Women in China's Long Twentieth Century Gail Hershat, 2007-03-29 An important and much needed introduction to this rich and fast growing field Hershat has handled a daunting task with aplomb Susan L Glosser author of *Chinese Visions of Family and State* 1915 1953 **The Cambridge History of China: Volume 15, The People's Republic, Part 2, Revolutions Within the Chinese Revolution, 1966-1982** Roderick MacFarquhar, John K. Fairbank, Denis Crispin Twitchett, 1991-11-29 In continuing the post revolution study started in Volume 14 Volume 15 considers the developments in Mao's thoughts and how they related to China's government The most comprehensive account of this turbulent period in Chinese history Ah Ku and Karayuki-san James Francis Warren, 2003 Among the groups of workers whose labour built Singapore in the 20th century were women who travelled from China and Japan to work in Singapore as prostitutes This study explores the trade in women and children in Asia and looks at the daily lives of prostitutes in the colonial city

Women and Chinese Patriarchy Maria Jaschok, Suzanne Miers, 1994 This collection reveals many forms of servitude that Chinese women have endured and the avenues of escape open to some of them The authors are anthropologists historians and sociologists but the book is enriched also by contributions from the participants a social worker a mui tsai and a colonial civil servant The chapters are based on original documentary or oral research and personal experience and throughout the book the voices of the women their owners and their missionary rescuers can be clearly heard *Drowning Girls in China* D. E. Mungello, 2008-06-27 This groundbreaking book offers the first full analysis of the long neglected and controversial subject of female infanticide in China Although infanticide and child abandonment were worldwide phenomena from antiquity down to the nineteenth century when massive numbers of children were still being abandoned in Europe China was unique in targeting girls almost exclusively Yet despite its persistence for two thousand years little has been published on a practice that is deeply sensitive within China and little understood by outsiders Drawing on little known Chinese documents and illustrations noted historian D E Mungello describes the causes and continuation of female infanticide since 1650 despite efforts by Confucian moralists Buddhist teachings government officials and even imperial edicts to stop the practice The arrival of Christian missionaries led to foreign involvement as well with Catholic priests baptizing abandoned and dying infants in Nanjing and Beijing beginning in the early 1600s Mission efforts peaked in the nineteenth century when the European based Society of the Holy Childhood urged Catholic children to contribute their pennies to help neglected children in China However most of the infant victims were drowned at birth in the privacy of their homes thereby escaping the scrutiny of the law and the public Mungello brings this secretive practice to light with a nuanced and balanced analysis of the cultural economic and social causes of early infanticide and its contemporary manifestation in sex selected abortion as a result of the government's one child policy Presenting female infanticide as a human rather than a distinctly Chinese problem he estimates the tragic loss of girls in the millions **Ten Lessons in Modern Chinese History** Zheng Yangwen, 2018-04-25 This book is a timely and solid portrait of modern China from the First Opium War to the Xi Jinping era

Unlike the handful of existing textbooks that only provide narratives this textbook fashions a new and practical way to study modern China Written exclusively for university students A level or high school teachers and students it uses primary sources to tell the story of China and introduces them to existing scholarship and academic debate so they can conduct independent research for their essays and dissertations This book will be required reading for students who embark on the study of Chinese history politics economics diaspora sociology literature cultural urban and women s studies It would be essential reading to journalists NGO workers diplomats government officials businessmen and travellers

Changing Clothes in China Antonia Finnane,2023-05-30 Historians have long regarded fashion as something peculiarly Western In this surprising sumptuously illustrated book Antonia Finnane challenges this view which she argues is based on nineteenth and twentieth century representations of Chinese dress as traditional and unchanging Fashions she shows were part of Chinese life in the late imperial era even if a fashion industry was not then apparent In the early twentieth century the key features of modern fashion became evident particularly in Shanghai and rapidly changing dress styles showed the effects The volatility of Chinese dress throughout the twentieth century matched vicissitudes in national politics Finnane describes in detail how the close fitting jacket and high collar of the 1911 Revolutionary period the skirt and jacket blouse of the May Fourth era and the military style popular in the Cultural Revolution gave way finally to the variegated globalized wardrobe of today She brilliantly connects China s modernization and global visibility with changes in dress offering a vivid portrait of the complex subtle and sometimes contradictory ways the people of China have worn their nation on their backs

Exotic Commodities Frank Dikötter,2007-03-27 Exotic Commodities is the first book to chart the consumption and spread of foreign goods in China from the mid nineteenth century to the advent of communism in 1949 Richly illustrated and revealing this volume recounts how exotic commodities were acquired and adapted in a country commonly believed to have remained hostile toward alien things during the industrial era China was not immune to global trends that prized the modern goods of civilized nations Foreign imports were enthusiastically embraced by both the upper and lower classes and rapidly woven into the fabric of everyday life often in inventive ways Scarves skirts blouses and corsets were combined with traditional garments to create strikingly original fashions Industrially produced rice sugar wheat and canned food revolutionized local cuisine and mass produced mirrors were hung on doorframes to ward off malignant spirits Frank Dik tter argues that ordinary people were the least inhibited in acquiring these products and therefore the most instrumental in changing the material culture of China Landscape paintings door leaves and calligraphy scrolls were happily mixed with kitschy oil paintings and modern advertisements Old and new interacted in ways that might have seemed incongruous to outsiders but were perfectly harmonious to local people This pragmatic attitude would eventually lead to China s own mass production and export of cheap modern goods which today can be found all over the world The nature of this history raises the question which Dik tter pursues in his conclusion If the key to surviving in a fast changing world is the ability to innovate could China be more in tune with modernity than Europe
