Pathways To Change Brief Therapy Solutions With Difficult Adolescents:

Pathways to Change Matthew D. Selekman, 1993-09-17 Few therapists dispute the difficulties in treating troublesome or reluctant adolescents. Filling a gap in the literature, this volume specifically addresses the clinician's needs for working with this difficult population. Matthew D. Selekman presents a Solution Oriented Brief Family Therapy approach, a highly pragmatic and innovative therapy model for working with these challenging cases. Encouraging therapeutic improvisation and incorporating the use of humor, Selekman demonstrates how the clinician can capitalize on the strengths and resources of family members, peers, and other involved mental health professionals to resolve the client's presenting problems rapidly. His approach artfully integrates cutting edge therapeutic ideas from Steve de Shazer, Michael White, Tom Andersen, and the Galveston group. Dispelling the notion that the Solution Oriented Brief Therapy model is merely a band aid approach, the author demonstrates powerful methods for facilitating systemic, lasting change. **PATHWAYS TO CHANGE** includes many helpful features that enable mental health and addiction professionals to conduct effective brief therapy successfully with difficult adolescents and their families. Selekman provides detailed guidelines for therapeutic task design and selection, purposeful systemic interviewing, and empirically based strategies for engaging difficult adolescents and ways to collaborate with involved helping professionals from larger systems. He also presents a blueprint for how to conduct his Solution Oriented Parenting group, which can be utilized as an alternative to regular family therapy or when therapists are unable to engage the adolescents in treatment. Incorporating case examples and actual interview transcripts to highlight key therapeutic techniques, Selekman presents a comprehensive ecosystemic therapeutic approach that provides useful therapeutic options for working with a challenging population. **PATHWAYS TO CHANGE** is an important resource for psychologists, psychotherapists, social workers, addiction professionals, family therapists, and anyone working with difficult adolescents and their families.

Pathways to Change, Second Edition Matthew D. Selekman, 2015-06-16 This innovative practical guide presents an effective brief therapy model for working with challenging adolescents and their families. It demonstrates powerful ways to help families gain new perspectives on longstanding problems and co-construct realistic, well-formulated goals, even when past treatment experiences have left them feeling demoralized. Solution-oriented techniques and strategies are augmented by ideas and findings from other therapeutic traditions, with a focus on engagement and relationship building. Illustrated with extensive clinical material, the book shows how to draw on each family's strengths to collaboratively bring about significant behavioral change.

There are also a variety of detailed treatment manuals that describe the step-by-step procedures to guide ongoing research and practice. The second edition of Craig Winston LeCroy's *Handbook of Evidence-Based Child and Adolescent Treatment*

Manuals is a forceful combination of the two approaches as he gathers fifteen varied treatment manuals and brief summaries of the research supporting each to ensure that practitioners will truly understand how to implement the treatments they are using. Each chapter begins with an explanatory section that discusses the theoretical and empirical underpinnings of the programs. Organized into three sections: the major clinical disorders, social problems confronting children and teens, and preventive interventions, the Handbook brings together some of the most esteemed researcher-practitioners in the child and adolescent field. The book presents an impressive variety of innovative treatment programs and techniques, including the SiHLE program intended to prevent problems confronting children and teens, and preventive interventions.
