters and the stylized use of suggested
violence are equally apparent in Tourneur s films before and after his work with Lewton Mystery and sensuality were
hallmarks of his style and he possessed a highly artistic visual and aural style This insightful critical study examines each of
Tourneur s films as well as his extensive work on MGM shorts 1936 1942 and in television What emerges is evidence of a
highly coherent directorial style that runs throughout Tourneur s works
