Patterns Of Irony In The Fables Of La Fontaine:

Patterns of Irony in the Fables of La Fontaine Richard Danner, 1985 **Cognitive Space and Patterns of Deceit in La Fontaine's Contes** Catherine M. Grisé, 1998 Refiguring La Fontaine Anne Lynn Birberick, 1996 Reprint of an internationally praised collection of essays by a team of cutting edge La Fontaine scholars The Complete Fables of Jean de La Fontaine Jean La Fontaine, 2010-10-01 Inspired new translations of the work of one of the world's greatest fabulists Told in an elegant style Jean de la Fontaine's 1621-95 charming animal fables depict sly foxes and scheming cats vain birds and greedy wolves all of which subtly express his penetrating insights into French society and the beasts found in all of us Norman R Shapiro has been translating La Fontaine's fables for over twenty years capturing the original work's lively mix of plain and archaic language This newly complete translation is destined to set the English standard for this work Awarded the Lewis Galantière Prize by the American Translators Association 2008 **The Fables of La Fontaine** Andrew Calder, 2001 Tel Socrate La Fontaine a invité ses lecteurs participer son observation de l'humanité et porter un regard détaché et lucide sur celle-ci *Fifty More Fables of La Fontaine* Jean de La Fontaine, 1998 These wonderfully wrought moral tales will as easily charm children with bright and basic truths as they will delight adults drawn to their reflectively subtle sophisticated facets of wit and wisdom **The Craft of LaFontaine** Maya Slater, 2001-01-01 This study provides a detailed account of the Fables including humour the representation of animals the literary qualities and the moralistic core Maya Slater brings to light veiled satirical attacks allusion to forgotten works and literature and traces the obscure currents of thought all this in the service of explicating the fable element **Historical Boundaries, Narrative Forms** Everett Zimmerman, 2007 This collection of twelve essays by colleagues students and friends of Everett Zimmerman treats four topics that Zimmerman explored during his career the representation of the self in narratives the early British novel and related forms their epistemological and generic borders and their intellectual and cultural contexts The collection is divided into two sections Boundaries and Forms The essays in Boundaries explore how epistemological and narrative distinctions between history and fiction meet or overlap in the novel's relationship to other forms including providential history travel narratives utopias autobiography and visual art In Forms the contributors investigate fictional historical and material forms the impact those cultural phenomena had on the meaning and value attributed to literary works and how such forms arose in response to historical conditions The essays describe the historical range of Zimmerman's work beginning with Defoe and ending with Coetzee and treat such key writers of the long eighteenth century as Fielding Richardson Walpole Austen and Scott Bakewell Robert Mayer is Professor of English and Director of the Screen Studies Program at Oklahoma State University Fifty Fables of La Fontaine Jean de La Fontaine, 1997 Presents fifty verse fables by seventeenth century poet Jean de La Fontaine in side by side French and English *The Ladder of High Designs* Doranne Fenoaltea, David Lee Rubin, 1991 This collection of essays on the structure and interpretation of the French lyric sequence marks a number of tentative signposts for

future travelers along this relatively unmarked path. It explores the means of seeing how harmony and greater meaning concordia discors arises from the organization of a collection of poems into a poetic work. **Figures of the Text** Michael Vincent, 1992-01-01. The works of Jean de La Fontaine have invited an extraordinary variety of readings in the three centuries since their composition. By engaging selected fables and tales with contemporary notions of intertextuality, reader reception theory, and grammatology, *Figures of the Text* raises questions about what reading La Fontaine meant in the 17th century and what it means today. The study integrates a theory of reading and a theory of textual production by drawing attention to those aspects of the text that figure writing and reading: for instance, scenes of reading, other modes of writing, emblems, hieroglyphics, inscriptions, and epitaphs, proper names, and citation, proverbs, maxims, allusions, the relation of represented orality to textuality, of textuality to corporeality, and of textuality to the visual arts, ekphrasis, and the archaeology of textual figures such as labyrinths, textiles, and veils. **Irony and Satire in French Literature** Philippe Desan, 2024-10-07. In La Fontaine's Labyrinth Randolph Runyon, 2000. Runyon demonstrates the intimate connectedness between each fable and the next, as well as the sequential unity of each of La Fontaine's masterpieces. *Poetry*. Fables in Frames Kirsten Powell, 1997. *Fables in Frames* argues that the increased interest in the fables of La Fontaine during the nineteenth century resulted largely from the activities of artists who offered the seventeenth-century fables new contexts for a post-Revolution age. First in caricature and book illustration, and later in Salon painting, artists transformed the fables to comment on contemporary issues. The goal of this study is to tackle the general issue of why La Fontaine's fables appeared in art at all during the nineteenth century and to explore the specific questions of how certain artists made those texts culturally normative.

Selected Fables Jean de La Fontaine, 2014-03. La Fontaine's witty and sophisticated animal fables are among the greatest poetic works in French. Christopher Betts's new translations match the inventiveness of the original. This generous selection, including half of the originals, is accompanied by superb illustrations by Gustave Doré, a contextualizing introduction, and other features. **Reading Undercover** Anne L. Birberick, 1998-12. This study examines author-audience relations in the works of the seventeenth-century French poet Jean de La Fontaine. Focusing on the *Fables*, *Les Amours de Psyche et de Cupidon*, and the *Contes*, Anne L. Birberick explores how La Fontaine remains a largely subversive artist even while he seeks to establish himself within a conventional system of literary patronage. Birberick offers an anatomy of readers as she shows how La Fontaine simultaneously appeals to multiple readers whose tastes range from the literal to the ironic, from the orthodox to the heterodox. To negotiate successfully between and among such diverse audiences, the poet employs techniques of concealment and disclosure to foster an anticanonical public. *Sun King* David Lee Rubin, 1992. This work is a selection of papers presented at the Folger Institute by an international collegium of scholars on the ascendancy of French culture during the reign of Louis XIV. Seventeenth-Century French Writers Françoise Jaouën, 2003. Essays on French writers of the seventeenth century or Classical century. What best defines the literature of this period are political order and the growing

awareness of literature as a separate domain in need of rules and regulations Discusses the political turmoil during this period as well as the Reformation and the Counter Reformation encouraging research on ancient tests methods of research and the standardization of the French language **The Shape of Change** ,2021-11-01 In *The Shape of Change* Anne L Birberick and Russell Ganim bring together essays by fourteen established scholars who dedicate their studies to David Rubin as they explore the ways in which artistic endeavor shapes and is shaped by literary memory The volume is divided into two sections The first section Continuity and Discontinuity offers essays by Jody Enders Timothy Reiss Twyla Meding Marie Odile Sweetser Robert Corum Jr and the editors themselves and considers the ways in which seventeenth century authors draw upon generic conventions or diverse artistic media to create works that reflect the aesthetic and moral values of their time The second section entitled *La Fontaine* focuses primarily on Jean de La Fontaine s masterpiece *Les Fables* Here the problem of imitation and innovation as it relates to genre influence and literary reputation is examined in essays by Jules Brody Richard Danner Judd Hubert Catherine Gris Michael Vincent Nicholas Cronk and Ralph Albanese Jr *The Shape of Change* serves as a fine scholarly contribution to the studies of French seventeenth century literature and *La Fontaine* The essays are thoughtful as well as thought provoking and the volume s critical diversity is nicely balanced by its thematic coherence In its ability to stimulate new thinking this collection of essays will be of interest to both students and scholars of early modern France **Once Again, La Fontaine** Jean de La Fontaine,2000 New translations of classic French fables
