Edward Abbey James M. Cahalan, 2022-08-09 The best biography ever about Ed Cahalan's meticulous research and thoughtful interviews have made this book the authoritative source for Abbey scholars and fans alike Doug Peacock author environmentalist activist and explorer and the inspiration for Hayduke in The Monkey Wrench Gang He was a hero to environmentalists and the patron saint of monkeywrenchers a man in love with desert solitude A supposed misogynist ornery and contentious he nevertheless counted women among his closest friends and admirers He attracted a cult following but he was often uncomfortable with it He was a writer who wandered far from Home without really starting out there James Cahalan has written a definitive biography of a contemporary literary icon whose life was a web of contradictions Edward Abbey A Life sets the record straight on Cactus Ed giving readers a fuller more human Abbey than most have ever known It separates fact from fiction showing that much of the myth surrounding Abbey such as his birth in Home Pennsylvania and later residence in Oracle Arizona was self created and self perpetuated It also shows that Abbey cultivated a persona both in his books and as a public speaker that contradicted his true nature publicly racy and sardonic he was privately reserved and somber Cahalan studied all of Abbey's works and private papers and interviewed many people who knew him including the models for characters in The Brave Cowboy and The Monkey Wrench Gang to create the most complete picture to date of the writer's life He examines Abbey's childhood roots in the East and his love affair with the West his personal relationships and tempestuous marriages and his myriad jobs in continually shifting locations including sixteen national parks and forests He also explores Abbey's writing process his broad intellectual interests and the philosophical roots of his politics For Abbey fans who assume that his honest novel The Fool's Progress was factual or that his public statements were entirely off the cuff Cahalan's evenhanded treatment will be an eye opener More than a biography Edward Abbey A Life is a corrective that shows that he was neither simply a countercultural cowboy hero nor an unprincipled troublemaker but instead a complex and multifaceted person whose legacy has only begun to be appreciated The book contains 30 photographs capturing scenes ranging from Abbey's childhood to his burial site

Wild Abandon Alexander Menrisky, 2020-12-17 The American wilderness narrative which divides nature from culture has remained remarkably persistent despite the rise of ecological science which emphasizes interconnection between these spheres Wild

Abandon considers how ecology's interaction with radical politics of authenticity in the twentieth century has kept that narrative alive in altered form. As ecology gained political momentum in the 1960s and 1970s, many environmentalists combined it with ideas borrowed from psychoanalysis and a variety of identity-based social movements. The result was an identity politics of ecology that framed ecology itself as an authentic identity position repressed by cultural forms including social differences and even selfhood. Through readings of texts by Edward Abbey, Simon Ortiz, Toni Morrison, Margaret Atwood, and Jon Krakauer among others, Alexander Menrisky argues that writers have both dramatized and critiqued this tendency in the process, undermining the concept of authenticity altogether and granting insight into alternative histories of identity and environment.

[The Ecocentrists](#) Keith Makoto Woodhouse, 2018-06-05

Disenchanted with the mainstream environmental movement, a new, more radical kind of environmental activist emerged in the 1980s. Radical environmentalists used direct action, from blockades and tree sits to industrial sabotage, to save a wild nature that they believed to be in a state of crisis. Questioning the premises of liberal humanism, they subscribed to an ecocentric philosophy that attributed as much value to nature as to people. Although critics dismissed them as marginal radicals, they posed a vital question that mainstream groups too often ignored: Is environmentalism a matter of common sense or a fundamental critique of the modern world? In *The Ecocentrists*, Keith Makoto Woodhouse offers a nuanced history of radical environmental thought and action in the late twentieth-century United States. Focusing especially on the group Earth First, Woodhouse explores how radical environmentalism responded to both postwar affluence and a growing sense of physical limits. While radicals challenged the material and philosophical basis of industrial civilization, they glossed over the ways economic inequality and social difference defined people's different relationships to the nonhuman world. Woodhouse discusses how such views increasingly set Earth First at odds with movements focused on social justice and examines the implications of ecocentrism's sweeping critique of human society for the future of environmental protection. A groundbreaking intellectual history of environmental politics in the United States, *The Ecocentrists* is a timely study that considers humanism and individualism in an environmental age and makes a case for skepticism and doubt in environmental thought.

[The Palgrave Handbook of Global Sustainability](#) Robert Brinkmann, 2023-04-04

The field of sustainability continues to evolve as a discipline. The world is facing multiple sustainability challenges, such as climate change, water depletion, ecosystem loss, and environmental racism. *The Handbook of Sustainability* will provide a comprehensive reference for the field that examines in depth the major themes within what are known as the three E's of sustainability: environment, equity, and economics. These three themes will serve as the main organizing body of the work. In addition, the work will include sections on history and sustainability, major figures in the development of sustainability as a discipline, and important organizations that contributed or that continue to contribute to sustainability as a field. The work is explicitly global in scope, as it considers the very different issues associated with sustainability in the global north and south.

