Paths To Success Beating The Odds In American Society:

Paths to Success Charles C. Harrington, Susan K. Boardman, 2000-10-16 Statisticians tell us that impoverished backgrounds are decent predictors of impoverished futures This book seeks out the stories behind the exceptions While the authors reveal consistencies between pathmakers approaches and those of their middle class counterparts it also exposes striking differences between men and women blacks and whites

Paths to Success Charles C. Harrington, Susan K. Boardman, 2000-10-16 Who would have thought that Joycelyn Elders born into a family that chopped cotton and trapped raccoons to survive would grow up to be Surgeon General of the United States Or that Clarence Thomas brought up by his barely literate grandfather would someday be a Justice of the Supreme Court Certainly not statisticians who tell us that impoverished backgrounds are fairly accurate predictors of impoverished futures This book seeks out the stories behind the exceptions those who against all odds have made the American myth of rags to riches a reality For more than ten years Charles Harrington and Susan Boardman explored the life histories of successful Americans forty to fifty five years old those from poor homes whose parents had not completed high school and those from the middle class Comparing the routes to success of these two groups the one by various courses of their own construction the other by a well laid path the authors are able to show where their efforts and qualities diverge and where they coincide Joycelyn Elders and Clarence Thomas are examples of the pathmakers of this work While *Paths to Success* reveals certain consistencies between these pathmakers approaches and those of their middle class counterparts it also exposes striking differences between men and women blacks and whites These differences fully described here illuminate the ways in which opportunities serendipities and impediments intersect with personal resources strategies and choices to produce success where we least expect it

International Handbook of Migration, Minorities and Education Zvi Bekerman, Thomas Geisen, 2011-10-06 Migrants and minorities are always at risk of being caught in essentialized cultural definitions and being denied the right to express their cultural preferences because they are perceived as threats to social cohesion Migrants and minorities respond to these difficulties in multiple ways as active agents in the pedagogical political social and scientific processes that position them in this or that cultural sphere On the one hand they reject ascribed cultural attributes while striving towards integration in a variety of social spheres e g school and workplace in order to achieve social mobility On the other hand they articulate demands for cultural self determination This discursive duality is met with suspicion by the majority culture For societies with high levels of migration or with substantial minority cultures questions related to the meaning of cultural heterogeneity and the social and cultural limits of learning and communication e g migration education or critical multiculturalism are very important It is precisely here where the chances for new beginnings and new trials become of great importance for educational theorizing which urgently needs to find answers to current questions about individual freedom community cultural affiliations and social and democratic cohesion Answers to these questions must account for both political and learning perspectives at the macro

mezzo and micro contextual levels The contributions of this edited volume enhance the knowledge in the field of migrant minority education with a special emphasis on the meaning of culture and social learning for educational processes

African Immigrant Families in the United States Serah Shani, 2018-11-26 Sub Saharan African immigrants are emerging as the new model minority in the United States excelling in education and social mobility In African Immigrant Families in the United States Transnational Lives and Schooling Serah Shani examines the socioeconomic and cultural mechanisms behind their high levels of success Shani explores the dynamics of Ghanaian transnational immigrants lives and portrays a complex relationship between class context beliefs and cultural practices This book is recommended for scholars of anthropology sociology education and African studies

Positive Psychology in Practice P. Coming of Age in a Hardscrabble World Nancy C. Atwood, Roger Atwood, 2019-09-01 Nonfiction storytelling is at its best in this anthology of excerpts from memoirs by thirty authors some eminent some less well known who grew up tough and talented in working class America Their stories selected from literary memoirs published between 1982 and 2014 cover episodes from childhood to young adulthood within a spectrum of life changing experiences Although diverse ethnically racially geographically and in sexual orientation these writers share a youthful precocity and determination to find opportunity where little appeared to exist All of these perspectives are explored within the larger context of economic insecurity a needed perspective in this time of growing inequality These memoirists grew up in families that led hardscrabble

lives in which struggle and strenuous effort were the norm Their stories offer insight on the realities of class in America as well as inspiration and hope

