*Democracy (Made in Taiwan)* Chih-Yu Shih, 2008-01-17 Democracy Made in Taiwan argues that post colonialism and Confucianism met at the historical moment when democratization and liberalization occurred in Taiwan The familiar political science standards take little note of either Confucianism or postcolonialism In fact these standards are unbalanced wishful and Washington centric and result in a misunderstanding of Taiwan s performance The liberal bias blinds international observers to the hybrid characteristics embedded in Taiwan s postcolonial history Although this book is not about failing states per se its criticism of the standards of success alludes to the problematic nature of the mainstream view of failing states In many aspects Taiwan is a disguised failure or even a fake in the sense that its democratization adopts a populist identity strategy rather than a liberal one In addition its foreign policy compliance to hegemonic leadership is characterized by anti China determination instead of a realist approach involving the calculation of power Having said this the book does not criticize Taiwan for failing liberalism in order to prevent the liberal teleology from lingering on Instead Taiwan serves as an arena of polemics on political science in this book By rewriting domestic liberalism and external realism into meanings unknown to the hegemonic power Democracy Made in Taiwan celebrates Taiwan s postcolonial fluidity Embedded in a kind of ontological anomaly beyond the scope of mainstream political science which takes for granted the ontology informed by individualism in domestic politics and statism in international relations Taiwan s case appears subversive not because of the subversive nature of postcoloniality but due to the inability of political science s liberalism to make sense of postcoloniality Through decoupling the idea of political science from the entity known as Taiwan this book attempts to achieve two goals to re present Taiwan and to call for reflexive political science
