Patriotic Tide 1940 195:

A Patriot After All, 1940-1941 George Orwell, 1998 For the twenty month period of this volume there are reproduced 123 book 38 theatre and 43 film reviews INSIDE THE WHALE Orwell s first collection of essays and THE LION AND THE UNICORN SOCIALISM AND THE ENGLISH GENIUS are reprinted here Later in that year he gave a series of broadcasts on literary criticism the texts of which are reproduced Throughout this period Orwell kept a wartime diary its entries are here printed chronologically with his reviews essays and letters and it is here that Orwell makes the first reference to his wish to live on a Hebridean island It was in 1941 that Orwell began his series of London Letters for PARTISAN REVIEW The volume also includes Orwell s lecture notes for instructing members of his Home Guard platoon **The Complete Works of George Orwell: A patriot after all, 1940-1941** George Orwell, 1998 *The Politics of 1930s British Literature* Natasha Periyar, 2018-06-14 Winner of the 2018 International Standing Conference for the History of Education s First Book Award Drawing on a rich array of archival sources and historical detail *The Politics of 1930s British Literature* tells the story of a school minded decade and illuminates new readings of the politics and aesthetics of 1930s literature In a period of shifting political claims educational policy shaped writers social and gender ideals This book explores how a wide array of writers including Virginia Woolf W H Auden George Orwell Winifred Holtby and Graham Greene were informed by their pedagogic work It considers the ways in which education influenced writers analysis of literary style and their conception of future literary forms *The Politics of 1930s British Literature* argues that to those perennial symbols of the 1930s the loudspeaker and the gramophone should be added the textbook and the blackboard **The Socialist Patriot** Peter Stansky, 2023-01-17 An incisive demonstration of how Orwell s body of work was defined by the four major conflicts that punctuated his life World War I the Spanish Civil War World War II and the Cold War Few English writers wielded a pen so sharply as George Orwell the quintessential political writer of the twentieth century His literary output at once responded to and sought to influence the tumultuous times in which he lived decades during which Europe and eventually the entire world would be torn apart by war while ideologies like fascism socialism and communism changed the stakes of global politics In this study Stanford historian and lifelong Orwell scholar Peter Stansky incisively demonstrates how Orwell s body of work was defined by the four major conflicts that punctuated his life World War I the Spanish Civil War World War II and the Cold War Young Orwell came of age against the backdrop of the First World War and published his final book *Nineteen Eighty Four* nearly half a century later at the outset of the Cold War The intervening three decades of Orwell s life were marked by radical shifts in his personal politics briefly a staunch pacifist he was finally a fully committed socialist following his involvement in the Spanish Civil War But just before the outbreak of World War II he had adopted a strong anti pacifist position stating that to be a pacifist was equivalent to being pro Fascist By carefully combing through Orwell s published works notably *My Country Right or Left* *The Lion and the Unicorn* *Animal Farm* and his most dystopian and prescient novel *Nineteen Eighty Four* Stansky

teases apart Orwell's often paradoxical views on patriotism and socialism. The Socialist Patriot is ultimately an attempt to reconcile the apparent contradictions between Orwell's commitment to socialist ideals and his sharp critique of totalitarianism by demonstrating the centrality of his wartime experiences giving twenty-first century readers greater insight into the inner world of one of the most influential writers of the modern age. **This Fabulous Century: the Patriotic Tide, 1940-1950**, 1991

Patriotic Pluralism Jeffrey Mirel, 2010-04-30 In this book leading historian of education Jeffrey E. Mirel retells a story we think we know in which public schools forced a draconian Americanization on the great waves of immigration of a century ago. Ranging from the 1890s through the World War II years, Mirel argues that Americanization was a far more nuanced and negotiated process from the start, much shaped by immigrants themselves. Drawing from detailed descriptions of Americanization programs for both schoolchildren and adults in three cities: Chicago, Cleveland, and Detroit, and from extensive analysis of foreign language newspapers, Mirel shows how immigrants confronted different kinds of Americanization. When native-born citizens contemptuously tried to force them to forsake their home religions, languages, or histories, immigrants pushed back strongly. While they passionately embraced key aspects of Americanization—the English language, American history, democratic political ideas, and citizenship—they also found in American democracy a defense of their cultural differences. In seeing no conflict between their sense of themselves as Italians or Germans or Poles and Americans, they helped to create a new and inclusive vision of this country. Mirel vividly retells the epic story of one of the great achievements of American education, which has profound implications for the Americanization of immigrants today.

The Patriotic Tide, 1940-1950, 1991 *Russian/Soviet Military Psychiatry 1904-1945* Paul Wanke, 2005-07-08 Psychiatry, like most professional fields in Russia, gained its legitimacy from its ability to serve the Tsar, and later the Bolshevik party. The militarised nature of these governments meant that psychiatry would have to prove its worth to the military. This study will cover Russian/Soviet military psychiatry from its first practical experience during the Russo-Japanese war to its greatest test during the Great Patriotic War, 1941-45. Throughout this study, the continuity between Russian and Soviet military psychiatry will be emphasised. For example, psychiatry's materialist school dominated throughout this period, and that Russia's acceptance that psychiatric casualties would occur allowed them to focus their resources on treatment rather than prevention.
