Patient Compliance With And Attitudes Towards Health Buddy:

Patient Compliance With and Attitudes Towards Health Buddy, 2000 This report discusses patient acceptance of a device called Health Buddy TM Placed in the home of a chronically ill patient in our example one with congestive heart failure or CHF this device enables two way communication between the patient and a care provider in a case management program Health Hero Inc the company that developed the Health Buddy TM and offers the communication service based on it writes The service is designed to give care providers the frequent communication and baseline data that yield more opportunities to identify potentially serious situations sooner help caregivers focus their attention on those who need it most and enable them to motivate and educate their patients Communication occurs via Health Buddy TM when the patient responds to a short automated survey of perhaps a dozen questions This is in contrast to most case management programs where the case manager usually a nurse takes the initiative by telephoning the patient Accordingly the patient s acceptance of Health Buddy TM and his or her willingness to use it daily is crucial to its success This report should be of interest to any who contemplate establishing case management programs for chronically ill patients Examples may be found in hospitals independent practice associations and health maintenance organizations it should also interest those who like Health Hero offer services in support of case management programs Funding for this work was provided by Health Hero

Patient Compliance with and Attitudes Towards Health Buddy James H. Bigelow, Shan Cretin, Matt Solomon, Shin-Yi Wu, Julie C. Cherry, Herb Cobb, Michael O'Connell, 2000 This report addresses patient acceptance of a new device called a Health Buddy used to communicate between patients chronically ill with congestive heart failure and a health care provider usually a nurse in a case management programme *Journal of Rehabilitation Research & Development*, 2010 [Journal of Rehabilitation Research and Development](#), 2010
