Patrolling The Revolution Worker Militias Citizenship And State Building In China:

Patrolling the Revolution Elizabeth J. Perry, 2007-08-24 This pioneering study explores the role of working class militias as vanguard and guardian of the Chinese Revolution The book begins with the origins of urban militias in the late nineteenth century and follows their development to the present day Elizabeth J Perry focuses on the institution of worker militias as a vehicle for analyzing the changing yet enduring impact of China's revolutionary heritage on subsequent state society relations She also incorporates a strong comparative perspective examining the influence of revolutionary militias on the political trajectories of the United States France the Soviet Union and Iran Based on exhaustive archival research the work raises fascinating questions about the construction of revolutionary citizenship the distinctions among class community and creed the open ended character of revolutionary movements and the path dependency of institutional change All readers interested in deepening their understanding of the Chinese Revolution and in the nature of revolutionary change more generally will find this an invaluable contribution

The Theory and Practice of the East Asian Library Hong Cheng, 2023-01-09 Presenting groundbreaking research on the East Asian library this book provides theoretical exploration on the subject through a passive model of glocalism It details various aspects of the field and comprehensively covers the progress and conflicts in practice The issues and perspectives raised here will lead to a rethinking of the field and its role in global interactivity with East Asia The book will also provide library guidance to the scholars in East Asian studies and related disciplines offering support to East Asian resources and services that significantly affect scholarly activities

DILEMMAS OF VICTORY Jeremy Brown, 2010-03-15 This illuminating work examines the social cultural political and economic dimensions of the Communist takeover of China Instead of dwelling on elite politics and policy making processes *Dilemmas of Victory* seeks to understand how the 1949-1953 period was experienced by various groups including industrialists filmmakers ethnic minorities educators rural midwives philanthropists stand up comics and scientists A stellar group of authors that includes Frederic Wakeman Elizabeth Perry Sherman Cochran Perry Link Joseph Esherick and Chen Jian shows that the Communists sometimes achieved a remarkably smooth takeover yet at other times appeared shockingly incompetent Shanghai and Beijing experienced it in ways that differed dramatically from Xinjiang Tibet and Dalian Out of necessity the new regime often showed restraint and flexibility courting the influential and educated Furthermore many policies of the old Nationalist regime were quietly embraced by the new Communist rulers Based on previously unseen archival documents as well as oral histories these lively readable essays provide the fullest picture to date of the early years of the People's Republic which were far more pluralistic diverse and hopeful than the Maoist decades that followed

Chinese Sojourners in Wartime Raj, 1942-45 Cao Yin, 2022 This book is about how the activities of the Chinese sojourners in wartime India caused great concerns to the British colonial regime and the Chinese Nationalist government alike and how these sojourners responded to the surveillance discipline and check imposed by the governments *Dictators and their*

Secret Police Sheena Chestnut Greitens, 2016-08-16 How do dictators stay in power When and how do they use repression to do so Dictators and their Secret Police explores the role of the coercive apparatus under authoritarian rule in Asia how these secret organizations originated how they operated and how their violence affected ordinary citizens Greitens argues that autocrats face a coercive dilemma whether to create internal security forces designed to manage popular mobilization or defend against potential coup Violence against civilians she suggests is a byproduct of their attempt to resolve this dilemma Drawing on a wealth of new historical evidence this book challenges conventional wisdom on dictatorship what autocrats are threatened by how they respond and how this affects the lives and security of the millions under their rule It offers an unprecedented view into the use of surveillance coercion and violence and sheds new light on the institutional and social foundations of authoritarian power Individual Choice and State-Led Nationalist Mobilization in China Wen

Zha, 2015-05-11 This book presents a comparative historical analysis of state led nationalist movements in Chinese history which counters current claims that popular nationalism in present day China is strong enough to sustain costly expansionist wars Popular nationalism in China has been on the rise since the early 1990s to the concern of many observers Some have even asked whether China will become another Germany A comparative historical analysis of pre war and wartime nationalist mobilization helps us better understand how individuals formulate their opinions under extreme conditions It concludes that the public's weak perception of foreign threats taken together with pro minority domestic institutions may significantly undermine the state's efforts at nationalist mobilization and thus limit its capability to pursue external expansion or other strategic goals **From Policemen to Revolutionaries: A Sikh Diaspora in Global Shanghai, 1885-1945** Yin

Cao, 2017-10-10 From Policemen to Revolutionaries uncovers the less known story of Sikh emigrants in Shanghai in the late nineteenth and early twentieth centuries Yin Cao argues that the cross border circulation of personnel and knowledge across the British colonial and the Sikh diasporic networks facilitated the formation of the Sikh community in Shanghai eventually making this Chinese city one of the overseas hubs of the Indian nationalist struggle By adopting a translocal approach this study elaborates on how the flow of Sikh emigrants largely regarded as subalterns initially strengthened but eventually unhinged British colonial rule in East and Southeast Asia Contemporary Chinese Politics Allen Carlson, Mary E.

