Researching Entrepreneurship International Studies In Entrepreneurship:

Researching Entrepreneurship Per Davidsson, 2016-03-05 In this book one of the most highly recognized entrepreneurship scholars shares in a personal and readable way his rich experience and ideas on how entrepreneurship can be researched Entrepreneurship is a phenomenon of tremendous societal importance It is also an elusive phenomenon which makes researching it fun fascinating and frustrating at times In this fully updated edition numerous real examples accompany the treatment of problems and solutions concerning design sampling operationalization and analysis Researching Entrepreneurship is targeted primarily at research students and academics who are relatively new to research or to entrepreneurship research This said basic knowledge of research methods is assumed and when foundational issues are discussed they are typically approach from a non standard angle and or with an eye to illuminate entrepreneurship specific problems and solutions This makes large parts of the contents potentially valuable for entrepreneurship scholars at any level of research proficiency The book is also of interest to sophisticated non academic users with a professional interest in collecting and analyzing data from emerging and young ventures and to those who make use of published entrepreneurship research For example analysts in marketing research or consultancy firms business associations statistical agencies and other government offices may find this book to be a valuable tool Moreover while the examples are derived from entrepreneurship research the book provides a unique experienced empirical researcher rather than textbook method expert treatment of issues that are of equal relevance across the social sciences This goes for topics like the role of theory research design validity assessment statistical inference and replication Entrepreneurship research has developed rapidly in the decade that has passed since the first edition Therefore all chapters have been comprehensively updated and many have been extended sometimes to twice the original length Two of the original chapters have been excluded to make room for entirely new chapters on the Dependent Variable and The Entrepreneurship Nexus While retaining a unique personal tone the author uses examples and references that build on contributions from a large number of top entrepreneurship researchers

Researching Entrepreneurship Per Davidsson, 2006-04-18 Entrepreneurship is a phenomenon of tremendous societal importance It is also an elusive phenomenon and researching entrepreneurship is therefore fun fascinating and frustrating at times In Researching Entrepreneurship Per Davidsson one of the most highly recognized entrepreneurship scholars shares in a personal and readable way his rich experience and ideas on how entrepreneurship can or should be researched After a comprehensive treatment of entrepreneurship as societal phenomenon and scholarly domain the core chapters of the book discuss design sampling operationalization and analysis issues on several levels of analysis individual venture firm industry region and nation The book is targeted at doctoral students and other relative newcomers to the field of entrepreneurship research However taking a fresh reflective perspective and looking beyond research conventions it should provide potential for inspiration and food for thought also for experienced entrepreneurship

researchers Handbook of Research on Entrepreneurship Policy David B. Audretsch, Isabel Grilo, A. Roy Thurik, 2007 This book is a well written and handy source for readers Additionally it provides an overview of current issues relevant to the development of entrepreneurial policy which is based on interesting case studies across a number of nations Dessy Irawati International Journal of Entrepreneurial Behaviour and Research What is new in the world is the need to understand business dynamics the entry exit and growth of firms in the economy This dynamic firm structure as opposed to the static firm structure that dominated past thinking has spurred an outpouring of research The heart of the issue is that while many have identified the importance of business dynamics entry and exit we have only recently taken a closer look at the ecological system in which some companies must die for others to thrive Entrepreneurs are the predators of this system Public policy in an entrepreneurial economy dynamic must limit the forces that prevent firm exit and foster the forces that promote firm entry This book makes an important contribution to the debate Zoltan J Acs George Mason University US and Max Planck Institute of Economics Germany This unique Handbook provides a solid foundation for essential study in the nascent field of entrepreneurship policy research This foundation is initially developed via the exploration of two significant propositions underpinning the nature of entrepreneurship policy research The first is that entrepreneurship has emerged as a bona fide focus of public policy particularly with respect to economic growth and employment creation The second is that neither scholars nor policy makers are presently equipped to understand the public policy role for entrepreneurship The contributors experienced scholars specialist researchers and dynamic policy makers thus grapple with novel questions of considerable policy relevance that few have previously posed The Handbook therefore provides some of the first crucial systematic analyses of important issues and key questions to be raised in order to move entrepreneurship policy forward are also presented Written by academics and practitioners drawing examples from both North America and Europe this stimulating new Handbook is a prerequisite for students scholars and practitioners in the incipient world of entrepreneurship policy

