Resisting Reform Gerald Steinberg, Etta Bick, 1992-10-06 An overview of the public health care system in Israel *Policy Making at the Margins of Government* Yair Zalmanovitch, 2012-02-01 Who makes public policy in vital services that are paid for by the government but provided by autonomous non governmental agencies This book explores this question through the prism of Israel's unique not for profit health system drawing heavily on unpublished archival sources and interviews with key players Starting with the system's roots in Israel's pre state period it traces the almost century long struggle between the country's largest healthcare provider Kupat Holim and successive Israeli governments for control of the tools of policy making allocation regulation and restructuring It analyzes how Kupat Holim acquired and exercised a veto over healthcare policy and then how under the pressure of changing social developments and party politics its veto was eroded and finally lost in the health reform of the 1990s Entering the current debates on health reform and government by proxy the author questions whether the reform actually improved healthcare as promised or allowed the government to renege on its responsibilities **Current Catalog** National Library of Medicine (U.S.), 1993 First multi year cumulation covers six years 1965-70 National Library of Medicine Current Catalog National Library of Medicine (U.S.), 1993 *Israel at the Polls, 1992* Daniel Judah Elazar, Shmuel Sandler, 1995 The results of the June 1992 Israeli elections at first indicated a normal transition of power from Likud to Labor in the tradition of Western democracies rather than an upset However one and one half years later there were signs of a major change *Israel at the Polls 1992* looks at the parties election campaigns major institutions and analyzes the policies of the new government's first year Co published with the Jerusalem Center for Public Affairs **Work and Organizations in Israel** Itzhak Harpaz, 2017-09-04 Since the State of Israel was established its labor force has grown rapidly and has become increasingly diverse in terms of its demographic cultural ethnic and socioeconomic characteristics Israeli work values have shifted towards greater individualism materialism careerism and preference for white collar and knowledge based occupations is evident A major structural change is underway as indicated by the decline of agriculture as a component in the Israeli economy and the growth of the industrial sector mostly towards high technology and innovative enterprises This volume sheds light on trends and developments that have been taking place in the realm of work in Israel in recent years It contains a unique selection of articles presenting empirical evidence of the major features and important changes characterizing work organizations and the regime of work in Israeli society labor relations work values power and management in organizations work in the Kibbutz inter organizational relations women and work migrants and minorities in the Israeli labor force Studies show that another two major trends characterize the contemporary economy and the labor market the trend toward privatization and globalization the results of which are a continuous decrease of job security and an increasing level of unemployed Israeli men and women that are replaced by the low cost labor of foreign workers emigrating from third world countries This timely volume is valuable for its contribution to illuminating the recent