Gallagher, Kenneth Lieberthal, Melanie Manion, 2010-07-29 Contemporary Chinese Politics Sources Methods and Field Strategies considers how new and diverse sources and methods are changing the study of Chinese politics Contributors spanning three generations in China studies place their distinct qualitative and quantitative methodological approaches in the framework of the discipline and point to challenges or opportunities or both of adapting new sources and methods to the study of contemporary China How can we more effectively use new sources and methods of data collection How can we better integrate the study of Chinese politics into the discipline of political science to the betterment of both This comprehensive methodological survey will be of immense interest to graduate students heading into the field for the first

time and experienced scholars looking to keep abreast of the state of the art in the study of Chinese politics

The History of the People's Republic of China, 1949-1976 Julia Strauss, 2007-06-11 Examines the People's Republic of China between 1949 and 1976 from an explicitly historical perspective

Everyday Lives in China's Cold War Military-Industrial Complex Youwei Xu, Y. Yvon Wang, 2022-08-22 This book translates and contextualizes the recollections of men and women who built lived and worked in some of the factory compounds relocated from China's most cosmopolitan city Shanghai Small Third Line factories became oases of relatively prosperous urban life among more impoverished agricultural communities These accounts plus the guiding questions contextual notes and further readings accompanying them show how everyday lives fit into the sweeping geopolitical changes in China and the world during the Cold War era Furthermore they reveal how the Chinese Communist Party's military industrial strategies have shaped China's economy and society in the post Mao era The approachable translations and insight into areas of life rarely covered by political or diplomatic histories like sexuality and popular culture make this book highly accessible for classroom use and the general interest reader

After Repression Elizabeth R. Nugent, 2020-09 In the wake of the Arab Spring newly empowered factions in Tunisia and Egypt vowed to work together to establish democracy In Tunisia political elites passed a new constitution held parliamentary elections and demonstrated the strength of their democracy with a peaceful transfer of power Yet in Egypt unity crumbled due to polarization among elites Presenting a new theory of polarization under authoritarianism the book reveals how polarization and the legacies of repression led to these substantially divergent political outcomes The book documents polarization among the opposition in Tunisia and Egypt prior to the Arab Spring tracing how different kinds of repression influenced the bonds between opposition groups

To Govern China Vivienne Shue, Patricia M. Thornton, 2017-10-26 How practically speaking is the Chinese polity as immense and fissured as it has now become actually being governed today Some analysts highlight signs of progress in the direction of more liberal open and responsive rule Others dwell instead on the many remaining obstacles to a hoped for democratic transition Drawing together cutting edge research from an international panel of experts this volume argues that both those approaches rest upon too starkly drawn distinctions between democratic and non democratic regime types and concentrate too narrowly on institutions as opposed to practices The prevailing analytical focus on adaptive and resilient authoritarianism a neo institutionalist concept fails to capture what are often cross cutting currents in ongoing processes of political change Illuminating a vibrant repertoire of power practices employed in governing China today these authors advance instead a more fluid open ended conceptual approach that privileges nimbleness mutability and receptivity to institutional and procedural invention and evolution

Beyond Regimes Duara Prasenjit, Elizabeth J. Perry, 2020-10-26 For many years China and India have been powerfully shaped by both transnational and subnational circulatory forces This edited volume explores these local and global influences as they play out in the contemporary era The analysis focuses on four intersecting topics labor relations legal reform and rights protest public goods provision and

transnational migration and investment The eight substantive chapters and introduction share a common perspective in arguing that distinctions in regime type democracy versus dictatorship alone offer little insight into critical differences and similarities between these Asian giants in terms of either policies or performance A wide variety of subnational and transnational actors from municipal governments to international organizations and from local NGO activists to a far flung diaspora have been and will continue to be decisive The authors approach China and India through a strategy of convergent comparison in which they investigate temporal and spatial parallels at various critical junctures at various levels of the political system and both inside and outside the territorial confines of the nation state The intensified globalization of recent decades only heightens the need to view state initiatives against such a wider canvas *Shanghai Gone* Qin Shao,2023-06-14

One of the best accounts of the reality of gentrification and urban development in China grounded with solid historical ethnographic and legal evidence *Urban Studies* In recent decades the centuries old city of Shanghai has been demolished and rebuilt into a gleaming megacity With its world famous skyscrapers it now ranks with New York and London as a hub of global finance But that transformation has come at a grave human cost In *Shanghai Gone* Qin Shao applies the concept of domicide the eradication of a home against the will of its dwellers to the sweeping destruction of neighborhoods families and life patterns that made way for the new Shanghai Shao gives voice to the holdouts and protesters who resisted domicide and demanded justice She follows among others a reticent kindergarten teacher turned diehard petitioner a descendant of gangsters and squatters who has become an amateur lawyer for evictees and a Chinese Muslim who has struggled to recover his ancestral home in Xintiandi an infamous site of gentrification dominated by a well connected Hong Kong real estate tycoon Highlighting the wrenching changes spawned by China s reform era Shao vividly portrays the corrupt and rapacious pursuit of growth and profit the personal wreckage it has left behind and the enduring human spirit it has unleashed **Far Eastern Economic Review** ,2006 *Ruling by Other Means* Grzegorz Ekiert,Elizabeth J.

Perry,Xiaojun Yan,2020-07-30 What do states gain by sending citizens into the streets *Ruling by Other Means* investigates this question through the lens of State Mobilized Movements SMMs an umbrella concept that includes a range of often covertly organized collective actions intended to advance state interests The SMMs research agenda departs significantly from that of classic social movement and contentious politics theory focused on threats to the state from seemingly autonomous societal actors Existing theories assume that the goal of popular protest is to voice societal grievances represent oppressed groups and challenge state authorities and other powerholders The chapters in this volume show however that states themselves organize citizens sometimes surreptitiously and even transnationally to act collectively to advance state goals Drawn from different historical periods and diverse geographical regions these case studies expand and improve our understanding of social movements civil society and state society relations under authoritarian regimes **The Chinese Historical Review** ,2006 杰里米·布朗 (Jeremy Brown),保罗·G·皮科维奇 (Paul G. Pickowicz),2011-12-15 *At the Crossroads of*

Empires Nara Dillon, Jean Chun Oi, 2008 Republican Shanghai was a heterogeneous city with no central institutions Yet somehow it functioned coherently What held the city together The authors argue that networks of middlemen with boundless connections provided the glue *Choice*, 2006