Handbook of Entrepreneurship Research Zoltan J. Acs, David B. Audretsch, 2010-08-03 Interest in and attention to entrepreneurship has exploded in recent years Nevertheless much of the research and scholarship in entrepreneurship has remained elusive to academics policymakers and other researchers in large part because the field is informed by a broad spectrum of disciplines including management finance economics policy sociology and psychology often pursued in isolation from each other Since its original publication in 2003 the Handbook of Entrepreneurship Research has served as the definitive resource in the field bringing together contributions from leading scholars in these disciplines to present a holistic multi dimensional approach This new edition fully revised and updated and including several new chapters covers all of the primary topics in entrepreneurship including entrepreneurial behavior risk and opportunity recognition equity financing business culture and strategy innovation and the impact of entrepreneurship on economic growth and development Featuring an integrative introduction extensive literature reviews and reference lists the Handbook will continue to serve as

a roadmap to the rapidly evolving and dynamic field of entrepreneurship Pioneers in Entrepreneurship and Small Business Research H. Landstrom, 2007-12-31 Around the world there is an increasing interest in issues of small business and entrepreneurship In a time with a lot of myths and opinions of the role of entrepreneurs and small business it is vital for a book like this to encapsulate the knowledge that can be gained from the most significant research contributions in the field Such knowledge is often built upon empirical oriented methods providing policy relevant results for small business owners and entrepreneurs The aim of Pioneers in Entrepreneurship and Small Business Research is first to provide a historical doctrinal review of the development of entrepreneurship and small business research and second to present some of the key pioneers that have shaped the research field during the past three decades The book focuses on the first recipients of the FSF NUTEK International Award for Small Business Research including David Birch Arnold Cooper David Storey Ian MacMillan Howard Aldrich Zoltan Acs David Audretsch and Giacomo Becattini Handbook of Research Methods and Applications in Economic Geography Charlie Karlsson, Martin Andersson, Therese Norman, 2015-02-27 The main purpose of this Handbook is to provide overviews and assessments of the state of the art regarding research methods approaches and applications central to economic geography The chapters are written by distinguished researchers from a variety

Entrepreneurship Thierry Burger-Helmchen, 2012-03-14 Entrepreneurship has a tremendous impact on the economic development of a country As can be expected many public policies foster the development of self entrepreneurship in times of unemployment praise the creation of firms and consider the willingness to start new ventures as a sign of good fortune Are those behaviours inherent to a human being to his genetic code his psychology or can students younger children or even adults be taught to become entrepreneurs What should be the position of universities of policy makers and how much does it matter for a country This book presents several articles following different research approaches to answer those difficult questions The researchers explore in particular the psychology of entrepreneurship the role of academia and the macroeconomic impact of entrepreneurship Handbook of Research on International Entrepreneurship Leo Paul Dana, 2004 Dana's Handbook is an essential read for international entrepreneurship scholars as well as policymakers and practitioners concerned with the dynamics associated with the international entrepreneurship process Succinct reviews of the literature and useful summary tables relating to key themes and studies are presented by a number of contributors Paul Westhead International Small Business Journal This is a formidable and weighty tome More important than sheer quantity is consideration of the quality and here the broad spread yet eclectic choice of the research papers is most enlightening The contributing authors have collectively condensed much of the knowledge garnered from the past five years of this global field into one handy sourcebook The end result is indeed a fresh recognition if recognition still needs to be made of the major importance of this new global growth phenomenon of international entrepreneurship Mark Haydon International Journal of Entrepreneurship and Innovation The Handbook is a nearly comprehensive reference work to the field that will be useful to

