Paths Of African Theology Percoris Di Teologia Africana:

Towards African Missiology Francis Anekwe Oborji, 2020-11-22 This volume reflects on a credible and a new language of Christian mission in Africa The author s thoughts and approaches not only provide a missiological insight which contribute to the repertoire of expanding fresh ideas in the missiological studies but also serves the purpose of highlighting the active participation of Africans in the missionary mandate of Jesus Christ In other words the scope of missiology needs a contextualized interpretation Thus he proposes a proactive language for missiology in Africa thereby underlining Africans as normal and full members of the human family In the light of the Vatican II mission theology the new language should be based on the fact that Africans will grow and do better in admiration and not in sympathy Interestingly the arguments in this volume opens the space for the on going discussions in the mission of the church in the era of secularization and post modernity Consequently a new language for missiology in Africa will come from the retrieval and modernization of our African cultural matrix pursued from the point of view of the daily struggles of the Africans themselves for survival which also addresses Africans in the spirit of cooperation

In Search of Foundations for African Catholicism Mika Vähäkangas, 2016-05-18 This study deals with the interaction between neo Thomism and African traditional thinking in Charles Nyamiti s theological methodology The approach of the study is groundbreaking as it is the first monograph published on the theological method of any African theologian The question about the position and relevance of Western philosophical theological systems in a non Western context also has a wider relevance concerning contextual theologies in general Nyamiti s theology is a germane and a fruitful choice for the study of this issue because of his programmatic attempt to build a coherent African Roman Catholic theological system His theology is also well known for its strong African flavor in elaborating theological questions within the framework of orthodox Roman Catholic doctrine

Doing Theology at the Grassroots Kalilombe, Patrick A., 2018-05-22 Patrick Kalilombe has been distinguished for more than twenty ve years as a pioneering theologian and ecclesiologist Circumstances have determined that much of his best work has been produced and published outside Malawi and through such diversity of outlets that it is very difficult for students and others to have access to his work as a whole Hence we are convinced that his collection of his essays will have a very wide appeal both in Malawi and beyond The chapters are quite varied in their origins and subjects but the reader will not take long to notice recurrent themes the author s missionary vocation the critical role of the grassroots in theological construction the integrity of Chewa traditional beliefs the combination of Catholic commitment with radical openness to all religious and cultural traditions Throughout the book is a series of photographs which lead progressively through the events of Bishop Kalilombe s 25th Jubilee celebration at Mua in 1997