Wild Visions Ben A. Minteer, Mark Klett, Stephen J. Pyne, 2022-01-01

stunning combination of landscape photography and thematic essays exploring how the concept of wilderness has evolved over time Our ideas of wilderness have evolved dramatically over the past one hundred and fifty years from a view of wild country as an inviolable place apart to one that exists only within the matrix of human activity This shift in understanding has provoked complicated questions about the importance of the wild in American environmentalism as well as new aesthetic expectations as we reframe the wilderness as to some degree a human creation Wild Visions is distinctive in its union of landscape photography and environmental thought a merging of short thematic essays with a striking visual narrative Often the wild is viewed in binary terms either revered as sacred and ecologically pure or dismissed as spoiled by human activities This book portrays wilderness instead as an evolving gamut of understandings a collage of views and ideas that is still in process

Updating the Literary West, 1997 Western writers says Thomas J Lyon in his epilogue to *Updating the Literary West* have grown up with the frontier myth but now find themselves in the early stages of creating a new western myth The editors of the *Literary History of the American West* TCU Press 1987 hoped that the first volume would begin not conclude their exploration of the West's literary heritage Out of this hope comes *Updating the Literary West* a comprehensive reference anthology including essays by over one hundred scholars A selected bibliography is included with each piece In the ten years since publication of *LHAW* western writing has developed a significantly larger presence in the national literary stream A variety of cultural viewpoints have developed along with new tactics for literary study New authors have risen to prominence and the range of subjects has changed and widened *Updating the Literary West* looks at topics ranging from western classics to cowboys and Cadillacs and considers children's literature ethnicity environmental writing gender issues and other topics in which change has been rapid since publication of *LHAW* This volume again affirms the West's literary legitimacy status hard earned by the Western Literary Association and the lasting place of popular western writing as part of the growing and changing literary and American experience An excellent reference for a wide range of readers and an invaluable resource for scholars and libraries Selected list of contributors James Maguire Fred Erisman Susan J Rosowski Gerald Haslam Tom Pilkington A Carl Bredahl Richard Slotkin John G Cawelti Robert F Gish Ann Ronald Mick McAllister

Coming of Age at the End of Nature Julie Dunlap, Susan A. Cohen, 2016-09-19 *Coming of Age at the End of Nature* explores a new kind of environmental writing This powerful anthology gathers the passionate voices of young writers who have grown up in an environmentally damaged and compromised world Each contributor has come of age since Bill McKibben foretold the doom of humanity's ancient relationship with a pristine earth in his prescient 1988 warning of climate change *The End of Nature* What happens to individuals and societies when their most fundamental cultural historical and ecological bonds weaken or snap In *Coming of Age at the End of Nature* insightful millennials express their anger and love dreams and fears and sources of resilience for living and thriving on our shifting planet Twenty two essays explore wide ranging themes that are paramount to young generations but that resonate with everyone including redefining materialism

and environmental justice assessing the risk and promise of technology and celebrating place anywhere from a wild Atlantic island to the Arizona desert to Baltimore and Bangkok The contributors speak with authority on problems facing us all whether railing against the errors of past generations reveling in their own adaptability or insisting on a collective responsibility to do better Contributors include Blair Braverman Jason Brown Cameron Conaway Elizabeth Cooke Amy Coplen Ben Cromwell Sierra Dickey Ben Goldfarb CJ Goulding Bonnie Frye Hemphill Lisa Hupp Amaris Ketcham Megan Kimble Craig Maier Abby McBride Lauren McCrady James Orbesen Alycia Parnell Emily Schosid Danna Staaf William Thomas and Amelia Urry

Conserving Words Daniel J. Philippon, 2004 *Conserving Words* looks at five authors of seminal works of nature writing who also founded or revitalized important environmental organizations Theodore Roosevelt and the Boone and Crockett Club Mabel Osgood Wright and the National Audubon Society John Muir and the Sierra Club Aldo Leopold and the Wilderness Society and Edward Abbey and Earth First These writers used powerfully evocative and galvanizing metaphors for nature metaphors that Daniel J Philippon calls conserving words frontier Roosevelt garden Wright park Muir wilderness Leopold and utopia Abbey Integrating literature history biography and philosophy this ambitious study explores how conserving words enabled narratives to convey environmental values as they explained how human beings should interact with the nonhuman world

Lines on the Land Scott Herring, 2004 *Lines on the Land* Writers Art and the National Parks Scott Herring The nineteenth century photographer William Henry Jackson once complained of the skepticism with which early descriptions of Yellowstone were met the place was too wondrous to be believed The public demanded proof and a host of artists and writers obliged These early explorers possessed a vigorous devotion to the young nation's wilderness the naturalist John Muir famously toured the land from Wisconsin to Florida on foot and through their work established aesthetic categories that exist to this day In *Lines on the Land* Scott Herring contends that these writers and artists were canon makers recognizing the national parks as naturally occurring works of art and conferring upon them a cultural prestige the parks were the splendid focal points of the American landscape These early canonizing works are homages to a vast untouched wilderness This praise would gradually give way however to a distinctly American anger what Herring calls outraged idealism Later generations were faced with a changing culture that had imperfectly absorbed and even misrepresented the national park aesthetic The postwar park was overrun by cars and tourists who could not possibly match the pioneering naturalists profound commitment to and appreciation for their surroundings The collective tone of the parks chroniclers as a result evolved from celebration of awesome beauty to indignation over the perceived corruption of the

parks both as an ideal and as actual physical settings Herring traces this shift through the work of a wide spectrum of creative minds from early figures such as Muir and Thomas Moran to later observers of the parks such as Ansel Adams Sylvia Plath Edward Abbey and Rick Bass The text is punctuated by autobiographical interchapters in which Herring relates the book's chief themes to his own experiences in Yellowstone National Park Under the Sign of Nature Explorations in Ecocriticism **Abbey in America** John A. Murray, 2015-05-15 More than twenty five years after his death iconic writer and nature activist Edward Abbey 1929 1989 remains an influential presence in the American environmental movement Abbey's best known works continue to be widely read and inspire discourse on the key issues facing contemporary American society particularly with respect to urbanization and technology Abbey in America published forty years after Abbey's popular novel The Monkey Wrench Gang features an all star list of contributors including journalists authors scholars and two of Abbey's best friends as they explore Abbey's ideas and legacy through their unique literary personal and scholarly perspectives
