Resolving Conflict Across Cultures:

Conflict Across Cultures Michelle Lebaron, Vanashri Pillay, 2006-11-02 Cultural differences among members of any group be it a multinational business team or an international family are frequently the source of misunderstanding and can lead to conflict. With powerful techniques for resolving or at least reducing conflicts, scholars and teachers from around the globe demystify the intricate and important relationship between conflict and culture. Stories which are at the heart of the book come from a wide variety of groups and locations and they give sound counsel for all kinds of settings: business, law, government, non-governmental agencies, schools, communities, and families. Conflict across Cultures is written by a new generation of conflict resolution scholars from four parts of the world: Canada, South Africa, Japan, and the US. They describe processes and help build the skills necessary for successful conflict resolution. Here is a new framework for understanding others, a map for making progress through differences that can otherwise overwhelm us. Conflict across Cultures offers hope in countering the view that differences must divide us.
