Bach, Mamoudou Gazibo, 2013-03-01 Neopatrimonialism a system whereby rulers use state resources for personal benefit and to secure the loyalty of clients in the general population is central to any teaching or conceptualisation of contemporary African politics This book is a theoretical and comparative study of neopatrimonialism in Africa and across world regions Although such practices are widespread in other parts of the world the African neopatrimonial state has also become a global prototype of the anti developmental state This volume calls for a reappraisal of the genesis and interpretations of the concepts of patrimonialism and neopatrimonialism Expert contributors consider recent debates in Africa through the study of democracy clientelism the big man syndrome Kenya the rise of godfatherism Nigeria warlordism Liberia and the neopatrimonial state on a day to day basis Niger They discuss patrimonialism and neopatrimonialism from Latin America to Europe Central Asia and Asia Pacific to weave a comparative analysis of the interplay between public policies and private interest Neopatrimonialism in Africa and Beyond is an important and timely volume that will be of interest to students and scholars of international politics African studies sociology and international development **Katanga 1960-63** Christopher Othen, 2015-09-07 In King Leopold II's infamous Congo Free State at the turn of the century severed hands became a form of currency But some in the Belgian government had no sense of historical shame as they connived for an independent Katanga state in 1960 to protect Belgian mining interests What happened next was extraordinary It was an extremely uneven battle The UN fielded soldiers from twenty nations America paid the bills and the Soviets intrigued behind the scenes Yet to everyone's surprise the

new nation's rag tag army of local gendarmes, jungle tribesmen and controversially European mercenaries refused to give in. For two and a half years Katanga, the scrawniest underdog ever to fight a war held off the world with guerrilla warfare, two faced diplomacy and some shady financial backing. It even looked as if the Katangese might win. Katanga 1960-63 tells for the first time the full story of the Congolese province that declared independence and found itself at war with the world. *The Rise and Decline of the Zairian State* Crawford Young, Thomas Edwin Turner, 1985. Zaire, apparently strong and stable under President Mobutu in the early 1970s, was bankrupt and discredited by the end of that decade, beset by hyperinflation and mass corruption, the populace forced into abject poverty. Why and how in a new African state strategically located in Central Africa and rich in mineral resources did this happen? How did the Zairian state become a parasitic predator upon its own people? Transnational Enterprises Krishna Kumar, 2019-06-04. This book represents the first attempt to conceptualize the social and cultural impact of transnational enterprises on host nations and to provide empirical and analytical material on the subject. Well known social scientists focus on three critical areas: social inequalities, knowledge systems and lifestyles and values. Collectively they advance Identity and Global Politics P. Goff, 2004-03-17. This collected volume draws together essays written by International Relations scholars from a variety of regional, methodological and theoretical perspectives to confront the challenges of identity centered analysis. In particular the contributors seek to elucidate the general meaning and methodological implications of the commonly state yet largely unexamined assertion that identities are relational, fluid, constructed and multiple. *Corruption, Development and Underdevelopment* Robin Theobald, 1989-12-11. Corruption, for most of us, almost immediately evokes images of the third world, especially countries like Nigeria, Mexico and India. Whilst we may concede that corruption exists in developed countries, it is generally thought to be under control. Despite such widely held views, there is very little hard evidence on the actual extent of corruption in any country. This book strives to look behind impressions in an attempt to determine what factors underlie the high profile of corruption in UDCs. For an adequate understanding of the phenomenon, the global character of corruption is emphasized as well as the necessity of locating it within a broader process of economic and social change. Comparing Apples and Mangoes S. N. Sangmpam, 2012-02-01. Two competing approaches currently dominate the debate about the state and institutions in developing countries. The first projects a picture of transnational vertical uniformity descending from the West to developing countries and views liberal democracy as the only game in town. In this view, the state and institutions resemble or ought to resemble those in the West. The second, by contrast, explains political outcomes by local idiosyncrasies and regional variations in institutions. In his original approach to third world politics, S. N. Sangmpam challenges both views by uncovering important similarities in the political features of developing countries. He shows that they share political behaviors and features unaccounted for in either local idiosyncratic or liberal democratic theories. These behaviors converge toward a common property: overpoliticization that defies political compromise, leading to an overpoliticized state. Sangmpam provides a wealth of empirical, historical and

quantitative evidence from Latin America Asia Africa and the West and demonstrates the overpoliticized state constitutes the cornerstone of an integrated theory of politics in developing countries **The Postcolonial State in Africa** Crawford Young,2012-11-20 A highly readable sweeping and yet detailed analysis of the African state in all its failures and moments of hope Crawford Young manages to touch upon all the important issues in the discipline and crucial developments in the recent history of the African continent This book will be a classic Pierre Englebert author of *Africa Unity Sovereignty and Sorrow*

