United States. Congress. Senate. Committee on Banking, Housing, and Urban Affairs. Subcommittee on Housing and Urban Affairs,1979 Racial and Ethnic Economic Inequality Samuel L. Myers,2006 In a world where racial tensions and racial and ethnic inequality seem to be increasing it is instructive to look back over the decade of the 1990s to examine what academic researchers have had to say about the global nature of race racism and racial inequality Almost every country with a multiethnic population faces these problems This collection of essays provides an eclectic but accessible mix of readings on perspectives from such countries as Australia Russia France Chile West Africa India and the United States Emphasis is placed on positive strategies to help reduce or eliminate economic inequality The implications for the demise of affirmative action programs are also discussed Pre dating the United Nation s World Conference on Racism the readings anticipate many of the recommendations and insights that have now come to be the core of international strategies This collection will prove valuable to all those concerned with ending racism and achieving racial and ethnic economic equality *Inequality: Economic and Social Issues* Mats Lundahl,Daniel Rauhut,Neelambar Hatti,2024-07-18 Inequalities of opportunity affect a person s life expectancy and access to basic services and human rights through discrimination abuse and lack of access to justice High levels of inequality of opportunity discourage skill accumulation choke economic and social mobility and consequently depress economic growth Inequality also entrenches uncertainty vulnerability and insecurity undermines trust in institutions and government increases social discord and tensions and triggers violence and conflicts This book presents wide ranging perspectives on economic inequality as measured by differences in incomes and wealth The contributors to the book explore how the economy is shaped in such a way as to generate differences in economic and social welfare between individuals regions and nations But the book is not limited to economic perspectives inequality is a many faceted phenomenon that manifests itself in a number of ways Thus the book begins with a section which highlights some of the standard features of inequality class gender and age The second section explores the manifestation of inequality in terms of differences in income and wealth The third section looks at some of the causes of inequality exploring the effects of discrimination and plunder by those in power The final section serves to drive home the point that geographic and institutional factors have an important place as well when it comes to shedding light on what equality is how it manifests itself and what its consequences are This book will be essential reading for anyone interested in the causes and consequences of economic inequality including those in economics sociology politics and geography **California. GLOBAL SECURITY AND INTERNATIONAL POLITICAL ECONOMY - Volume II P. Bilgin, P. D. Williams, M. Sekiguchi, J. K. Galbraith, S. T. Inayatullah, J. Wiener, R. A. Schrire, I. L. Murphy, 2010-09-19 Global Security and International Political Economy is a component of Encyclopedia of Social Sciences and Humanities in the global Encyclopedia of Life Support Systems EOLSS which is an integrated compendium of twenty one Encyclopedias This 6 volume set contains several chapters each of size 5000 30000 words with perspectives issues of great relevance to our world such as Global Security Global Security and the International System The Regional Dimension of Global Security The National Dimension Of Global Security The Societal Dimension Of Global Security The Human Security Agenda In World Politics History Of Empires And Conflicts The Myth Of The Clash Of Civilizations In Dialogical Historical Context Causes And Prevention Of Armed Conflict International Development Policies And Global Security Environment And Global Security Political Economy Of International Security Political Issues In Human Resource Development Globalization And The Consumer Society These volumes are aimed at the following five major target audiences University and College students Educators Professional practitioners Research personnel and Policy analysts managers and **Inequality and Growth: Patterns and Policy** Joseph E. Stiglitz, 2016-11-16 It was a part of the wisdom of mainstream economics that in the early stages of development inequality would rise but as growth persisted it would eventually decline Early evidence seemed to suggest that this pattern would be borne out But as time passed and growth persisted inequality continued to grow casting doubt on the received wisdom The aim of this two volume book is to analyze the current state of global and regional inequality dissect the phenomenal increase in inequality that we have seen occur in recent times and better understand the complex relationship between inequality and development The political instability and conflict that we see around the world arguably has connection to economic deprivation of large segments of society and the perception of marginalization This two volume work acquires a special significance in the light of these developments **Building a Black Criminology, Volume 24** James D. Unnever, Shaun L. Gabbidon, Cecilia Chouhy, 2018-10-26 In light of the Black Lives Matter movement and protests in many cities race plays an ever more salient role in crime and justice Within theoretical criminology however race has oddly remained on the periphery It is often introduced as a control variable in tests of theories and is rarely incorporated as a central construct in mainstream paradigms e g control social learning and strain theories When race is discussed the standard approach is to embrace the racial invariance thesis which argues that any racial differences in crime are due to African Americans being exposed to the same criminogenic risk factors as are Whites just more of them An alternative perspective has emerged that seeks to identify the unique racially specific conditions that only Blacks experience Within the United States these conditions are rooted in the historical racial oppression experienced by African Americans whose

contemporary legacy includes concentrated disadvantage in segregated communities racial socialization by parents experiences with and perceptions of racial discrimination and disproportionate involvement in and unjust treatment by the criminal justice system Importantly racial invariance and race specificity are not mutually exclusive perspectives Evidence exists that Blacks and Whites commit crimes for both the same reasons invariance and for different reasons race specific A full understanding of race and crime thus must involve demarcating both the general and specific causes of crime the latter embedded in what it means to be Black in the United States This volume seeks to explore these theoretical issues in a depth and breadth that is not common under one cover Again given the salience of race and crime this volume should be of interest to a wide range of criminologists and have the potential to be used in graduate seminars and upper level undergraduate courses *Families and Housing Markets* Margaret C. Simms, 1980
