You are the Messiah and I should know Justin Lewis-Anthony, 2013-04-11 Is Leadership a useful sociological tool in the increasing professionalisation of the Church's ministry and mission or a dangerous threat akin to a heresy Every human endeavour from a primary school to the government needs leadership The Church believes itself to have a clear understanding of what constitutes Christian leadership but advocates of leadership have been unable to give a clear concise and universally accepted definition of the term Justin Lewis Anthony argues that our understanding of both secular managerial and religious missional leadership has been fatally compromised by the unconscious functioning of mythic leadership presented through the medium of the dominant culture of our own day popular Hollywood film We describe our leaders as if they should be collaborative enabling saints and or expect them to show our enemies who is boss We search for the great man who will rescue us from all our problems through redemptive violence within the Church we talk about Jesus Christ but we expect John Wayne This book shows how leadership is at best a contested concept and at worst a dangerous violent and totalitarian heresy