scholars new to the area as well as those already engaged in it I was impressed by the diversity of the authors The Handbook is an excellent broad reference to the field Ben Oviatt Journal of International Business Studies Over the last few years there has been an increased interest in research on the internationalization of new ventures and the global challenges facing growing young businesses The Handbook of Research on International Entrepreneurship has collected and synthesized the contributions of leading researchers in an effort to define and categorize the unique contributions and state of the art of this emerging field It provides a comprehensive multi disciplinary treatment that advances the frontiers of knowledge regarding the fundamental concepts methods and theories of international entrepreneurship The Handbook should serve as both an authoritative and comprehensive reference work for researchers and a state of the art compilation of new insights for educational leaders Ari Ginsberg New York University Stern School of Business US Entrepreneurship and international business have remained separate subjects for far too long The study of international entrepreneurship thrives on the cross fertilisation of ideas between these fields It is one of the most dynamic research areas in economics and management The contributors to this Handbook are the pioneers in the field and this volume provides a definitive survey of their work Mark Casson University of Reading UK These notable researchers share a common dedication to rigorous methodologies and vigorous research Together in this volume the researchers have assembled and presented a cross section of tested methods and innovative approaches These contributions are an inspiration to younger researchers and this bids fair to set the tone and level of intellectual rigour and vigour for future research in the emerging field of international entrepreneurship From the preface by Bob Kirk University of Canterbury New Zealand This unique reference book provides an array of diverse perspectives on international entrepreneurship a new and emerging field of research that blends concepts and methodologies from more traditional social sciences The Handbook includes chapters written by top researchers of economics and sociology as well as academic leaders in the fields of entrepreneurship and international business State of the art contributions provide up to date literature reviews making this book essential for the researcher of entrepreneurship and the internationalisation of entrepreneurs **Handbook of Research On Entrepreneurship** Alain Fayolle, 2014-05-30 This indispensable Handbook offers a fresh look at entrepreneurship research addressing what we already know and what we still need to know in the field Over the course of 17 chapters a collaboration of 24 highly regarded researchers expe

Entrepreneurship and Culture Andreas Freytag, Roy Thurik, 2009-12-01 The book is an innovative compilation of papers that explore the relationship between cultural features and entrepreneurship The relative stability of differences in entrepreneurial activity across countries suggests that other than economic factors are at play The contributions to this edited volume deal with the foundations of entrepreneurship and with the effects of different cultural settings on the incidence and success of entrepreneurs Topics are individual decision making in a cultural context regional aspects of entrepreneurship cross country differences and the influence of culture on entrepreneurial activity Handbook of

Qualitative Research Methods in Entrepreneurship Helle Neergaard, John P. Ulhøi, 2007 the Handbook of Qualitative Research Methods in Entrepreneurship is an important contribution to the field and should be referenced in any paper using qualitative methodologies to investigate the entrepreneurial phenomenon Craig S Galbraith Journal of Enterprising Communities There is no hiding behind the ramparts of dry scholarship here The credibility of the theory being spoken of is not the stuff of constructed proofs but alignments of critical insight and utility This is where qualitative work can make a difference to the field and where this book makes its mark Robin Holt International Journal of Entrepreneurial Behaviour and Research The Handbook of Qualitative Research Methods in Entrepreneurship is an unusually solid and multifaceted book on what qualitative methods have done are doing and will do in entrepreneurship research Every serious entrepreneurship scholar should read it It points at the future Bjørn Bjerke University of Kalmar Sweden I would warmly recommend this unique collection of qualitative methods of entrepreneurship research to both mature and beginning researchers as a menu to choose from for their planned empirical studies For those who try to get away from only quantitative studies in both business practice and academic research this book is their chance to find a rich inspiration in reflecting on entrepreneurship as a lived experience using grounded theory and ethnographic discourse and narrative approaches It might convince editors of top journals of entrepreneurship research to welcome qualitative research submissions as an indispensable complement to quantitative only submissions This domain is not physics In bringing together such a variety of experts from so many nationalities in this Handbook our Danish colleagues are making entrepreneurship research a realistic global venture Jan Ulijn Eindhoven University of Technology The Netherlands Helle Neergaard and John P. Ulhøi have compiled a remarkable collection of work that both represents the range of methods and demonstrates the depth of insight that can be achieved through qualitative approaches This book is not simply a handbook of qualitative research methods though it well achieves this aim it is also an important contribution towards the field of entrepreneurship research From the Foreword by Sara Carter This expansive and practical Handbook introduces the methods currently used to increase the understanding of the usefulness and versatility of a systematic approach to qualitative research in entrepreneurship It fills a crucial gap in the literature on entrepreneurship theory and just as importantly illustrates how these principles and techniques can be appropriately and fruitfully employed The Handbook is underpinned by the belief that qualitative research has the potential to charter hitherto unexplored waters in the field of entrepreneurship and thus contribute significantly to its further advancement The contributors seek to assist entrepreneurship researchers in making more informed choices and designing more rigorous and sophisticated studies They achieve this by providing concrete examples of research experiences and tangible how to advice By clarifying what these research methods entail how they are currently being used and how they can be evaluated this Handbook constitutes a comprehensive and highly accessible methodological toolbox Dealing with both well accepted qualitative approaches and lesser known rarer and more novel approaches to the study of entrepreneurship this