The Meritocracy Myth Stephen J. McNamee, 2009-08-16 The Meritocracy Myth challenges the widely held American belief in meritocracy OCo that people get out of the system what they put into it based on individual merit Fully revised and updated throughout the second edition includes compelling new case studies such as the impact of social and cultural capital in the cases of George W Bush and Barack Obama and new material on current topics such as the impact of the financial and credit crisis intergenerational mobility and the impact of racism and sexism The Meritocracy Myth examines talent attitude work ethic and character as elements of merit and evaluates the effect of non merit factors such as social status race heritage and wealth on meritocracy A compelling book on an often overlooked topic first edition was highly regarded and proved a useful examination of this classic American ideal

Black Student Achievement William A. Sampson, 2002 Sampson s study of 12 poor Black families in a Chicago suburb focuses on the potential of families to do what generations of reform could not Should appeal to anyone involved with public policy racial or social issues

From Here to University Alexander Jun, 2001 First Published in 2002 Routledge is an imprint of Taylor Francis an informa company

Black and Brown William A. Sampson, 2004 Here author William A Sampson examines the role of the family in the school preparation process among poor Blacks and Latinos It is based upon the data collected during intense long term observations of 21 disadvantaged minority students and families in their homes within the same community The data suggests that the differences in performances are to a large degree a function of differences in the specific ways in which their parents most often the mother prepares them for the educational experience When discipline responsibility delayed gratification internal control the value of education and high self esteem are emphasized consistently in the home students tend to achieve When the home environment is quiet structured and orderly the students do well in school Most importantly when parents help their children with homework the students excel This book Frames the issues of the educational improvement Lays out the methodology Presents the data arranged by the academic performance of the students Presents a detailed analysis of the data and their impact upon both the debate over educational improvement and the theoretical issue of the link between race ethnicity social class and education Offers comparisons between poor Black families and poor Latino families Will be of interest to scholars in educational improvement public school teachers administrators policy makers and those concerned with social class and its ramifications

Encyclopedia of Education and Human Development Stephen J. Farenga, Daniel Ness, 2015-07-17 This comprehensive and exhaustive reference work on the subject of education from the primary grades through higher education combines educational theory with practice making it a unique contribution to the educational reference market Issues related to human development and learning are examined by individuals whose specializations are in diverse areas including education psychology sociology philosophy law and medicine The book focuses on important themes in education and human development Authors consider each entry from the perspective of its social and

political conditions as well as historical underpinnings The book also explores the people whose contributions have played a seminal role in the shaping of educational ideas institutions and organizations and includes entries on these institutions and organizations This work integrates numerous theoretical frameworks with field based applications from many areas in educational research

New Jersey Dreaming Sherry B. Ortner, 2003-05-26 Famed anthropologist Ortner tracks down representative classmates from her mostly Jewish Newark NJ high school class of 58 in order to examine class culture and ethnicity in America today

Disengaging from Terrorism - Lessons from the Turkish Penitents Kamil Yilmaz, 2014-04-16 This book presents an in depth case study of thirteen individuals who moved away from terrorist activity in Turkey Setting their life stories in the context of political violence in support of Kurdish independence and a leftist revolution and the response of the Turkish state the book examines how the individuals were motivated to become involved in terrorism how they participated why they became disillusioned and above all how they coped with the difficult process of disengagement The book then draws out general lessons on how individuals can be encouraged to move away from terrorism and especially on how states can construct repentance mechanisms and protection mechanisms to assist with this The book is a particularly rich valuable source on why people move away from terrorism as most books in the field concentrate on why people become terrorists and on terrorist profiling

Words at Work and Play Shirley Brice Heath, 2012-01-12 A thirty year study tracking the changes in family life and language development in 300 working class families from 1981 onwards

The Pecking Order Dalton Conley, 2005-04-12 The family is our haven the place where we all start off on equal footing or so we like to think But if that s the case why do so many siblings often diverge widely in social status wealth and education In this groundbreaking and meticulously researched book acclaimed sociologist Dalton Conley shatters our notions of how our childhoods affect us and why we become who we are Economic and social inequality among adult siblings is not the exception Conley asserts but the norm over half of all inequality is within families not between them And it is each family s own pecking order that helps to foster such disparities Moving beyond traditionally accepted theories such as birth order or genetics to explain family dynamics Conley instead draws upon three major studies to explore the impact of larger social forces that shape each family and the individuals within it From Bill and Roger Clinton to the stories of hundreds of average Americans here we are introduced to an America where class identity is ever changing and where siblings cannot necessarily follow the same paths This is a book that will forever alter our idea of family
