Patriarchs Politics:

Politics Reformed Glenn A. Moots, 2010-06-09 Many studies have considered the Bible's relationship to politics but almost all have ignored the heart of its narrative and theology the covenant In this book Glenn Moots explores the political meaning of covenants past and present by focusing on the theory and application of covenantal politics from the sixteenth through the eighteenth centuries Moots demands that we revisit political theology because it served as the most important school of politics in early modern Europe and America He describes the strengths of the covenant tradition while also presenting its limitations and dangers Contemporary political scientists such as Eric Voegelin Daniel Elazar and David Novak are called on to provide insight into both the covenant's history and its relevance today Moots's work chronicles and critiques the covenant tradition while warning against both political ideology and religious enthusiasm It provides an inclusive and objective outline of covenantal politics by considering the variations of Reformed theology and their respective consequences for political practice This includes a careful account of how covenant theology took root on the European continent in the sixteenth century and then inspired ecclesiastical and civil politics in England Scotland and America Moots goes beyond the usual categories of Calvinism or Puritanism to consider the larger movement of which both were a part By integrating philosophy theology and history Moots also invites investigation of broader political traditions such as natural law and natural right *Politics Reformed* demonstrates how the application of political theology over three centuries has important lessons for our own dilemmas about church and state It makes a provocative contribution to understanding foundational questions in an era of rising fundamentalism and emboldened secularism inspiring readers to rethink the importance of religion in political theory and practice and the role of the covenant tradition in particular *Private Households and Public Politics in 3rd-5th Century Jewish Palestine* Alexei Sivertsev, 2002 Alexei Sivertsev examines the nature of the Jewish aristocratic households and their public functions during the later Roman and Byzantine periods third to fifth centuries C E The author first discusses the nature of the Jewish patriarchate during the third century C E He argues that the family of patriarchs nesi'im is best understood as a local city based aristocratic clan It emerged along with other contemporary clans as a result of the gradual conversion of the national aristocracy of the once independent Judean state into the municipal aristocracy of the Roman province of Palaestina in the course of the first to second centuries C E In the second part of this book Alexei Sivertsev addresses the specific public functions performed by Jewish aristocratic clans such as judicial religious administrative and legislative He also demonstrates the continuity that existed in this respect between the Second Commonwealth aristocratic clans and those of the rabbinic period Finally the third part of this study deals with the process leading to the integration of the local native aristocracies of the Roman Near East into the centralized administrative system created by the Emperors starting with Constantine the Great This process is analyzed specifically regarding the example of the Jewish ruling elite The main question in this section is the degree to which the local administrative apparatus of the

newly created Byzantine bureaucracy developed out of the traditional and clan based public institutions which had existed locally throughout the Roman period

Gender, Culture and Politics in England, 1560-1640 Susan D. Amussen, David E. Underdown, 2017-04-06 Gender Culture and Politics in England 1560 1640 integrates social history politics and literary culture as part of a ground breaking study that provides revealing insights into early modern English society Susan D Amussen and David E Underdown examine political scandals and familiar characters including scolds cuckolds and witches to show how their behaviour turned the ordered world around them upside down in very specific gendered ways Using case studies from theatre civic ritual and witchcraft the book demonstrates how ideas of gendered inversion failed patriarchs and disorderly women permeate the mental world of early modern England Amussen and Underdown show both how these ideas were central to understanding society and politics as well as the ways in which both women and men were disciplined formally and informally for inverting the gender order In doing so they give a glimpse of how we can connect different dimensions of early modern society This is a vital study for anyone interested in understanding the connections between social practice culture and politics in 16th and 17th century England

Patriarch and Folk E. Bradford Burns, 1991 The painful sixty year process that brought Nicaragua from colonial status to incipient nation state is the focus of this fresh examination of inner struggle in a key isthmian country E Bradford Burns shows how Nicaragua s elite was able to consolidate control of the state and form a stable government resolving the bitter rivalry between the two cities Len and Granada but at the same time began the destruction of the rich folk culture of the Indians eventually reducing them to an impoverished and powerless agrarian proletariat The history of this nation echoes that of other Latin American lands yet is peculiarly its own Nicaragua emerged not from a war against Spain but rather from the violent interactions among the patriarchs of the dominant families the communities of common people and foreigners Burns is eloquent on the subject of American adventurism in Nicaragua which culminated in the outrageous expedition of the filibuster William Walker and his band of mercenaries in the 1850s It was a major breach of the trust and friendship Nicaraguans had extended to the United States and the Nicaraguans subsequent victory over the foreign invaders helped forge their long delayed sense of national unity The decimation of Nicaraguan archives for the period prior to 1858 renders the study of early nineteenth century history especially challenging but Burns has made ingenious use of secondary sources and the few published primary materials available including travelers accounts and other memoirs newspapers government reports and diplomatic correspondence He provides valuable insight into Nicaraguan society of the time of both the elite and the folk including a perceptive section on the status and activities of women and the family in society This book will appeal not only to professional historians but to general readers as well