Handbook will be invaluable to those studying researching and teaching entrepreneurship **Women Entrepreneurship in India** Namita Kumari, The starting point for the book is the low economic activity of women in India and hence both governmental and NGO based activities to raise the level of women s participation to Indian economy and through that the increase in women s economic and social independence The book focuses on elementary and important issues of entrepreneurship and women in any economy Prof Anne Kovalainen School of Economics University of Turku Finland The book focuses on three NGOs and their activities in enhancing and promoting women s entrepreneurial activities in three different areas in India The empirical material consists of interview materials as well as background data and reports national level statistics and other figures that are used to describe the Indian situation in general and specifically those conditions from where women s entrepreneurial activities arise such as gender equality and legislation frameworks The book is very important not only for the women s entrepreneurship and economic activity but for the Indian society at large Prof Paola Villa Department of Economics University of Trento Italy This book is a product of extensive and intensive research The book aptly highlights and proves the importance of NGOs in promoting women entrepreneurship Given the rigors of research methodology the book will also serve as a model for future research on the related dimensions of women entrepreneurship Prof Italo Trevisan Department of Economics and Management University of Trento Italy Women s empowerment in India remains a daunting task for governmental and non governmental organizations alike Given the importance of economic empowerment of women this study provides an overview of the entrepreneurship as a means to economic empowerment of Indian women Dr Suman Sharma Officer on Special Duty OSD Dayal Singh College Evening University of Delhi

Entrepreneurship, Growth, and Innovation Enrico Santarelli, 2006-03-29 The analysis of different national cases including Germany Greece Italy Portugal Turkey the Netherlands and the United States puts forward that the relationship between entrepreneurship and growth via innovation is shaped by the context of country specific institutions and industries thereby providing hints for industrial and innovation policy Entrepreneurship Quality Index (EQI) Nezameddin Faghih, Lida Sarreshtehdari, Ebrahim Bonyadi, 2021-08-28 This book tackles the perplexing problem of how to capture the qualitative differences that exist in entrepreneurship at any given point in time or across time by presenting a novel qualitative index Entrepreneurship Quality Index EQI This comprehensive composite index is based on recognized interactions among different factors affecting intensity and types of entrepreneurial activity which in turn is impacting the well being It brings qualitative differences in entrepreneurship depending on time and space into calculation of the composite index Besides EQI is the missing piece of the entrepreneurship puzzle and the quality of entrepreneurship is a significant factor that shows why less developed countries do not achieve higher levels of economic growth despite their high rate of entrepreneurial activities This book does a masterful job in explaining the diversity of existing perspectives their contributions and their shortfalls It applies rigorous tools of mathematical statistics and quality engineering such as Bayes rule maximum likelihood estimation

six sigma algorithm and standardization equation to derive and introduce EQI as a novel operations research model It offers a number of important ideas and insights as to how the quality of entrepreneurship can be measured more accurately It also illustrates the proposed approaches showing their efficacy across time The proposed solutions are logical and empirically sound they represent an important leap in thinking about the quality of entrepreneurship Its contribution is crucial and timely one that will be well recognized by researchers worldwide They give a much needed framework along with the necessary tools to evaluate and measure entrepreneurial activities

Innovative Methodologies in Enterprise Research
Damian Hine,David Carson,2007 The contributors to this book explore the role and importance of qualitative interpretist research in the dynamic field of enterprise They establish the link between the innovative nature of small enterprise and the need to utilise research methodologies which are themselves innovative The book highlights the fact that enterprise research has the advantage of sufficient youth as a research discipline to permit a wide scope for new and innovative research studies Probing this unexplored terrain therefore requires exploratory research methods supported by inductive research techniques These methods and techniques are examined in detail topics covered are diverse ranging from a review of quantitative research methodologies and the integration of methodological philosophies and approaches to the application of two novel analytical techniques Convergent interviewing action research case research and marketing research for isolated SMEs are all also explored in depth This book will provide academics researchers and students with a cohesive body of material on the use of interpretist research techniques in all areas of enterprise research

