

PAUL TILlich (1886-1965)

Apologetic, Existential, Theologian

Paul Tillich was born in Prussia in 1886, ordained a minister in the Lutheran Church in 1912, and served as a chaplain in the German Army during WWI.

He then taught philosophy and theology at the universities of Marburg, Dresden, Leipzig, and Frankfurt. As leader of the Religious Socialist movement, his activities brought him into conflict with the Nazis, who dismissed him from his professorship in 1933, shortly after Hitler assumed power. In 1955, Tillich became a University Professor at Harvard, and

in 1962, the John Nuveen Professor of Theology at the Divinity School of the University of Chicago.

Modern Theology Ernest John Tinsley, 1973 *Paul Tillich 1886-1965* Paul Tillich, 1973 **Continental Philosophy and Modern Theology** David Brown, 2012-01-18 **Tillich** J. Heywood Thomas, 2000-12-13 Paul Tillich 1886 1965 was a remarkable theologian who was as much at home in a philosophical discussion as he was in the pulpit and as keenly interested in art and politics as in his life work as a professional theologian Tillich's attacks on Nazism led to the banning of his books his dismissal from Frankfurt University and ultimately his departure for the United States in November 1933 His many points of contact with key thinkers in theology and philosophy including Heidegger Otto Bultmann Adorno and Barth make him a compelling figure for those interested in the history of ideas in the Twentieth Century J Heywood Thomas critically reviews the philosophical background to Tillich's theology including his debts to Schelling Kant and Husserl He surveys Tillich's achievement as a philosophical theologian examining his ontological approach to Christology and salvation and his understanding of the church as a spiritual community Thomas concludes with an exploration of Tillich's contribution to the changed situation of theology today *The Blackwell Companion to Modern Theology* Gareth Jones, 2008-04-15 In this major reference work a team of the world's leading theologians provides a powerful overview of modern theology Covers theology's relation to other disciplines the history of theology major themes key figures and contemporary issues Can be used as the basis for an introductory course or as an essential reference source **Theologians Under Hitler** Robert P. Ericksen, 1985-01-01 What led so many German Protestant theologians to welcome the Nazi regime and its policies of racism and anti-Semitism In this provocative book Robert P Ericksen examines the work and attitudes of three distinguished scholarly and influential theologians who greeted the rise of Hitler with enthusiasm and support In so doing he shows how National Socialism could appeal to well meaning and intelligent people in Germany and why the German university and church were so silent about the excesses and evil that confronted them This book is stimulating and thought provoking The issues it raises range well beyond the confines of the case studies of the three theologians examined and have relevance outside the particular context of Hitler's Germany That the book compels the reader to rethink some important questions about the susceptibility of intelligent human beings to as distasteful a phenomenon as fascism is an important achievement Ian Kershaw History Today Ericksen's study throws light on the kinds of perversion to which Christian beliefs and attitudes are easily susceptible and is therefore timely and useful Gordon D Kaufman Los Angeles Times An understanding and carefully documented study Ernst C Helmreich American Historical Review This dark book poses a number of social economic and cultural questions that one has to answer before condemning Kittel Althaus and Hirsch William Griffin Publishers Weekly A highly competent well written book Tim Bradshaw Churchman **Contemporary Theology: An Introduction, Revised Edition** Kirk R. theology but provides a non eclectic theology of nature that frees Christians to be involved in science meaningfully and without undermining their faith

