Inequalities and Conflicts in Modern and Contemporary African History Jan Záhork, 2018-11-16 The book deals with historical social economic political and international causes contexts and consequences of inequalities and conflicts in Africa In particular the book is to put conflicts and turbulences in Ethiopia in a broader African comparative perspective It also identifies and analyzes multiple causes of conflicts which cannot be studied only as a result of one variable Inequalities and conflicts have a whole set of causes stemming from historically inherited as well as global international socio economic political and other contexts which cannot be analyzed separately This book is vital for anyone who is interested in the study of African history comparative politics and conflict in Africa Emotional and Ethical Challenges for Field Research in Africa S. Thomson, A. Ansoms, J. Murison, 2012-11-13 Academic literature rarely gives an account of the ethical challenges and emotional pitfalls the researcher is confronted with before during and after being in the field Giving personal accounts the authors explore some of the challenges one can face when engaging in local level research in difficult situations *Research Methods for Law* Mike McConville, 2017-01-18 Introduces students to legalistic theoretical empirical comparative and cross

disciplinary research methods grounded in working examples New for this edition New chapter on inter and cross disciplinary research essential reading for international students and students with a non law first degree undertaking research in the areas of law criminology psychology and sociology Research ethics has been expanded to a full chapter that includes current plagiarism and imperfect disclosure Brings existing chapters up to date with the newest thinking in legal research Drawing on actual research projects Research Methods for Law discusses how legal research as process impacts on research as product The author team has a broad range of teaching and research experience in law criminal justice and socio legal studies and give examples from real life research products to illustrate the theory **Intellectual Agent, Mediator and Interlocutor**

Toyin Falola, Emmanuel M. Mbah, 2014-06-19 Encompassing the time period from the colonial era to the present day this book critically examines the changing nature of African politics and the factors that underpin such changes We argue in the volume that many of the problems that plague contemporary politics ethnicity governance conflict bad economic policies the absence of dialogue and other social issues have their roots in the fifteen years after the Second World War just prior to independence 1945 1960 Because these issues had been grossly mismanaged by the colonial enterprise those fifteen years could arguably be characterized as the incubation period for the dysfunction that has stymied African politics since independence For it was during these transitional years that African leaders learned how not to speak to each other How to introduce meaningful dialogue to address issues between and among Africans is where the transition in African politics stands today The approach used here is interdisciplinary giving the book a wider appeal to those interested in history political science peace and conflict studies international relations and many disciplines Additionally the topics covered are so important and intellectual and have been penned by an A team of African scholars that other scholars students and professionals can use the volume as a reference text Therefore college students both undergraduate and graduate college instructors researchers policy makers and the development community working to stabilize Africa will find the book to be of immense importance Furthermore this volume will serve as a guide for advocates for the development community on how to address the numerous problems affecting the continent as well as the correct approach to boosting public awareness about contemporary African issues **The Ashgate Research Companion to Political Violence** Marie Breen-Smyth, 2016-03-23

Aimed at scholars students and lay persons interested in peace and conflict studies The Ashgate Research Companion to Political Violence is a comprehensive resource to understand the principal debates on political violence a field which is becoming an increasingly important part of courses on peace and conflict Organized into seven main sections this volume deals with a wide range of issues covering the following important research areas Issues of definition and nomenclature and how contests over these relate to political violence Theoretical frameworks and methods for understanding and researching political violence Motivations and goals of those who use political violence The various forms of political violence Perspectives on countering political violence by state and non state actors Why and how political violence ends The aftermath

