Hamell, 1968 A brief

overview of the Fathers of the Church their writings      Patrology Johannes Quasten, 1950      Patrology Otto Bardenhewer, 2015-07-16 Excerpt from *Patrology The Lives and Works of the Fathers of the Church* This work which I now offer to the public undertakes to present in a very concise and comprehensive manner the actual condition of patrological knowledge and research It also aims through its bibliographical paragraphs to interest and guide a larger number of students in the investigation of special problems It has been my purpose to quote from the earlier patrological literature only what seems most important and Similarly to omit nothing that is important among the numerous later researches AS the subject matter is very extensive I have found it necessary to confine myself often to mere indications and suggestions to omit too close specific discussion and to leave aside what seemed of minor value The nature of the work seemed also to impose a mere reference apropos of countless disputed points and questions At some later time I hope God willing to follow up this outline with a more thorough investigation of the entire field of patrology About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works      Patrology: The golden age of Latin patristic literature from the Council of Nicaea to the Council of Chalcedon Johannes Quasten, 1950 V 1 The beginnings of patristic literature v 2 The ante Nicene literature after Irenaeus v 3 The Golden Age of Greek patristic literature from the Council of Nicaea to the Council of Chalcedon      Patrology: The beginnings of patristic literature Johannes Quasten, Angelo Di Berardino, 1986 This monumental series places at the disposal of the English reading public a solid introduction to early Christian literature It is the first work of its kind written originally in English The first volume appeared in 1950 Reviewers were unanimous in heaping praise upon the publication and looking upon it as a breakthrough in studying the Fathers of the Church To arouse interest in the works of the Fathers the author provides numerous excerpts in English These are thought of

as samples that by giving readers a taste of the beauty and sublimity of the Patristic writings may tempt them to take in hand the original and get their own impression of it or if that is too much for them at least to read it in good translation Only this if achieved will put readers close to Patristic literature because only then do they sense the atmosphere of Christian antiquity and begin to penetrate its world The author's experiences as a university professor prompted him to adopt this device The selections are designed to also show the development of theology in the early centuries and to illustrate the approach of the Fathers to the deposit of faith

The Fathers of the Church Hubertus R. Drobner, 2007 The Fathers of the Church A Comprehensive Introduction presents the most important authors and works of the early history of Christian literature Spanning the first seven hundred years of Christianity Hubertus R Drobner introduces writers such as Philo Origen Eusebius Jerome and Augustine among many others All of the authors are presented in their respective political social ecclesiastical and cultural contexts and are organized in terms of bibliographies editions English translations ancillary sources and relevant literature Jacket

Beginning to Read the Fathers Boniface Ramsey, 2012 Now revised Beginning to Read the Fathers is an introduction to the church's earliest writers preachers and theologians It presupposes no more knowledge on the part of the reader than that the fathers existed and that their ideas might be important and perhaps even interesting The book does not restrict itself to such topics as Christology and ecclesiology but includes other areas like martyrdom and prayer which were highly important in shaping the mind and heart of the early church The material in this book is arranged thematically and follows a natural progression Each chapter attempts to give a real taste of the subject in question by providing numerous selections from the writings of the fathers some of them classic statements and some relatively obscure Fathers from nearly all periods and traditions are cited The author's opinions although not nonexistent are subordinate to the presentation of the fathers themselves The work was written in a nontechnical style to be read both by beginners and by people with some expertise in the field It concludes with suggestions for a patristics reading program for those who wish to pursue a study of the fathers in more depth