The Oxford Handbook of Theology and Modern European Thought Nicholas Adams, George Pattison, Graham Ward, 2013-02-28
 Modern European thought describes a wide range of philosophies cultural programmes and political arguments developed in Europe in the period following the French Revolution Throughout this period many of the wide range of modernisms and anti modernisms had a distinctly religious and even theological character not least when religion was subjected to the harshest criticism Yet for all the breadth and complexity of modern European thought and in particular its relations to theology a distinct body of themes and approaches recurred in each generation Moreover many of the issues that took intellectual shape in Europe are now global rather than narrowly European and for good or ill they form part of Europe s bequest to the world from colonialism and the economic theories behind globalisation through to democracy to terrorism This volume attempts to identify and comment on some of the most important of these The thirty chapters are grouped into six thematic parts moving from questions of identity and the self through discussions of the human condition the age of revolution the world both natural and technological and knowledge methodologies concluding with a section looking explicitly at how major theological themes have developed in modern European thought The chapters engage with major thinkers including Kant Hegel Kierkegaard Heidegger Schleiermacher Nietzsche Dostoevsky Barth Rahner Tillich Bonhoeffer Sartre de Beauvoir Wittgenstein and Derrida amongst many others Taken together these new essays provide a rich and reflective overview of the interchange between theology philosophy and critical thought in Europe over the past two hundred years

The Trinity Hans Schwarz, 2017-09-15
 In the last thirty years books on the Trinity have abounded There seems to be a fascination with this mysterious topic especially among systematic theologians The topic has been mined for many different interests from liberation theology to feminist interpretations of the Christian heritage and from neo

Reformation theology to interreligious dialogue This book has no intention of adding to the plethora of treatises on the Trinity The main question with which it is concerned is what is really scripturally tenable with regard to the Trinity and what is unwarranted theological construction or even speculation Through this question Schwarz tries to discern whether the theological assertions made about the Trinity are in line with the biblical base from which they are derived or whether they have veered off in a more or less questionable direction What takes shape here is a story how the doctrine of the Trinity developed over the subsequent centuries from the traces in Scripture to a centralized dogma at the heart of Christian teaching We witness in this an evolution from proclamation to controversy to speculation What are we to make of this doctrine How do we articulate the biblical faith today *Christian Theology* Alister E. McGrath, Matthew J. Thomas, 2024-12-04

Offers a lively concise and easily accessible approach to the development of Christianity's core themes over the centuries As Christianity enters into a new phase of expansion the study of Christian theology continues to play a key role in modern intellectual culture as well as to those wanting to understand the central issues and preoccupations of the Middle Ages the European Reformation or many other periods in human history Since its initial publication more than 30 years ago *Christian Theology An Introduction* has established itself as one of the most respected and widely used theological textbooks Now in its seventh edition this classic textbook remains an unparalleled introduction to the primary concepts themes and developments of 2 000 years of Christian thought Designed for students with no prior knowledge of the subject *Christian Theology* provides an overview of historical theology explains central aspects of philosophical theology describes major debates over Christian theological method and explores key doctrines of systematic theology Theologically neutral chapters offer balanced coverage of Catholic Orthodox Protestant and evangelical traditions positions perspectives and insights In this new edition renowned theologian Alister E McGrath is joined by educationalist Matthew J Thomas to ensure that *Christian Theology* connects with a range of contemporary teaching contexts Reviewed and improved content is supported by an entirely new series of fifteen lectures on Christian theology written and presented by Professor McGrath *Christian Theology An Introduction Seventh Edition* remains the ideal textbook for university courses in Christian theology seminary courses across denominations church discussion groups adult Sunday schools and those looking for a reliable guide to the study of Christian thought **Walking Away from Faith** Ruth Tucker, 2002

Why do some people lose their faith Why do some choose to abandon religious beliefs that were once meaningful to them And what happens when they do In this no holds barred book Ruth Tucker tackles the tough questions about losing faith Providing historical perspective she looks at the stories of prominent Christians like Chuck Templeton and Billy Graham who have struggled with faith She grapples with difficult philosophical and theological issues exploring the intractable questions that bring people to the point of losing faith suffering science answer to prayer hypocrisy in the church and more Throughout the book she explores the testimonies of some who have made the choice to walk away and some who have returned Tucker writes not just as a detached observer but

