Prasad,Krishna Kant Singh,Neelam Ruhil,Karan Singh,Richard O'Kennedy,2017-02-15 This book is a collection of accepted papers that were presented at the International Conference on Communication and Computing Systems ICCCS 2016 Dronacharya College of Engineering Gurgaon September 9 11 2016 The purpose of the conference was to provide a platform for interaction between scientists from industry academia and other areas of society to discuss the current advancements in the field of communication and computing systems The papers submitted to the proceedings were peer reviewed by 2 3 expert referees This volume contains 5 main subject areas 1 Signal and Image Processing 2 Communication Computer Networks 3 Soft Computing Intelligent System Machine Vision and Artificial Neural Network 4 VLSI Embedded System 5 Software Engineering and Emerging Technologies **Data Science for Decision Makers** Erik Herman,2024-12-31 Data Science for Decision Makers is an essential guide for executives managers entrepreneurs and anyone seeking to harness the power of data to drive business success In today s fast paced and increasingly digital world the ability to make informed decisions based on data driven insights is vital This book serves as a bridge between the complex world of data science and the strategic decision making process providing readers with the knowledge and tools they need to leverage data effectively With a clear focus on practical application this book demystifies key concepts in data science from data collection and analysis to predictive modeling and visualization Via real world examples case studies and actionable insights readers will learn how to extract insights from data and translate them into actionable strategies that drive organizational growth Written in a reader friendly manner this book caters to both novice and experienced professionals alike Whether you re a seasoned executive looking to sharpen your strategic acumen or a manager seeking to enhance your team s data literacy this essential reference provides the necessary foundation to navigate the complex landscape of data science with confidence Wall Street Computer Review ,1985-11 **Bulletin of the Atomic Scientists** ,1955-04 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world **Cultures of Expertise in Global Currency Markets** Leon Wansleben,2013-07-18 Notwithstanding financial crises global foreign exchange markets have undergone a tremendous growth during the last two decades Foreign exchange FX is often thought of as a site where economic actors exchange currencies for buying foreign goods or selling goods in foreign countries but the FX markets are better understood as financial spheres dominated by speculative actors A key question is how this huge global speculative sphere has developed and what maintains it Thus far global currency markets have been largely neglected by the new approaches to finance and until now no study has existed to chart the interplay of their structural evolution and their shape

as knowledge spheres This new book offers a systematic study of FX markets from a knowledge sociological perspective empirically focussing on analysts within these markets It makes the argument that market structures are reflected in and become stabilised by distinct cultures of financial expertise These cultures connect the actions and perceptions of loosely coupled globally distributed market players and establish shared sets of strategies of how to observe value and invest This highly original book will be of interest to scholars of economics sociology and political science and in particular to all those with an interest in the sociology of finance and the role of finance in the contemporary world *KES'2000: Fourth International Conference on Knowledge-Based Intelligent Information Engineering Systems & Allied Technologies* R. J.