Coptic Identity and Ayyubid Politics in Egypt, 1218-1250 Kurt J. Werthmuller, 2010 Using the life and writings of Cyril III Ibn Laqlaq 75th patriarch of the Coptic Orthodox Church along with a variety of Christian and Muslim chroniclers this study explores the identity and context of the Christian community of

Egypt and its relations with the leadership of the Ayyubid dynasty in the early thirteenth century Kurt Werthmuller introduces new scholarship that illuminates the varied relationships between medieval Christians of Egypt and their Muslim neighbors Demonstrating that the Coptic community was neither passive nor static the author discusses the active role played by the Copts in the formation and evolution of their own identity within the wider political and societal context of this period In particular he examines the boundaries between Copts and the wider Egyptian society in the Ayyubid period in three in between spaces patriarchal authority religious conversion and monasticism *Religion and Politics in the Contemporary United States* R. Marie Griffith, Melani McAlister, 2008-06-09 This collection of essays from a special issue of American Quarterly explores the complex and sometimes contradictory ways that religion matters in contemporary public life Religion and Politics in the Contemporary United States offers a groundbreaking cross disciplinary conversation between scholars in American studies and religious studies The contributors explore numerous modes through which religious faith has mobilized political action They utilize a variety of definitions of politics ranging from lobbying by religious leaders to the political impact of popular culture Their work includes the political activities of a very diverse group of religious believers Christians Jews Muslims Hindus Buddhists and others In addition the book explores the meanings of religion for people who might contest the term those who are spiritual but not religious for example as well as activists who engage symbols of faith and community but who may not necessarily consider themselves members of a specific religion Several essays also examine the meanings of secular identity humanist politics and the complex evocations of civil religion in American life No other book on religion and politics includes anything like the diversity of religions ethnicities and topics that this one does from Mormon political mobilization to attempts at Americanizing Muslims in the post 9 11 United States from C sar Ch vez to James Dobson from interreligious cooperation and conflict over Darfur to the global politics surrounding the category of Hindus and South Asians in the United States **Eastern Christianity and Politics in the Twenty-First Century** Lucian N. Leustean, 2014-05-30 This book provides an up to date comprehensive overview of Eastern Christian churches in Europe the Middle East America Africa Asia and Australia Written by leading international scholars in the field it examines both Orthodox and Oriental churches from the end of the Cold War up to the present day The book offers a unique insight into the myriad church state relations in Eastern Christianity and tackles contemporary concerns opportunities and challenges such as religious revival after the fall of communism churches and democracy relations between Orthodox Catholic and Greek Catholic churches religious education and monastic life the size and structure of congregations and the impact of migration secularisation and globalisation on Eastern Christianity in the twenty first century **Political Regimes in the Arab World** Ferran Izquierdo Brichs, 2012-11-27 One of the implications of Orientalism is that the Arab world as a homogenous entity is often analysed as an anomaly within the international system This book argues that despite their differences societies across the globe ultimately construct their own history according to very similar dynamics and tensions The

methodological approach of this book using different countries within the Arab world as models offers the reader an analysis of relations between the elites and their opposition in a variety of settings A definition of the political structure of each country is drawn from this analysis before potential future scenarios as according to country specific experts are proposed This model provides a useful contribution to students and scholars of political science and international relations Through providing a comparative study of the political regimes currently operating in the Arab world their elites civil society power resources and political resistance this book illustrates that despite the image of homogeneity sometimes portrayed by the Arab world it is the multiplicity of models and heterogeneity of regimes that constitute reality **Democracy**

Compromised Lungisile Ntsebeza,2005-06-01 This book argues that the promulgation of the Traditional Leadership and Governance Framework and Communal Land Rights Acts runs the risk of compromising South Africa s democracy The acts establish traditional councils with land administration powers These structures are dominated by unelected members

Politics, Religion and Political Theology C. Allen Speight,Michael Zank,2017-06-30 This new volume gives discursive shape to several key facets of the relationship among politics theology and religious thought Powerfully relevant to a wealth of further academic disciplines including history law and the humanities it sharpens the contours of our understanding in a live and evolving field It charts the mechanisms by which contrary to the avowed secularism of many of today s politics theology and religion have often and sometimes profoundly shaped political discourse By augmenting this broader analysis with a selection of authoritative papers focusing on the prominent sub field of political theology the anthology offsets a startling academic lacuna Alongside focused analysis of subjects such as conscience secularism and religious tolerance the discussion of political theology examines the tradition s critical moments including developments during the post World War I Weimar republic in Germany and the epistemological imprint the theory has left behind in works by political thinkers influenced by the three major monotheistic traditions Monks, Rulers, and Literati : The Political Ascendancy of Chan Buddhism Asian Religions University of Winnipeg Albert Welter Professor,2006-01-11 The Chan Zen in Japanese school began when in seventh century China a small religious community gathered around a Buddhist monk named Hongren Over the centuries Chan Buddhism grew from an obscure movement to an officially recognized and eventually dominant form of Buddhism in China and throughout East Asia It has reached international popularity its teachings disseminated across cultures far and wide In Monks Rulers and Literati Albert Welter presents for the first time in a comprehensive fashion in a Western work the story of the rise of Chan a story which has been obscured by myths about Zen Zen apologists in the twentieth century Welter argues sold the world on the story of Zen as a transcendental spiritualism untainted by political and institutional involvements In fact Welter shows that the opposite is true relationships between Chan monks and political rulers were crucial to Chan s success The book concentrates on an important but neglected period of Chan history the 10th and 11th centuries when monks and rulers created the so called Chan golden age and the classic principles of Chan identity

