Pathways to Manhood Janet Mancini Billson, 2018-04-17 In Pathways to Manhood published in cloth as Strategic Styles Coping in the Inner City Janet Mancini Billson studies five young boys who grew up in Roxbury Massachusetts during the intense racial and political turmoil of the late 1960s and early 1970s Using data from Harvard's Pathways to Identity project she analyzes how healthy ego striving develops in the social and physical decay of an inner city environment The author draws a rich and absorbing portrait of each boy and of his life Although they grew up in the same social context the boys became very different individuals In a new preface to this expanded edition Billson maintains that it is still vitally important to understand the coping styles that young black males develop in the face of adversity Bernard E Bruce traces what happened to the five boys who are now men In their forties in his poignant epilogue From Boys to Men A new chapter on intervention strategies shows how parents teachers and others who work with inner city youth can most effectively support positive coping styles Graphic representations help visualize both the styles and the intervention strategies This classic book is a valued resource for parents for those who work in the helping professions education and the criminal justice system and for students of sociological theory social psychology human development and race relations

A Republic of Men Mark E. Leaving Neverland Daniel Prokop, 2010 Mankind has become Pankind as never growing up today seems more the norm than the exception In our desperate attempt to try to stay young forever we have achieved eternal childishness rather than eternal youth A delightful skewering of perpetual boys in positions of power a much needed call to leave Neverland and the solution of contemporary Rites of Passage as a way out A clever funny and thought provoking read

either gives up his dreams or feels he has to dominate and control his environment **Leave Love with Me** William Lawton, 2023-09-19 Desire for beauty is at the heart of human existence Some find this meaning out of their religious or spiritual perspective Some find it at the edge of their traditions And others find it outside any recognizable tradition This book speaks especially to the second and third groups of people Desire releases us to explore difference and to honor alternatives Desire shapes our lives in unique ways It centers our energies for personal and relational change where difference can be debated and variety permitted We might transcend circumstances that limit us Desire is more than meaningfulness it is captivation of mind and spirit to life's possibility In my discovery desire is an abandonment to beauty

Violence at the Urban Margins Javier Auyero, Philippe Bourgois, Nancy Scheper-Hughes, 2015-03-09 In the Americas debates around issues of citizen's public safety from debates that erupt after highly publicized events such as the shootings of Jordan Davis and Trayvon Martin to those that recurrently dominate the airwaves in Latin America are dominated by

members of the middle and upper middle classes However a cursory count of the victims of urban violence in the Americas reveals that the people suffering the most from violence live and die at the lowest of the socio symbolic order at the margins of urban societies The inhabitants of the urban margins are hardly ever heard in discussions about public safety They live in danger but the discourse about violence and risk belongs to is manufactured and manipulated by others others who are prone to view violence at the urban margins as evidence of a cultural or racial defect rather than question violence s relationship to economic and political marginalization As a result the experience of interpersonal violence among the urban poor becomes something unspeakable and the everyday fear and trauma lived in relegated territories is constantly muted and denied This edited volume seeks to counteract this pernicious tendency by putting under the ethnographic microscope and making public the way in which violence is lived and acted upon in the urban peripheries It features cutting edge ethnographic research on the role of violence in the lives of the urban poor in South Central and North America and sheds light on the suffering that violence produces and perpetuates as well as the individual and collective responses that violence generates among those living at the urban margins of the Americas

The Other Half of Gender Ian Bannon, Maria Correia, 2006-01-01 This book is an attempt to bring the gender and development debate full circle from a much needed focus on empowering women to a more comprehensive gender framework that considers gender as a system that affects both women and men The chapters in this book explore definitions of masculinity and male identities in a variety of social contexts drawing from experiences in Latin America the Caribbean and sub Saharan Africa It draws on a slowly emerging realization that attaining the vision of gender equality will be difficult if not impossible without changing the ways in which masculinities are defined and acted upon Although changing male gender norms will be a difficult and slow process we must begin by understanding how versions of masculinities are defined and acted upon

Great American Hypocrites Glenn Greenwald, 2008-10-07 A takedown of the GOP s deceitful propaganda machine from the blogger of Salon s Unclaimed Territory and the author of the New York Times bestsellers How Would a Patriot Act and A Tragic Legacy Ever since the cowboy image of Ronald Reagan was sold to Americans the Republican Party has used the same John Wayne imagery to support its candidates and take elections We all know how they govern but the right wing propaganda machine is very adept at hijacking debate and marketing their candidates as effectively as the Marlboro Man For example Myth The Republican nominee is an upstanding regular guy who shares the values of the common man Reality He divorced his first wife in order to marry a young multimillionaire heiress whose family then funded his political career Myth Republicans are strong on defense and will keep us safe Reality They prey on fears and their endless wars make America far less secure Myth Republicans are the party of fiscal restraint and small limited government Reality Soaring deficits unchecked presidential power and an increasingly invasive surveillance state are par for their course The rst book to dissect the Republican Cult of Personality and leave it openly exposed in its unabashed shameful depravity Great American Hypocrites is a deeply necessary call out to

Bonner II, 2023-07-03 How do we fix the leaky educational pipeline into a conduit of success for Black males That the issue is critical is demonstrated by the statistics that only 10% of Black males in the United States are proficient in 8th grade reading only 52% graduate from high school within four years and only 35 percent graduate from college This book uniquely examines the trajectory of Black males through the educational pipeline from pre school through college In doing so it not only contributes significantly to the scholarship on the experiences of this population but bridges the gap between theory and practice to provide frameworks and models that will improve these young men's educational outcomes throughout their educational journeys A compelling feature of the book is that it does not treat Black males as homogeneous but recognizes the diversity that exists among Black males in various educational settings It demonstrates the need to recognize students intersectionalities and individual characteristics as an essential preliminary to developing practices to improve outcomes at every educational stage Throughout the contributing authors also focus on the strategies and experiences of Black males who achieve academic excellence examining growth producing and asset based practices that can be sustained and that build upon the recognition that these males have agency and possess qualities such as resilience that are essential to their learning and development The frameworks and models that conclude each chapter are equally commendable to K 12 educators and administrators higher education faculty student affairs practitioners and administrators and policymakers for whom templates are provided for rectifying the continuing inequities of our educational system The Process and Structure of Crime Robert F.