A Violent History Giacomo Macola,2025-09-03 Since the early nineteenth century political and military violence has played an exceptionally significant role in the territory corresponding to the present day Democratic Republic of Congo By emphasising the periodic re occurrence of warlordism and the economy of plunder that characterises it Giacomo Macola offers new analytical tools to interpret the history of the societies of the Congo Basin over the past two hundred years In the concluding chapters the author dwells on more recent events detailing the collapse of Mobutu s Zaire the Great African War and the reasons for the continuing armed instability in the east of the country Supplementing analyses of the contemporary dimension of African conflicts Macola makes a case for the enduring importance of studying precolonial history *From Nation-Building to State-Building* Mark T. Berger,2013-09-13 This book examines the history of nation building during the era of decolonization and the Cold War and on the more recent post Cold War and post 9 11 pursuit of nation building in what have become known as collapsed or failed states In the post Cold War and post 9 11 era nation building or what is increasingly termed state building has taken on renewed salience making it more important than ever to set the idea and practice of nation building in historical perspective Focusing on both historical and contemporary examples the contributors explore a number of important themes that relate to successful and unsuccessful nation building efforts from South Vietnam in the 1950s and 1960s to East Timor Afghanistan and Iraq in the twenty first century *From Nation Building to State Building* was previously published as a special issue of *Third World Quarterly* and will be of interest to students and scholars of comparative politics and peace studies *African Social Studies* C W Gutkind,Peter Waterman,1977 *African Social Studies A Radical Reader* is an essential and wide ranging collection of essays by some of the world s finest social scientists known and lesser known This impressive collection covers issues such as the legacy of colonialism imperialism problems in the field of African Studies national liberation movements and more No student of Africa should be without this volume

Encyclopedia of African History 3-Volume Set KEVIN SHILLINGTON.,2005 **Ethnicities and Tribes in Sub-Saharan Africa** S. N. Sangmpam,2017-03-08 This book proposes new avenues for understanding tribal allegiance in Sub Saharan Africa Much research on ethnicity and cultural pluralism in Sub Saharan Africa falsely equates the term tribe with ethnicity and obscures the differences between Sub Saharan Africa and other regions It also puts too much emphasis on the role of the colonial state in fostering tribal allegiance This book challenges these claims and offers an alternate way of understanding tribal allegiance in Sub Saharan Africa **Democratic Experiments in Africa** Michael Bratton,Nicolas Van

de Walle,1997-08-13 Appendix The Data Set *Africa* Air University (U.S.). Library,1972 Party System Formation in Kazakhstan Rico Isaacs,2011-03-21 Since the collapse of the Soviet Union Central Asian states have developed liberal constitutional formal institutions However at the same time political phenomena in Central Asia are shaped by informal political behaviour and relations This relationship is now a critical issue affecting democratization and regime consolidation processes in former Soviet Central Asia and this book provides an account of the interactive and dynamic relationship between informal and formal politics through the case of party system formation in Kazakhstan Based on extensive interviews with political actors and a wide range of historical and contemporary documentary sources the book utilises and develops neopatrimonialism as an analytical concept for studying post Soviet authoritarian consolidation and failed democratisation It illustrates how personalism of political office patronage and patron client networks and factional elite conflict have influenced and shaped the institutional constraints affecting party development the type of emerging parties and parties relationship with society The case of Kazakhstan however also demonstrates how in the former Soviet space political parties emerge as central to the legitimization of informal political behavior the structuring of factional competition and the consolidation of authoritarianism The book represents an important contribution to the study of Central Asian Politics *Anatomy of Rebellion* Claude E. Welch Jr.,1980-06-30 Anatomy of Rebellion provides an understanding of four rebellions that will make clear the factors that are crucial in the development of other rebellions Seeking a political pattern in the process of rebellion Claude Welch Jr has investigated four large scale rural uprisings that came close to becoming revolutions the Taiping rebellion in China 1850 64 the Telengana uprising in India of 1946 51 the Mau Mau rebellion in Kenya of 1952 56 the Kwilu uprising in Zaire of 1963 65 Weaving the facts of these rebellions with theories about political violence Welch follows the rebellions through the initial stages of discontent to the explosion of violence to the suppression of the uprisings He then challenges explanations of political violence both Marxist and non Marxist that other scholars have proposed Rebellions have not been studied as thoroughly as the major successful revolutions although the frequency of rebellions in the modern world is not likely to diminish Rural dwellers discontents are still clashing with central governments ambitions Anatomy of Rebellion clarifies how this volatile type of political violence occurs **The Two Logics of Autocratic Rule** Johannes Gerschewski,2023-04-13 This book provides an innovative theoretical framework for studying and comparing autocratic rule across the globe
