Imagining the Middle East Matthew F. Jacobs, 2011-09-12 As its interests have become deeply tied to the Middle East the United States has long sought to develop a usable understanding of the people politics and cultures of the region In *Imagining the Middle East* Matthew Jacobs illuminates how Americans' ideas and perspectives about the region have shaped justified and sustained U S cultural economic military and political involvement there Jacobs examines the ways in which an informal network of academic business government and media specialists interpreted and shared their perceptions of the Middle East from the end of World War I through the late 1960s During that period Jacobs argues members of this network imagined the Middle East as a region defined by certain common characteristics religion mass politics underdevelopment and an escalating Arab Israeli Palestinian conflict and as a place that might be transformed through U S involvement Thus the ways in which specialists and policymakers imagined the Middle East of the past or present came to justify policies designed to create an imagined Middle East of the future Jacobs demonstrates that an analysis of the intellectual roots of current politics and foreign policy is critical to comprehending the styles of U S engagement with the Middle East in a post 9/11 world

Eisenhower, Macmillan and the Problem of Nasser N. Ashton, 1996-11-08 The years 1955-59 were a vital transitional period for the Anglo American relationship in the Middle East British and American leaders sought to protect cold war and oil interests in the region against the background of a renaissance of Arab nationalism personified by the Egyptian leader Nasser With the aid of extensive declassified official documentation this study traces the British and American responses to the Turco Iraqi Pact of 1955 the Suez crisis the Syrian crisis of 1957 the outbreak of civil strife in Lebanon and the Iraqi Revolution of 1958 It shows how the differing priorities of the two powers in the region promoted a patchwork of confrontation and cooperation over Middle Eastern questions For Britain this study reveals that it was the Iraqi Revolution

rather than Suez which led to a redefinition of strategy in the region and a concentration on the defence of her oil interests in the Gulf

1979 And The Re-Emergence Of The Islamic Empire Major Thomas M. Hough, 2014-08-15 In 1979 the age old struggle for the control of Islam between the Shiite and Sunni sects re emerged in the Middle East Four events occurred in 1979 that defined the context of contemporary Middle Eastern politics the Islamic revolution in Iran the signing of the Egyptian Israeli peace accords the siege of the Grand Mosque in Mecca Saudi Arabia and the Soviet invasion of Afghanistan This monograph directly addresses the roots of current Middle Eastern actors such as HAMAS FATA Hezbollah Al Qaida and the Taliban in the aftermath of these four critical events that occurred in 1979 The methodology for this monograph consists of analyzing each of these four events and then synthesizing this information in order to determine how 1979 shaped the modern Middle East Since the seventeenth century the Sunni sect dominated Islam The Iranian revolution reenergized the Shiite sect throughout the Middle East while Sunni power simultaneously eroded throughout the region While the Shiites were inspiring the Islamic community in 1979 the Sunni suffered significant blows to their legitimacy as the leaders of Islam This monograph asserts that the prevailing conflict within the Middle East is first and foremost a contest between the Shiites and the Sunni for preeminence within the Islamic world The conflict between Islam and the outside world remains secondary in importance The contemporary Middle Eastern actors that dominate the western consciousness such as HAMMAS FATA Hezbollah Al Qaida and the Taliban constitute proxy armies created by the Shiite and Sunni leadership to wage a war for influence within the Islamic world The events of 1979 have resulted in a leveling of power in the Middle East and the emergence of the Shiites as an ideological peer competitor to the traditionally dominant Sunni
