Palmer, 1984 No detailed description available for Paul Tillich's Philosophy of Art *Paul Tillich and Pentecostal Theology* Nimi Wariboko, Amos Yong, 2015-11-17 Paul Tillich 1886-1965 is widely regarded as one of the most influential theologians of the 20th century. By bringing his thought together with the theology and practices of an important contemporary Christian movement, Pentecostalism, this volume provokes active, productive critical and creative dialogue with a broad range of theological topics. These essays stimulate robust conversation, engage on common ground regarding the work of the Holy Spirit, and offer significant insights into the universal concerns of Christian theology and Paul Tillich and his legacy. [The Political Theology of Paul Tillich](#) Rachel Sophia Baard, 2024-01-16 The Political Theology of Paul Tillich explores the political theology of one of the foremost thinkers of the 20th century. Paul Tillich, whose life and scholarship were decisively shaped by his experiences during World War I, his resistance to the rising scourge of Nazism in Germany, and his subsequent immigration to the United States, Tillich's discerning analysis of fascism grounded in his socialist commitments and his continuing efforts to write theology in correlation with culture make his voice a crucial one for contemporary political theology. The contributors to this volume represent different generations, social and cultural locations, and nationalities. Together they explore Tillich's early work on religious socialism and its lingering presence in his later systematic theology; bring him into dialogue with liberation theologies; apply his thought to contemporary political concerns; and show the significance of his method of correlation for theological scholarship that engages culture, thereby presenting a case for the continued relevance of Tillich for political theology. **Creativity as Sacrifice** James M. Watkins, 2015-01-01 Theological interest in art is at a premium. However, theological engagement with art is often enacted without a clear sense of method. This text argues for a theological methodology in engaging the arts, and specifically, the author puts forward a theological model for understanding human creativity in the light of Jesus' sacrificial redemption. In dialogue with theology, philosophy, psychology, and art theory, the author establishes the relevance and applicability of an incarnational and sacrificial model of human creativity. Theological models also do more than provide a conceptual framework for theological inquiries; they engage the imagination. A theological model for human creativity is like an invitation to join in the creative vision God has for the world and to embody this vision in one's own creative work. Therefore, Creativity as Sacrifice does not merely articulate a conceptual framework for human creativity; it also casts a vision for human life as a creative response to the gracious gifts of a creative God. **God's Creative Gift—Unleashing the Artist in You** Jody Thomae, 2013-02-27 God's Creative Gift is an in-depth study for the creative Christian. It is intended for both professional and lay artists, for the casual crafter and hobbyist, and for those in both

sacred and secular settings It is for those who see things where others do not and for those whose imaginations cannot be confined by religious dogma and tradition It is for musicians singers painters sculptors dancers dramatists writers poets carvers weavers film editors photographers filmmakers architects designers anyone who finds inspiration in creativity Focusing on the creative spirit within it is designed to help you draw your inspiration from a Deeper Source It is deeply rooted in Scripture for the creative Christian must enter into the Word of God on a regular basis in order to know the choreographer of her steps the crafter of her designs the author and perfecter of her faith and the sculptor of her creative heart soul mind and body And to know Him intimately

Art and the Experience of the Divine Anne Searle Bent, Ian S. Markham, 2024-11-21 How do people find faith For centuries the focus of the church has been on providing arguments that might persuade a person rationally that faith is plausible This book invites people to find faith through experience By taking a great work of art the reader is invited to meditate and pray through that art to God Faith is primarily an experience of the heart not an argument that appeals to the head The book opens with a framing case for the centrality of the visual arts as a vehicle to experience the divine Engaging with the literature a distinctive case is made for a spiritual theory of art according to which art makes spiritual reality present to the seeker Then there are twenty two devotional reflections on art that show how properly reading a painting or a drawing can open up fresh ways of thinking about the divine that are compelling and powerful Thus we are guided towards seeing truly great art as a focus for prayer and meditation

Avantgarde Art and Radical Material Theology Petra Carlsson Redell, 2020-10-04 Theological thought has long been focused on the meaning to be found in our existence but it has tended to neglect what it might offer to those seeking how to prolong and improve our physical existence in this world In conversation with twentieth century materialist art and thought this book presents a radical theology that engages directly with the political and ecological issues of our time The book introduces a new thinker to the theological sphere Russian avantgarde artist Liubov Popova 1889 1924 She was a woman acknowledged for her artistic and intellectual talent and yet is never discussed in relation to the twentieth century thinkers with whom her ideas have obvious connections Popova s art and thought are discussed together with thinkers like Walter Benjamin Donna Haraway Gilles Deleuze and Paul Tillich along with ecotheological and theopolitical perspectives Inspired by the activist creativity of avantgarde art the book s final chapter playfully yet with deadly seriousness presents a manifesto for radical theology today This is a work of theological activism that demonstrates the benefit of allowing new voices into the conversations around art spirituality and our planet As such it will be of keen interest to academics in Theology Religion and the Arts and the Philosophy of Religion