as one who has also struggled with doubt and disappointment In *Walking Away from Faith* she shares her from her experience and tells you why she continues to choose faith Reading her story and her interviews of others you will find help for working through your own questions and doubts You will also find insight for ministering to your friends family coworkers and neighbors who stumble between belief and unbelief Understanding the Sacred Murray Milner Jr.,2019-04-04 In the United States and Europe membership and participation in Christian churches have steadily declined When asked for their religious preference increasing numbers say none This is especially the case for younger adults and the well educated A key reason is that many find the prayers creeds and liturgy and the theology that underlie these to be incomprehensible or unbelievable But theology need not be unbelievable and doctrine need not be doctrinaire This book provides a new approach to theology by drawing on sociological concepts that most people will find familiar for example role social relationship pluralism hierarchy and status At the core of this theology is the concept of sacredness What is especially new is to see sacredness as the ultimate form of status that which is most praised and valued Since virtually everyone is familiar with a variety of status systems at work in schools while shopping in church this approach makes theology more understandable and meaningful Yet we should not abandon the accomplishments of the spiritual and intellectual past Hence such classical doctrines as sin the Trinity revelation atonement salvation and grace the nature of the church and worship are reinterpreted so that they are credible and meaningful to contemporary people Any moderately educated person will find this book accessible It is deliberately a brief book that will inform and stimulate laity be helpful to clergy and challenge scholars

The Angel in Annunciation and Synchronicity Tammy L. Montgomery,2013-02-21 Fear grips those who doubt that their existence has meaning and the prevailing notion that humans are situated on a dot in the middle of a dark cold universe leaves people shivering in cosmic insignificance Many would argue that science and technology have separated individuals from God while others would say that people have lost their faith and some would assert that God is dead Many simply do not know what to believe Today s self help industry is a testament to the search for meaning in an age of uncertainty and faltering religious structures The truth is that technology and science now answer many of the questions that used to be left to God This development has confounded people s ability to integrate what is known today with what was once thought The disparity between past and present beliefs may be observed in the concept of the angel There are many who claim that any lingering belief in angels is merely the residue of imaginary or wishful thinking and there are others who hold that angels wings halos and harps literally exist How is one to reconcile such contradictory beliefs C G Jung s theory of synchronicity meaningful coincidence provides a vehicle for the exploration and possible reconciliation of such questions Rather than echoing the skeptic who says angels cannot exist or the religious enthusiast who affirms their immanence one might reframe the entire discussion Like the biblical concept of annunciation in which an angel delivers a heavenly message to an earthly individual synchronicity defines the moment at which the eternal touches the temporal Sacred Paths of the West

Theodore M Ludwig, 2015-08-07 This text combines study of the dynamic historical development of each religious tradition with a comparative thematic structure. Students are encouraged to discover and explore the nature of religious experience by comparing basic themes and issues common to all religions, finding connections with their own personal experiences. By sensitively introducing descriptive material within a comparative thematic structure, this text helps students to understand how each religion provides for its adherents patterns and meanings that make up a full way of life. *What are They Saying about Augustine?* Joseph T. Kelley, 2014 This book presents an overview of the best of contemporary scholarship on the fourth and fifth century bishop Augustine of Hippo. His life, his sermons and letters, doctrinal writings and pastoral work as well as his own faith and spirituality are reviewed in light of new research. This Father of the Church emerges as a dynamic thinker struggling to integrate his Christian faith with the demands of reason and to discern Christian meaning amidst the political and social controversies that plagued the late Roman world. The circumstances of his life and the dynamism of his faith are more relevant to the contemporary Christian than one might suspect. The early and mid twentieth century saw new scholarly interest in and understanding of Augustine. His persistent influence on Christian theology especially in the West was evident mid century at the Second Vatican Council; his thought is cited liberally in Council documents. Since the Council there has been an explosion in Augustine studies marked largely by the shift from doctrinal to historical approaches and methodologies. New appreciations of Augustine's pastoral role have arisen from careful study of his sermons and letters, several of which have been rediscovered in the past several decades. Controversy about Augustine's teachings on original sin, human sexuality and the relationship of church and state continue. However, contemporary Augustinian scholarship invites a reconsideration of long standing presumptions about Augustine among both those who defend him as well as those who revile him. **A**
