pervade every facet of public and popular culture History embraces nature and the cosmos as well as humanity The past is seen and touched and tasted and smelt as well as heard and read about Empathy re enactment memory and commemoration overwhelm traditional history A unified past once certified by experts and reliant on written texts has become a fragmented contested history forged by us all New insights into history and memory bias and objectivity artefacts and monuments identity and authenticity and remorse and contrition make this book once again the essential guide to the past that we inherit reshape and bequeath to the future
