Hollywood and the End of the Cold War Bryn Upton, 2014-08-26 From the late 1940s until the early 1990s the Cold War was perhaps the most critical and defining aspect of American culture influencing television music and movies among other forms of popular entertainment Films in particular were at the center of the battle for the hearts and minds of the American public Throughout this period the Cold War influenced what movies got produced how such movies were made and how audiences understood the films they watched In the post Cold War era some genres of film suffered from the shift in our national narratives while others were quickly reimagined for an audience with different political and social fears In Hollywood and the End of the Cold War Signs of Cinematic Change Bryn Upton compares films from the late Cold War era with movies of similar themes from the post Cold War era In this volume Upton pays particular attention to shifts in narrative that reflect changes in American culture

attitudes and ideas In exploring how the absence of the Cold War has changed the way we understand and interpret film this volume seeks to answer several key questions such as Has the end of the Cold War altered how we tell our stories Has it changed how we perceive ourselves In what ways has our popular culture been affected by the absence of this once dominant presence With its focus on themes that are central to the concerns of many historians including civil religion social fracture and the culture wars Hollywood and the End of the Cold War will serve as a useful tool for those seeking to integrate film into the classroom as well as for film scholars exploring representations of sociopolitical change on screen **How Power Changes Hands** J. Uhr, 2011-01-27 How can we strengthen the capacity of governments and parties to manage arrivals and departures at the top Democracy requires reliable processes for the transfer of power from one generation of leaders to the next This book introduces new analytical frameworks and presents the latest empirical evidence from comparative political research **Books In Print 2004-2005** Ed Bowker Staff, Staff Bowker, Ed, 2004