Understanding the Entrepreneurial Mind
Alan L. Carsrud,Malin Brännback,2009-07-30 Interest in the functioning of the human mind can certainly be traced to Plato and Aristotle who often dealt with issues of perceptions and motivations While the Greeks may have contemplated the human condition the modern study of the human mind can be traced back to Sigmund Freud 1900 and the psychoanalytic movement He began the exploration of both conscious and unconscious factors that propelled humans to engage in a variety of behaviors While Freud s focus may have been on repressed sexuality our focus in this volume lies elsewhere We are concerned herein with the expression of the cognitions motivations passions intentions perceptions and emotions associated with entrepreneurial behaviors We are attempting in this volume to expand on the work of why entrepreneurs think differently from other people Baron 1998 2004 During the decade of the 1990s the field of entrepreneurship research seemingly abandoned the study of the entrepreneur This was the result of earlier research not being able to demonstrate some unique entrepreneurial personality trait or characteristic Brockhaus and Horwitz 1986 It was both a naive and simplistic search for the holy grail of what made entrepreneurs the way they are However many of the researchers in this volume have never given up the belief that a better understanding of the mind of the entrepreneur would give us a better understanding of the processes that lead to the creation of new ventures

Proceedings of the 8th International Research Conference on Economic and Business (IRCEB 2024) Dediek Tri Kurniawan,Dede Rusmana,2025-06-27 This is an open access book This

conference is one of our special annual events International Research Conference on Economics and Business is the premier forum for the international presentation of new advances and innovation research results in the fields of theoretical experimental and applied Business Economics and Education Research The conference will bring together leading researchers and scientists in the domain of interest from around the world

Entrepreneurship, Growth, and Public Policy Zoltan J. Acs, David B. Audretsch, Robert J. Strom, 2009-02-02 While the public policy community has turned to entrepreneurship to maintain restore or generate economic prosperity the economics profession has been remarkably taciturn in providing guidance for public policy for understanding the links between entrepreneurship and economic growth as well as for framing and weighing policy issues and decisions The purpose of this volume is to provide a lens through which public policy decisions involving entrepreneurship can be guided and analyzed In particular this volume provides insights from leading research concerning the links between entrepreneurship innovation and economic growth that shed light on implications for public policy The book makes clear both how and why small firms and entrepreneurship have emerged as crucial to economic growth employment and competitiveness as well as the mandate for public policy in the entrepreneurial society

Entrepreneurship in the United States Paul D. Reynolds, 2007-09-30 This important book enhances understanding of entrepreneurial dynamics providing the first analysis of changes in US entrepreneurial activity Based on the unprecedented Panel Study of Entrepreneurial Dynamics it examines adult participation in new firm creation and differences in regional firm creation activity Shedding light on the importance of new firms for job growth productivity enhancements innovation and routes for social mobility the author tracks the success or failure of entrepreneurs including comparisons of different groups such as women and minorities as well as across countries

The Future of Entrepreneurship in Africa Anthony Abiodun Eniola, Chux Gervase Iwu, Abdullah Promise Opute, 2022-12-30 For many years entrepreneurship has been considered as one of the most important solutions to the three pronged challenges poverty unemployment and inequality of most African countries A recent development that has undoubtedly compounded the challenges that African entrepreneurs face and further impede the economic growth impact is Covid 19 This pandemic has exerted severe damage to economies and businesses globally For the African setting the implications of Covid 19 on businesses and individuals would be enormous as African societies are rarely equipped to absorb unexpected shocks of this magnitude as the social and welfare schemes are far below requirements This book illuminates entrepreneurship in the African setting focusing on the prospects challenges and the post Covid 19 pandemic future It aims to offer a rich repository of information on strategies and techniques for sustaining entrepreneurial activities that can enrich African nations and will be of relevance to academics researchers advanced students entrepreneurs governments and government agencies who are interested in understanding issues relating to entrepreneurship development within the African continent