Placing Chan's ascendancy into historical context Welter analyzes the social and political factors that facilitated Chan's success as a movement. He then examines how this success was represented in the Chan narrative and the aims of those who shaped it. *Monks, Rulers, and Literati* recovers a critical period of Zen's past, deepening our understanding of how the movement came to flourish. Welter's groundbreaking work is not only the most comprehensive history of the dominant strand of East Asian Buddhism but also an important corrective to many of the stereotypes about Zen.

Orthodox Christianity and the Politics of Transition Tornike Metreveli, 2020-11-29 This book discusses in detail how Orthodox Christianity was involved in and influenced political transition in Ukraine, Serbia, and Georgia after the collapse of communism. Based on original research including extensive interviews with clergy and parishioners as well as historical legal and policy analysis, the book argues that the nature of the involvement of churches in post-communist politics depended on whether the interests of the church—for example, in education, the legal system, or economic activity—were accommodated or threatened. If accommodated, churches confined themselves to the sacred domain; if threatened, they engaged in daily politics. If churches competed with each other for organizational interests, they evoked the support of nationalism while remaining within the religious domain. The Saturday Review of Politics, Literature, Science and Art, 1869 *Political Topographies of the African State* Catherine Boone, 2003-10-27 This study brings Africa into the mainstream of studies of state formation in agrarian societies. Territorial integration is the challenge; institutional linkages and political deals that bind center and periphery are the solutions. In African countries, rulers at the center are forced to bargain with regional elites to establish stable mechanisms of rule and taxation. Variation in regional forms of social organization make for differences in the interests and political strength of regional leaders who seek to maintain or enhance their power vis-à-vis their followers and subjects and also vis-à-vis the center.

Russian Political Institutions Maksim Maksimovich Kovalevskii, 1902 **Patriarch Dioscorus of Alexandria** Volker-Lorenz Menze, 2023 This book provides the first full account of Dioscorus as patriarch of Alexandria between 444 and 451 CE. Often historically tarnished as a ruthless tyrant-bishop in the Western Church, Dioscorus is shown rather to be a conflicted reformer against the backdrop of the Later Roman Empire and its political mechanisms for implementing Orthodoxy.

Our Time is Now Julie Gibbins, 2020-06-18 Postcolonial histories have long emphasized the darker side of narratives of historical progress, especially their role in underwriting global and racial hierarchies. Concepts like primitiveness, backwardness, and underdevelopment not only racialized and gendered peoples and regions but also ranked them on a seemingly naturalized timeline: their present is our past, and reframed the politics of capitalist expansion and colonization as an orderly natural process of evolution towards modernity. *Our Time is Now* reveals that modernity particularly appealed to those excluded from power precisely because of its aspirational and future orientation. In the process, marginalized peoples creatively imagined

diverse political futures that redefined the racialized and temporal terms of modernity Employing a critical reading of a wide variety of previously untapped sources Julie Gibbings demonstrates how the struggle between indigenous people and settlers to manage contested ideas of time and history as well as practices of modern politics economics and social norms were central to the rise of coffee capitalism in Guatemala and to twentieth century populist dictatorship and revolution

Fearless Thinking Carol Aubrey, 2009-02 It is transition time on planet Earth and we are the transition team Our job is nothing less than to break from millenniums of fear based thinking and the human imperative to dominate and control and move toward our divine connection The domination subservient paradigm under which we have toiled has kept us in a hamster wheel of shame blame and guilt with the perpetual need to judge condemn and punish ourselves and each other It is time to break free and Fearless Thinking shows us how Carol Aubrey destroys the myths that are destroying us and halts old age thinking in its tracks Shining the light on the path to authenticity in our lives she inspires us to think and act fearlessly The great shift or evolutionary leap that we are on the brink of making is spiritual in nature happening inside each of us as we consciously free ourselves from the prison of old mindsets We ourselves embody the shift to a world beyond fear Sparking our imaginative and co creative powers by providing new languaging and a new outlook Carol Aubrey invites us to discern the remarkable and challenging gameboard of life and to view ourselves as powerful purposeful and intentional players on this gameboard *Saturday Review of Politics, Literature, Science and Art* ,1869 *The Saturday Review of Politics, Literature, Science, Art, and Finance* ,1869
