NEA, Trojan Horse in American Education Samuel L. Blumenfeld, 1984 **Inequity in Education** Debra Meyers, Burke Miller, associate professor of history, social studies education specialist, Northern Kentucky University, 2009-10-29 Inequity in Education represents the latest scholarship investigating issues of race class ethnicity religion gender and national identity formation that influenced education in America throughout its history This exciting collection of cutting edge essays and primary source documents represents a variety of theoretical and methodological perspectives that will appeal to both social and cultural historians as well as those who teach education courses including introductory surveys and foundations courses **The how and why of Home Schooling** Ray E. Ballmann, Ray Ballmann, 1995 Printed boldly on the back of the United States currency is the motto In God We Trust We have seen it so often that it may have lost its meaning to us But found in these words is the secret to national and personal greatness Webster s Dictionary defines the word trust as a firm belief or confidence in the honesty integrity reliability and justice of another person or thing When our founding fathers put their names to the Declaration of Independence they believed that God was the only sure foundation upon which to build a nation that would endure These men knew that this unique experiment in freedom would only stand the test of time by God s grace George Washington stated it simply It is impossible to rightly govern the world without God and the Bible Reliance upon God was deeply rooted in our country s important documents and institutions from the beginning But today confidence in God and His Word is no longer the foundation of society In our schools the God of Creation has been replaced by the god of evolutionary chance Truth has been replaced by relativism Morality has been replaced by expediency In our homes we nightly view things that were unimaginable on television and in movies only a decade ago Violence sexual perversion and obscene language spill off the screen In the political arena God s principles of truth and justice have often given way to expedience personal profit and compromise As we have departed from God life has been devalued The lives of unborn children are snuffed out in abortion clinics and the number of robberies rapes and murders increase daily It is time that we return to the values of God s Word in our public and private lives so that He will heal our land We must begin person by person on our knees confessing our failure to trust God fully in our lives Today you can affirm your trust in God if you will Acknowledge that you need salvation The Bible says All have sinned and come short of the glory of God Romans 3 23 Recognize God s love for you God so loved the world that He gave His only begotten Son that whosoever believeth in Him should not perish but have everlasting life John 3 16 Receive Jesus and His forgiveness the only basis for encountering God As many as received Him Jesus to them gave He power to become the sons of God even to them that believe on His name John 1 12 God is calling you to put your trust in Him today Don t ignore His call **Liberating the Nations** Stephen K. McDowell, Mark A. Beliles, 2008 The Bible teaches and history confirms that to the degree that nations have applied the principles of the Bible in all spheres of life is the degree to which

they have prospered been free and acted justly Learn biblical principles as they apply to various spheres of life Examine the role of the church the family the media and civil government in a nation and learn what you can do to bring Godly reform

The Great Reading Disaster Mona McNeer, 2012-02-20 By the late 1980s half the nation's children were receiving eleven years of progressivist schooling that failed to give them even the elementary basis of education that was completed by the age of seven in earlier days This great reading disaster was caused by the look say method of teaching which presented whole words not individual letters This book explains the causes and provides the solution to this problem In 2006 the Secretary of State for Education and Skills has ordered schools to use the phonic method but there seems little evidence that its implications are properly understood or that any serious re training programme for teachers is being put in place The authors believe their explanations and recommendations in this book are thus needed just as much as ever

Christianity's Dangerous Idea Jonas E. Alexis, 2010 Today many in Hollywood and the media have declared open warfare on the family education and Christianity in general Intellectuals have labeled religion particularly Christianity as mere wish fulfillment or a virus of the mind something to be eradicated at all costs In *Christianity's Dangerous Idea* Jonas Alexis picks up where he left off in his previous books and continues to examine the ideological fallacies that have been fabricated in order to attack Christianity and the people who promote those fallacies This latest book is a tour de force of rigorous logic and testable evidence for the Christian worldview from history science experience common sense and final destiny More importantly Alexis subjects the rivals of Christianity to the same rigorous testing *Christianity's Dangerous Idea* clearly demonstrates the destructive nature of popular atheistic and anti Christian philosophies spread throughout Western culture by such famous people as Friedrich Nietzsche Sigmund Freud Carl Jung David Cronenberg Steven Spielberg Alan Moore William S Burroughs Philip K Dick Bruce Lee Ayn Rand Bart D Ehrman Richard Dawkins and many more In a scholarly yet readable fashion Alexis shows that what the ancient Greeks often referred to as the cult of Dionysus has become mainstream in our modern age

applied linguistics and language and literacy *The New Hate* Arthur Goldwag, 2012-09-04 A Kirkus Reviews Best Book of 2012 From the author of *Isms and Ologies* and *Cults* *Conspiracies and Secret Societies* here is a deeply researched fascinating history of the role that organized hatred has played in American politics *The New Hate* takes readers on a surprising often shocking sometimes bizarrely amusing tour through the swamps of nativism racism and paranoia that have long thrived on the American fringe Arthur Goldwag shows us the parallels between the hysteria about the Illuminati that wracked the new American Republic in the 1790s and the McCarthyism that roiled the 1950s and he discusses the similarities between the anti New Deal forces of the 1930s and the Tea Party movement today He traces Henry Ford's anti-Semitism and the John Birch Society's *Insiders* back to the notorious Protocols of the Elders of Zion and he relates white supremacist nightmares about racial pollution to nineteenth century fears of papal plots Written with verve and wit this lively history is indispensable reading for anyone who wants to understand the recent re-ascendancy of extremism in American politics

Power in the Highest Degree Charles Derber, William A. Schwartz, Yale Magrass, 1990-06-21 Lawyer doctor scientist these are the jobs Americans commonly cite when asked to list the most prestigious occupations The word professional today implies expertise authority and excellence To do a job professionally is to do it well Yet in a society in which knowledge has become a prized asset and an advanced degree the ticket to wealth and power the rise of professionalism has a darker more ominous side *Power in the Highest Degree* one of the most comprehensive studies of professionals ever undertaken exposes professionalism as a double edged sword it illustrates how experts have come to own and control knowledge much like the wealthy control capital thereby transforming capitalist and socialist society both for better and for worse Knowledge long predates money as a source of power and wealth in human society and professionals are only the most recent in a long succession of powerful knowledge classes that have included shaman witchdoctors and the Confucian mandarins who ruled China for over a thousand years Drawing on interviews with over 1 000 practicing professionals the authors show how by dispensing self interested and morally colored judgements as scientific truth modern professionals are consolidating a monopoly over what passes for objective knowledge Experts discredit the ordinary knowledge of the general public to generate a vast market of dependent clients The result is a powerful professional class that creates vital new knowledge and life saving services but also wields growing influence over a population deeply insecure about its ability to manage private and public affairs without expert guidance This sweeping study also reveals that more and more experts are abandoning private practice to work for corporations becoming junior partners in a new Mandarin capitalism While often outspoken advocates of a more socially responsible business world professionals have joined big business to produce one of the most pronounced divisions of mental and manual work in history creating a new dispossessed majority the uncredentialed We learn of an experiment at Polaroid to give machine operators more responsibility which is cancelled when managers and engineers decided that they just didn't want operators that qualified The authors argue that as

this new mandarin class radically transforms the social order it helps to reform some of the traditional scourges of the business world but also poses a new threat to equality in America To reverse this trend they propose a post professional society that de emphasizes skill hierarchies and substantially democratizes knowledge A bold and incisive new work of social criticism this book provides a fascinating look at the modern professional and provokes Americans to think in a new way about democracy in the age of experts
