Paul Ramsey's Political Ethics:

Paul Ramsey's Political Ethics David T. E. Attwood, 1992 this is a good book that will well serve both students who are new to Ramsey and those who might not be better acquainted with his work *THE JOURNAL OF RELIGION* A *Christian Perspective on Political Thought* Stephen Charles Mott, 1993 The author seeks to advance the role of biblical and theological values in the political lives of individual Christians and the public discourse of American society He argues that Americans want to make choices in terms of standards of right and wrong but tend to lack the formulation of a theory Christians in Active Politics Yokoniah Mvula, 2022-09-16 Some Christians may be uncomfortable to think of Jesus as being political since the word politics or political has evolved to have negative overtones and connotations in our world today particularly in Africa where this monograph from the Department of Theology and Religious Studies of the University of Malawi has originated Christians often argue that their commission or job description does not include the political process which is the way a society conducts its public affairs However Jesus beginning with his temptation as in the gospels of Matthew and Luke showed the people who would follow him what it means to do God's will The third temptation conceived of in this study as a political temptation for power is the rationale behind the arguments made in this study which begins by positing that the message of Jesus was not politically neutral and therefore Christianity as a super culture must be active in all sectors affecting social concerns if it is to truly be the change agent who Christ believes it to be It goes on to define and describe what it means to say that the message of Jesus was political and lays out the biblical theological ethical and experiential rationale for Christians active participation in the secular political arena **Ethics and Law for Chemical, Biological, Radiological, Nuclear & Explosive Crises** Dónal P. O'Mathúna, Iñigo de Miguel Beriain, 2019-04-25 This book provides a current analysis of the legal and ethical challenges in preparing for and responding to chemical biological radiological nuclear and explosive CBRNE crises From past events like the Chernobyl nuclear incident in Russia or the Bhopal chemical calamity in India to the more recent tsunami and nuclear accident in Japan or the Ebola crisis in Africa and with the on going threat of bioterrorism the need to be ready to respond to CBRNE crises is uncontroversial What is controversial is whether we are on a path that adequately prepares us for the next event The ethical and legal scholars in this volume hold that much work remains to be done and offer this book to stimulate further reflection and dialogue around CBRNE crises This is an indispensable book for both students and scholars of bioethics international law public health as well as for regulators and administrators developing policy and legislation related to public health planning and emergency responses **The Ethics of War** Richard Sorabji, David Rodin, 2020-09-10 9 11 and the subsequent invasions of Afghanistan and Iraq have left many people baffled and concerned This interdisciplinary study of the ethics of war provides an excellent orientation not only to present but also to future conflicts It looks both back at historical traditions of ethical thought and forward to contemporary and emerging issues The Ethics of War traces how different cultures involved in present conflicts have addressed similar

problems over the centuries Distinguished authors reflect how the Graeco Roman world Byzantium the Christian just war tradition Islam Judaism Hinduism and the Geneva Conventions have addressed recurrent ethical problems of war Cutting edge essays by prominent modern theorists address vital contemporary issues including asymmetric war preventive war human rights and humanitarian intervention Distinguished academics ethical leaders and public policy figures have collaborated in this innovative and accessible guide to ethical issues in war

Reinhold Niebuhr Paul Merkley, 1975 This book examines Niebuhr's early career as a preacher in the movement known as Social Gospel his middle years as a writer and political activist in the context of American liberalism and socialism and his mature career as an oracle of the Vital Center against the background of the Cold War's effects on the American liberal consensus It concludes with an essay on Niebuhr's philosophy of history which it is argued contains those elements of his thought which will survive the inevitable lessening of his reputation as a political commentator and which will secure his distinction as one of America's few original philosophers Publisher

The Care of Life Miguel de Beistegui, Giuseppe Bianco, Marjorie Gracieuse, 2014-12-22 This interdisciplinary collection of essays demonstrates how the ethical and political problems we are confronted with today have come to focus largely on life The contributors to this volume define and assess the specific meaning of life itself It is only by doing so that we can understand why life has become an all encompassing problem why all questions especially ethical and political have become vital questions We have reached a moment in history where every distinction and opposition is no longer in relation to life but within it and where life is at once a theoretical and practical problem This book throws light on this nexus of problems at the heart of contemporary debates in bioethics and biopolitics It helps us understand why and how life is understood valued cared for and framed today Taking a genuinely transdisciplinary approach these essays demonstrate how life is a multifaceted problem and how diverse the origins foundations and also consequences of bioethics and biopolitics therefore are

The Political Economy of Media and Power Jeffery Klaehn, 2010 The Political Economy of Media and Power is a highly interdisciplinary and innovative edited collection bringing together a diverse range of chapters that address some of the most important issues of our times Contributors cut through media spectacle and make visible the intersections between mass media and the politics of power in the contemporary social world The book is intended to foster critical pedagogy chapters explore ways in which media connect with a broad range of topics and issues including globalization war and terrorism foreign affairs democracy governmental relations the cultural politics of militarization gender inequality and the sexist saturation of the public sphere media representations of women media spin and public relations within the broader context of corporate and ideological power The volume features notable contributors including a preface by Cees Hamelink an introduction by David Miller and William Dinan and chapters from Justin Lewis Robin Andersen Henry Giroux James Winter Robert Jensen Stuart Allan Richard Keeble Yasmin Jiwani David Berry Gerald Sussman and Andrew Mullen More Than Just War Charles A. Jones, 2013 This book raises questions about the just war tradition through a critical examination of its revival and by juxtaposing it with a literary phenomenology of war Recent public debate about war has leaned heavily on a just war tradition dating back many centuries This book examines the recent revival of that tradition in the United States and Britain arguing that it is less coherent and comprehensive as an approach to the ethical issues arising from war than is

generally supposed and that it is inconsistent in important ways with the theology on which it was originally based A second line of criticism is mounted through close readings of modern texts in English from Britain Australia and the USA that together constitute a more subjective bottom up understanding of the moral dilemmas of military life In this second tradition the task of representing war is seen as more problematic and its rationality more questionable than in just war discourse Works by William Shakespeare Sir Walter Scott James Fennimore Cooper Stephen Crane John Buchan Robert Louis Stevenson Joseph Conrad Tim O'Brien and Kurt Vonnegut are featured The book will be of great interest to students and scholars of security studies military studies theology and international relations *A Radical Political Theology for the Anthropocene Era* Ryan LaMothe, 2021-11-18 Given the fierce urgency of now this important book confronts and addresses key problems and questions of political theology with the aim of proposing a radical political theology for the Anthropocene Age LaMothe invites readers to think and be otherwise in living lives in common with all other human beings and other than human beings that dwell on this one earth **Evangelicals and Abortion** J. Cameron Fraser, 2024-04-18 Evangelicals and Abortion traces the history and theological development of evangelical involvement in the abortion issue and recommends some models of a biblically based response with particular attention to the United States in the wake of the reversal of Roe v Wade in 2022 Rocky Mountain Review ,1963
