Marriage and Fertility Behaviour in Japan Nobutaka Fukuda,2016-01-28 This monograph examines the influence of ideational and socio economic factors on Japanese marriage and fertility behaviour It also investigates the historical change in attitudes toward partnership and family in Japan which if current trends continue can lead to population shrinkage and an asymmetrical age structure The author first details the differences between ideational and economic approaches He examines these two behavioural models from a viewpoint of rational choice theory which he then follows with a discussion on the influence of institutional contexts on matrimony and childbirth Next the book considers salient features of Japanese marriage behaviour including the relation between these patterns and changes in society and the influence of marriage on attitudes toward partnership and family relations Coverage then goes on to explore the influence of ideational factors on fertility and analyse the impact of childbirth on couples attitudes The author also investigates attitudinal changes between generations in Japan He provides a theoretical review on the relation between socio economic development and value orientation as well as looks at the difference in attitudes from a viewpoint of cohorts and periods Overall the book presents an authoritative theoretical and empirical analysis using data from panel and repeated cross sectional surveys Throughout the author clearly identifies the sources of his data as well as the methods used in his analysis Japanese Studies from Pre-History to 1990 Richard Perren,1992 Gendering the Fertility Decline in the Western World Angélique Janssens,2007 The first demographic transition changed the face of the western world as thoroughly as did the Industrial Revolution As couples began to have fewer children women were released from the heavy burden of endless pregnancies and extended periods of child care Even though this profound process of change has been extensively researched women were rarely pictured as decision makers concerning fertility and family Moreover men and women were mostly not perceived as having potentially differing interests in sexuality and child bearing This volume contains papers delivered at the conference Women Present at the Demographic Transition which was held at the Radboud University Nijmegen 20 21 May 2005 The contributions throw light on the active role women played in the fertility decline as well as on the complex process of decision making between husbands and wives *Demographic Transition Theory* John C. Caldwell,2007-09-21 This book has a strong theoretical focus and is unique in addressing both mortality and fertility over the full span of human history It examines the demographic transition in the change in the human condition from high mortality and high fertility to low mortality and low fertility It asks if fluctuating populations is a new phenomenon or if there has long been an inherent tendency in Man to maximize survival and to control family size **Making Health Work** Carl Mosk,2023-11-15 Mosk shows how population quality provides a key to understanding economic growth and social change in Japan This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate

the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 *Voices Revived* makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1996 *Disturbing the Nest* David Popenoe,2020-10-14 *Disturbing the Nest* assesses the future of the family as an institution through an historical and comparative analysis of the nature causes and social implications of family change in advanced western societies such as the United States New Zealand and Switzerland by focusing on the one society in which family decline is found to be the greatest Sweden The founding of the modern Swedish welfare state was based in large part on the belief that it was necessary for the state to intervene in society in order to improve the situation of the family Of great concern was the low birthrate which was seen as a threat to the very survival of Swedes as a national population group The Social Democrats pioneered welfare measures that aimed to strengthen the family to alleviate its worst trials and tribulations and to make possible harmonious living With the Social Democrats remaining in power continuously until 1976 a period of almost forty five years Sweden went on to implement governmental family policies that are among the most comprehensive and expensive in the world In view of this major policy goal of family improvement the actual situation of the Swedish family today presents a genuine irony some have claimed that Swedish welfare state policies have had consequences that are the opposite of those originally intended Comparing contemporary Swedish family patterns with those of other advanced nations one finds a very high family dissolution rate probably the highest in the Western world and a high percentage of single parent female headed families Even marriage seems to have fallen increasingly out of favor with Sweden having the lowest marriage rate and latest age of first marriage and the highest rate of children born out of wedlock The early pronatalist aspirations of the Swedish government have been spectacularly unsuccessful as Sweden continues to have one of the world s lowest birthrates and smallest average family sizes **Routledge Handbook of Families in Asia** Stella R.

Quah,2015-03-24 Research on the family has expanded considerably across Asia but studies tend to be fragmented focusing on narrow issues within limited areas cities towns small communities and may not be accessible to international readers These limitations make it difficult for researchers students policy makers and practitioners to obtain the information they need The Routledge Handbook of Families in Asia fills that gap by providing a current and comprehensive analysis of Asian families by a wide range of experts in a single publication The thirty two chapters of this comparative and multi disciplinary volume are organized into nine major themes conceptual approaches methodological issues family life in the context of culture family relationships across the family life cycle issues of work and income stress and conflict family diversity family policy and laws and environmental setting of homes Each chapter examines family life across Asian countries studying cultural similarities and differences and exploring how families are changing and what trends are likely to develop in the future To provide a fruitful learning experience for the reader each chapter offers examples relevant data and a comprehensive list of references Offering a complete interdisciplinary overview of families in Asia the Handbook will be of