of political violence Contributions by leading scholars in the field provide an authoritative guide and source book on political violence for the scholar the researcher and the informed general reader **Africa and Fortress Europe** Belachew Gebrewold,2016-03-16 The number of African migrants attempting to enter Europe has increased Within Europe North African migrants are being accused of increased involvement in Islamic fundamentalism and terrorist activities after attacks on Madrid and London Such terrorist attacks have become an urgent security concern for the European Union forcing the EU to make migration a security policy This volume examines the extent to which the EU is threatened by patterns of African crisis alongside Africa s peace security and development initiatives The contributors analyze current migration flows from Africa to Europe and the challenges and prospects of a comprehensive EU strategy for Africa Intended for undergraduates graduates and lecturers the volume is ideal for courses that discuss the impact of African political developments on international politics **Conflict Transformation and Social Change in Uganda** Susanne Buckley-Zistel,2008-09-11 Drawing on the concept of hermeneutics the book argues that the successes and setbacks of conflict transformation in Teso can be understood through analyzing the impact of memory identity closure and power on social change and calls for a comprehensive effort of dealing with the past in war torn societies *UN Peace Operations and International Policing* Charles T. Hunt,2014-09-15 This book addresses the important question of how the United Nations UN should monitor and evaluate the impact of police in its peace operations UN peace operations are a vital component of international conflict management Since the end of the Cold War one of the foremost developments has been the rise of UN policing UNPOL Instances of UNPOL action have increased dramatically in number and have evolved from passive observation to participation in frontline law enforcement activities Attempts to ascertain the impact of UNPOL activities have proven inadequate This book seeks to redress this lacuna by investigating the ways in which the effects of peace operations and UNPOL in particular are monitored and evaluated Furthermore it aims to develop a framework tested through field research in Liberia for Monitoring and Evaluation M E that enables more effective impact assessment By enhancing the relationship between field level M E and organisational learning this research aims to make an important contribution to the pursuit of more professional and effective UN peace operations This book will be of much interest to students of peace operations conflict management policing security studies and IR in general **The Russia-Ukraine War from an African Perspective** Artwell Nhemachena,2023-09-30 In the Russia Ukraine war attention has been focused on the Special Military Operation This book argues that there are many other special operations in various other arenas in the world that deserve equal and urgent attention Connecting special military operations to what it calls special economic operations special cultural operations special technological operations special sexual operations and special political operations the book argues that special operations are not exclusive Also drawing on topical debates about technoscience the book critically examines invasive technologies in relation to bodily autonomy integrity and privacy and it urges scholars and thinkers to compare

these invasive technological operations to invasive special military operations The book grapples with the future of humanity in a world where the human is decentred even as the world is witnessing the proliferation of resource wars The book is relevant for scholars in anthropology sociology politics government studies international relations history media studies science and technology studies and disaster management *Invisible Asians* Kim Park Nelson, 2016-03-18 The first Korean adoptees were powerful symbols of American superiority in the Cold War as Korean adoption continued adoptees visibility as Asians faded as they became a geopolitical success story all American children in loving white families In *Invisible Asians* Kim Park Nelson analyzes the processes by which Korean American adoptees have been rendered racially invisible and how that invisibility facilitates their treatment as exceptional subjects within the context of American race relations and in government policies *Invisible Asians* draws on the life stories of more than sixty adult Korean adoptees in three locations Minnesota home to the largest concentration of Korean adoptees in the United States the Pacific Northwest where many of the first Korean adoptees were raised and Seoul home to hundreds of adult adoptees who have returned to South Korea to live and work Their experiences underpin a critical examination of research and policy making about transnational adoption from the 1950s to the present day Park Nelson connects the invisibility of Korean adoptees to the ambiguous racial positioning of Asian Americans in American culture and explores the implications of invisibility for Korean adoptees as they navigate race culture and nationality Raised in white families they are ideal racial subjects in support of the trope of colorblindness as a cure for racism in America and continue to enjoy the most privileged legal status in terms of immigration and naturalization of any immigrant group built on regulations created specifically to facilitate the transfer of foreign children to American families *Invisible Asians* offers an engaging account that makes an important contribution to our understanding of race in America and illuminates issues of power and identity in a globalized world *Methodologies in Peace Psychology* Diane Bretherton, Siew Fang Law, 2015-09-03 This volume looks at research methods through the lens of peace studies and peace values Apart from reviewing established methods from peace psychology it presents some innovative ideas for conducting research in the area of peace psychology Many of these methods are drawn from the field from activities used by active peace practitioners A critical component of this volume is its core argument that peace research should be conducted by peaceful means and should model peaceful processes Organized thematically the volume begins with a review of the established best practices in peace psychology research methodology including methods for qualitative research for quantitative research and participative action networks In doing so it also points to some of the limitations of working for peace within the tradition of a single discipline and to the need to expand psychology methodology to methodologies Therefore the second half of the volume proceeds to explore the realm of innovative relatively unorthodox research methods such as participatory and workshop methods the creative arts and sports for research purposes The use of new advances in information technology to conduct peaceful research are also discussed The concluding chapters synthesize key issues from

