The Lost Civilization Enigma Philip Coppens, 2012-10-22 An examination of archaeological controversies with arguments showing evidence of prehistoric civilizations not recorded as part of human history Are history books giving us the whole story Or is civilization far more complex and older than we have been taught Our school textbooks barely mention the 6 000 year old Sumerian civilization yet the latest archaeological findings at sites such as Jericho and most recently Gobekli Tepe in Turkey have been dated to 10 000 BC Civilization goes back at least another 10 000 years if we are willing to believe what our ancestors themselves claimed The Lost Civilization Enigma reveals the truth about Lost magnitudes to known cultures such as the Bosnian Pyramids and the civilization of Old Europe The fabled lost golden cities of South America and the Amazon which are slowly being rediscovered Fascinating examples of lost technology such as the Antikythera Device Atlantis and the fact that it was a real civilization Analyzing the historical and archaeological record best selling author Philip Coppens demonstrates that there is substantial evidence that civilization is far older far more advanced and far more special than is currently accepted Clearly our history books have left out a great deal

The Gods' Machines Wun Chok Bong, 2008-05-27 Based on the author s decipherment of prehistoric carvings and the application of mathematical measurements The Gods Machines shows how unknown phenomena from Angkor Wat to Stonehenge to crop circles are actually powerhouses built by an advanced extraterrestrial civilization for tapping electromagnetic energy The book traces the development of that civilization on Earth over 5 000 years revealing how all these structures are aligned according to a universal formula an angle of 135 degrees at which Earth s energy has been tapped by the alien creators of these monuments These fascinating theories not only explain our distant past but also open the door to a future of power technology and space travel Megalithic sites such as Newgrange and Stonehenge are

constructed with quartz and iron rich stones with electrical conduction properties minerals also found atop Aztec temple and inside crop circles These stones according to the author served as dry cell batteries when heated and stressed and supplied energy to the builders traveling vehicles Most interestingly the author has tested his theory on today s crop circles The Gods Machines is certain to stimulate debate among readers interested in alternative history ancient civilization and extraterrestrial intelligence

1491 (Second Edition) Charles C. Mann, 2006-10-10 NATIONAL BESTSELLER A groundbreaking work of science history and archaeology that radically alters our understanding of the Americas before the arrival of Columbus in 1492 from a remarkably engaging writer The New York Times Book Review Contrary to what so many Americans learn in school the pre Columbian Indians were not sparsely settled in a pristine wilderness rather there were huge numbers of Indians who actively molded and influenced the land around them The astonishing Aztec capital of Tenochtitlan had running water and immaculately clean streets and was larger than any contemporary European city Mexican cultures created corn in a specialized breeding process that it has been called man s first feat of genetic engineering Indeed Indians were not living lightly on the land but were landscaping and manipulating their world in ways that we are only now beginning to understand Challenging and surprising this a transformative new look at a rich and fascinating world we only thought we knew

Catastrophe David Keys, 2000-10-02 It was a catastrophe without precedent in recorded history for months on end starting in A D 535 a strange dusky haze robbed much of the earth of normal sunlight Crops failed in Asia and the Middle East as global weather patterns radically altered Bubonic plague exploding out of Africa wiped out entire populations in Europe Flood and drought brought ancient cultures to the brink of collapse In a matter of decades the old order died and a new world essentially the modern world as we know it today began to emerge In this fascinating groundbreaking totally accessible book archaeological journalist David Keys dramatically reconstructs the global chain of revolutions that began in the catastrophe of A D 535 then offers a definitive explanation of how and why this cataclysm occurred on that momentous day centuries ago The Roman Empire the greatest power in Europe and the Middle East for centuries lost half its territory in the century following the catastrophe During the exact same period the ancient southern Chinese state weakened by economic turmoil succumbed to invaders from the north and a single unified China was born Meanwhile as restless tribes swept down from the central Asian steppes a new religion known as Islam spread through the Middle East As Keys demonstrates with compelling originality and authoritative research these were not isolated upheavals but linked events arising from the same cause and rippling around the world like an enormous tidal wave Keys s narrative circles the globe as he identifies the eerie fallout from the months of darkness unprecedented drought in Central America a strange yellow dust drifting like snow over eastern Asia prolonged famine and the hideous pandemic of the bubonic plague With a superb command of ancient literatures and historical records Keys makes hitherto unrecognized connections between the wasteland that overspread the British countryside and the fall of the great pyramid building Teotihuacan civilization in

Mexico between a little known Jewish empire in Eastern Europe and the rise of the Japanese nation state between storms in France and pestilence in Ireland In the book s final chapters Keys delves into the mystery at the heart of this global catastrophe Why did it happen The answer at once surprising and definitive holds chilling implications for our own precarious geopolitical future Wide ranging in its scholarship written with flair and passion filled with original insights Catastrophe is a superb synthesis of history science and cultural interpretation Ibss: Anthropology: 1978 International Committee for Social Science Information and Documentation,1990-12-31 First published in 1981 Routledge is an imprint of Taylor Francis an informa company Pilgrimage Linda Kay Davidson,David M.