 First published in 1986 Routledge is an imprint of Taylor Francis an informa company *Who Pays for the Kids?* Nancy Folbre,1994-01-06 A fresh look at how women largely carry the costs of caring for themselves the children and other dependents with an analysis of individual choices within interlocking structures of constraint based on gender sex age nation race and class *Growth Triumphant* Richard A. Easterlin,2009-11-10 Taking a longer view than most literature on economic development Richard A Easterlin stresses the enormous contrast between the collective experience of the last half century in both developed and developing countries and what has gone before An economic historian and demographer the author writes in the tradition of the new economic history drawing on economic theory and quantitative evidence to interpret the historical experience of economic theory and population growth He reaches beyond the usual disciplinary limits to draw as appropriate on sociology political science psychology anthropology and the history of science The book will be of interest not only to social scientists but to all readers concerned with where we have been and where we are going Easterlin is both an economic historian and a demographer and it is the combination of these two disciplines and the fine balance between theory and experience that make this well written refreshingly optimistic book excellent reading Population and Development Review In this masterful synthesis Richard Easterlin draws on the disciplines of economic history demography sociology political science psychology and the history of science to present an integrated explanation of the origins of modern economic growth and of the mortality revolution His book should be easily accessible to non specialists and will give them a sense of why economic history can inform our understanding of the future Dora L Costa Massachusetts Institute of Technology EH Net and H Net Growth Triumphant is simply a fascinating book Easterlin has woven together a history of economic growth economic development human mortality and morbidity the connections each has with the others and the implications of this nexus of forces on the future This book deserves a wide audience Choice In what must surely be the most fair minded well balanced and scrupulously reasoned and researched book on the sensational subjects implied in its title the Industrial Revolution the mortality and fertility revolutions and the prospects for future happiness for the human race Professor Easterlin has set in place the capstone of his research career Journal of Economic History Richard A Easterlin is Professor of Economics University of Southern California Social Status of Women in Developing Countries Man Singh Das,Vijay Kumar Gupta,1995 The book focuses on the past traditional roles of women and also identifies direction of change rate of change and the causes of change in women s status It hasalso been pointed out that these recent developments in the status of women may become the future sociology of changing sex roles in the developing countries and may recast marriage and family in new and different molds Growing Up in a Changing Society Ronnie Carr,Paul Light,Martin

Woodhead,2014-02-04 The final reader in the Child Development in Social Context series shows how the study of child development is inevitably bound up in more ephemeral cultural ideas about the nature and needs of children and in the educational practices that rise from these ideas Some readings point to the dangers which can arise from the meeting of science and cultural values using for illustration studies of the role of psychological theory in reinforcing social attitudes to child care inside and outside the family Other readings look at children s initiation into that relatively recent cultural invention the school and the relationship with their learning at home There are studies of their social development in classroom and playground with particular emphasis on ethnic relationships *Historical Demography and Labor Markets in Prewar Japan* Michael Smitka,1998 This volume traces the modern critical and performance history of this play one of Shakespeare s most loved and most performed comedies The essay focus on such modern concerns as feminism deconstruction textual theory and queer theory **Trade and Migration in the Modern World** Carl Mosk,2007-05-07 Revolutionized by the growing use of fossil fuels and electricity and the reduced costs of transportation and communications international trade and migration has received an unprecedented boost in recent years Using a theory of economic and political gravitation backed up with both quantitative analysis and qualitative description Mosk argues that the tendency for trade and migration to flow together is tempered by market forces and political resistance to diversity in migration This results in a glaring paradox the political arenas of nation states are divided between embracing and opposing diversity in immigration the same immigration flows their own policies helped create A remarkable volume this book will be invaluable to students of economics demographic historians policy makers and political scientists **First Births in America** Ronald R. Rindfuss,S. Philip Morgan,C Gray Swicegood,2023-11-15 This book explores the shifting patterns of parenthood in the United States over the past century focusing on the timing of first births and the social economic and cultural factors that influence these decisions It highlights the concurrent bloom and bust in fertility trends where the number of older parents has increased while the rates of childlessness have also risen primarily due to delays in childbearing among younger people Through an examination of historical trends the book considers how factors such as education religion and socioeconomic status influence when individuals choose to become parents It also compares American fertility patterns with those of other developed nations particularly Japan to show how different cultural contexts shape reproductive behavior The study takes a life course perspective emphasizing how early life experiences and broader social contexts affect decisions about when to start a family The book provides a detailed analysis of fertility trends from both macro and micro levels using a variety of data sources including surveys and longitudinal studies It also investigates the consequences of delayed childbearing childlessness and the timing of parenthood on family dynamics career trajectories and social roles In doing so the book offers insights into the complex interplay between individual choices and societal influences and discusses the implications for future demographic and social change This title is part of UC Press s Voices Revived program which commemorates

University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 *Voices Revived* makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1988 **Development: Doctrines of development** Stuart Corbridge, 2000 Brings together more than one hundred articles dealing with the discipline of development in all its diversity Key topics include the transformation of peasant economies agribusiness rural urban relations markets industrialization workers trade aid and structural adjustment A unique set in its comprehensiveness and diversity it also considers four key challenges for development theory and practice relating to capabilities ethics sustainability and regulation

THE CAUSES AND EFFECTS OF THE EARTH'S CLIMATE CHANGES Bogdan Jacek Góralski, 2023-03-22 I dedicate my book to people who are hungry for knowledge who will build the future world and achieve the goal of evolution A *Home Divided*, 1993-12 A challenge to economic theories that view the household as a harmonious unit with a single decision maker this book shows that in the Third World the household is an arena of conflict marked by inequality and negotiation over income and expenditures Dwyer and Bruce's introduction is followed by eleven field studies four in Asia four in Africa and the Middle East and three in the Caribbean and Central America These twelve essays by economists sociologists anthropologists and demographers provide a cogent analysis of household structure dynamics and women's bargaining context This book will be of interest not only to specialists in gender studies but also to ethnologists and other social scientists