The Principle of Excellence Nimi Wariboko, 2009-01-01 This book is a bold attempt to reconceptualize excellence It is no longer the virtue of doing something well or the mean of two extremes but a clearing which allows humans to manifest their potentialities and creatively resist obstacles The concept of excellence is emancipated from the excessive concern with order and good citizenry to become a liberatory principle for interrogating all

social institutions in the name of a better future Hans Urs von Balthasar and the Phenomenology of Art Brett David Potter, 2022-09-23 The work of the influential Jesuit theologian Hans Urs von Balthasar 1905 1988 has become a common point of reference in discussing the relationship of theology and the arts However the full significance of his theological aesthetics for both the emerging field of theology and the arts as well as for interdisciplinary conversation with contemporary art and theory remains to be unfolded This book explores the ways in which Balthasar's theo aesthetics when taken together with his theological dramatics and theo logic yield a theologically informed phenomenology of the work of art with rich implications for contemporary theologies of art By investigating the nature and disclosure of beauty and being through art Balthasar's theological re-reading of Heidegger his theo dramatic relation of all forms to Christ and his phenomenology of truth Balthasar's philosophical and theological insights into the nature of art are presented as a resource for a constructive theology of art which springs from the depths of his theological aesthetics **Concerning Creativity** John H. Berthrong, 1998-10-01 A cross cultural comparison of creativity that introduces Neo Confucian discourse as a sophisticated dialogue partner with modern western speculative philosophy and theology *Fundamental Theology* Matthew L. Becker, 2024-01-25 Encyclopedic in scope this book offers wide ranging coverage of the foundational teachings and practices within the mainstream of the classical Christian tradition It begins with their roots in the Scriptures and also branches out into Eastern and Western Christianity ancient medieval and modern to the present day Part I provides an overview of some of these routes then presents an historical survey of Christianity's major traditions Part II unpacks some of the character of that revelation focusing particularly on epistemological and procedural questions Finally Part III looks at Christian theology in a university setting the possibility and shape of theology as a university discipline its major subfields and its relations with humanities and the sciences respectively *Fundamental Theology A Protestant Perspective* 2nd edition includes a wide range of pedagogical features each chapter begins with an outline thesis statement highlighted in bold charts and graphs relevant headings and subheadings employed throughout the book keywords provides a survey of pertinent reference literature questions for review and discussion annotated suggestions for further reading Heroes, Saints, and Ordinary Morality Andrew Michael Flescher, 2003-11-25 Most of us are content to see ourselves as ordinary people unique in ways talented in others but still among the ranks of ordinary mortals Andrew Flescher probes our contented state by asking important questions How should ordinary people respond when others need our help whether the situation is a crisis or something less Do we have a responsibility an obligation to go that extra mile to act above and beyond the call of duty Or should we leave the braver responses to those who are somehow different than we are better somehow heroes or saints Traditional approaches to ethics have suggested there is a sharp distinction between ordinary people and those called heroes and saints between duties and acts of supererogation going beyond the expected Flescher seeks to undo these standard dichotomies by looking at the lives and actions of certain historical figures Holocaust rescuers Martin Luther King Jr Dorothy Day among

others who appear to be extraordinary but were in fact ordinary people Heroes Saints and Ordinary Morality shifts the way we regard ourselves in relationship to those we admire from afar it asks us not only to admire but to emulate as well further it challenges us to actively seek the acquisition of virtue as seen in the lives of heroes and saints to learn from them a dynamic aspect of ethical behavior that goes beyond the mere avoidance of wrongdoing Andrew Flescher sets a stage where we need to think and act calling us to lead lives of self examination even if that should sometimes provoke discomfort He asks that we strive to emulate those we admire and therefore allow ourselves to grow morally and spiritually It is then that the individual develops a deeper altruistic sense of self a state that allows us to respond as the heroes of our own lives and therefore in the lives of others when times and circumstance demand that of us

The Creative Circle Michael Fitzgerald, 1989 **Returning to Tillich** Russell Re Manning, Samuel Andrew Shearn, 2017-12-04 Fifty years after his death in 1965 the essays in this collection return to Paul Tillich to investigate his theology and its legacy with a focus on contemporary British scholarship Originating in a conference held in Oxford in 2014

the book contains 16 original contributions from a mixture of junior and more established scholars most of whom have a connection to Britain The contributions are diverse but four themes emerge throughout the volume Several essays are concerning with a characterisation of Tillich s theology In dialogue with recent emphases on the radical Tillich some essays suggest a more conservative estimation of Tillich s theology rooted in the Idealist and classical Christian platonic traditions whilst in constant engagement with changing existential situations Secondly and perhaps reflecting the context of religious diversity and theories of religious pluralism in Britain many essays engage Tillich s approach to non Christian religions Thirdly some essays address the importance of existentialist philosophy for Tillich notably via an engagement with Sartre Finally a number of essays take up the diagnostic potential of Tillich s theology as a resource for engaging contemporary challenges

Social Democracy in the Making Gary Dorrien, 2019-04-23 An expansive and ambitious intellectual history of democratic socialism from one of the world s leading intellectual historians and social ethicists The fallout from twenty years of neoliberal economic globalism has sparked a surge of interest in the old idea of democratic socialism a democracy in which the people control the economy and government no group dominates any other and every citizen is free equal and included With a focus on the intertwined legacies of Christian socialism and Social Democratic politics in Britain and Germany this book traces the story of democratic socialism from its birth in the nineteenth century through the mid 1960s Examining the tenets on which the movement was founded and how it adapted to different cultural religious and economic contexts from its beginnings through the social and political traumas of the twentieth century Gary Dorrien reminds us that Christian socialism paved the way for all liberation theologies that make the struggles of oppressed peoples the subject of redemption He argues for a decentralized economic democracy and anti imperial internationalism
