that allow terrorists to raise money and recruit without providing active support The experiences of Iran Pakistan Afghanistan Syria Saudi Arabia and Libya are detailed here alongside the histories of radical groups such as al Qaeda and Hizballah The book concludes by assessing why it is often difficult to force sponsors to cut ties to terrorist groups and suggesting ways in which it could be done better in the future *Combating a Modern Hydra: Al Qaeda and the Global War on Terrorism*, 2005 Combating a Modern Hydra Al Qaeda and the Global War on Terrorism is number eight in the Combat Studies Institute's Global War on Terrorism GWOT Occasional Paper series This work resulted from discussions at Fort Leavenworth about the nature of the enemy facing the United States and its allies since 11 September 2001 Osama bin Laden and his terrorist network had been present at some level in the national and international consciousness since the late 1990s The events of 11 September 2001 and subsequent global operations taken against Al Qaeda have brought this group to the forefront of the GWOT While successes have been achieved in the GWOT the enemy has proven to be resilient and adaptive This study by Mr Sean Kalic of the Department of Military History US Army Command and General Staff College examines modern transnational terrorism from the 1960s to the present day with special emphasis on the adaptation Al Qaeda and other nonstate actors have taken in response to the actions of the United States and its allies This work provides a cautionary warning about the likelihood Al Qaeda will continue to survive and execute missions in the current operating environment Mr Kalic synthesizes much of the pertinent literature and offers insights into the actions taken to fight terrorists Most importantly he advises a continual reevaluation of the threat based on Al Qaeda's exhibitory resiliency and adaptability Officers and soldiers who have recently served in operations against the terrorist worldwide will certainly see utility here As the US Army continues its efforts in combating terrorists the thoughts found in this narrative are well worth considering

A Grand Strategy for America Robert J. Art, 2013-02-15 The United States today is the most powerful nation in the world perhaps even stronger than Rome was during its heyday It is likely to remain the world's preeminent power for at least several decades to come What behavior is appropriate for such a powerful state To answer this question Robert J Art concentrates on grand strategy the deployment of military power in both peace and war to support foreign policy goals He first defines America's contemporary national interests and the specific threats they face then identifies seven grand strategies that the United States might contemplate examining each in relation to America's interests The seven are dominion forcibly trying to remake the world in America's own image global collective security attempting to keep the peace everywhere regional collective security confining peacekeeping efforts to Europe

cooperative security seeking to reduce the occurrence of war by limiting other states offensive capabilities isolationism withdrawing from all military involvement beyond U S borders containment holding the line against aggressor states and selective engagement choosing to prevent or to become involved only in those conflicts that pose a threat to the country s long term interests Art makes a strong case for selective engagement as the most desirable strategy for contemporary America It is the one that seeks to forestall dangers not simply react to them that is politically viable at home and abroad and that protects all U S interests both essential and desirable Art concludes that selective engagement is not a strategy for all times but it is the best grand strategy for these times