the previous chapters and links peace psychology with ideas and implementation of research designs and practices Finally it discusses the nature of academic knowledge and more specifically academic knowledge in peace psychology and where that fits into the mission to build a more peaceful world Overall this book aims to provide peace psychologists with an array of possibilities and best practices for approaching their research Many researchers find the experience of doing research a somewhat lonely if not isolating experience Methodologies in Peace Psychology Peace Research by Peaceful Means aims to alleviate this feeling as the use of these more innovative methods leads to a closer engagement with the community and a much more social experience of research This volume is a useful tool for both new and experienced researchers because it provides leads for idealistic young researchers who want their work to make a difference in addition to encouraging more reflection and analysis for experienced peace psychologists

The 'Local Turn' in Peacebuilding Joakim Ojendal, Isabell Schierenbeck, Caroline Hughes, 2018-10-11 Contemporary practices of international peacebuilding and post conflict reconstruction are often unsatisfactory There is now a growing awareness of the significance of local governments and local communities as an integrated part of peacebuilding in order to improve quality and enhance precision of interventions In spite of this the local is rarely a key factor in peacebuilding hence everyday peace is hardly achieved The aim of this volume is threefold firstly it illuminates the substantial reasons for working with a more localised approach in politically volatile contexts Secondly it consolidates a growing debate on the significance of the local in these contexts Thirdly it problematizes the often too swiftly used concept the local and critically discuss to what extent it is at all feasible to integrate this into macro oriented and securitized contexts This is a unique volume tackling the local turn of peacebuilding in a comprehensive and critical way This book was published as a special issue of Third World Quarterly

Research Methods in Conflict Settings Dyan Mazurana, Karen Jacobsen, Lacey Andrews Gale, 2013-07-22 This volume compiles lessons learned by field researchers many of whom have faced demanding situations characterized by violence distrust and social fragmentation

The Myth of Self-Reliance Naohiko Omata, 2017-06 For many refugees economic survival in refugee camps is extraordinarily difficult Drawing on both qualitative and quantitative research conducted over several years this volume challenges the reputation of a self reliant model given to Buduburam refugee camp in Ghana and sheds light on considerable economic inequality between refugee households The Myth of Self Reliance provides valuable insights into refugees experiences of repatriation to Liberia after protracted exile and their responses to the ending of refugee status for remaining refugees in Ghana

South Sudan's Injustice System Rachel Ibreck, 2019-08-30 Coming into existence amid a wave of optimism in 2011 South Sudan has since slid into violence and conflict Even in the face of escalating civil war however the people of the country continue to fight for justice despite a widespread culture of corruption and impunity Drawing on extensive new research Rachel Ibreck examines people's lived experiences as they navigate South Sudan's fledgling justice system as well as the courageous efforts of lawyers activists and ordinary citizens to assert their rights and hold the government to account In doing so the author

reveals how justice plays out in a variety of settings from displacement camps to chiefs courts and in cases ranging from communal land disputes to the country's turbulent peace process Based on a collaborative research project carried out with South Sudanese activists and legal practitioners the book also demonstrates the value of conducting researching with rather than simply about those affected by conflict At heart this is a people's story of South Sudan what works in this troubled country is what people do for themselves
