Responding to AIDS Carl G. Leukefeld, Manuel Fimbres, 1987 *Doomed Interventions* Kim Yi Dionne, 2017-12-07 Between 2002 and 2013 bilateral donors spent over 64 billion on AIDS intervention in low and middle income countries During the same period nearly 25 million died of AIDS and more than 32 million were newly infected with HIV In this book for students of political economy and public policy in Africa as well as global health Kim Yi Dionne tries to understand why AIDS interventions in Africa often fail The fight against AIDS requires the coordination of multiple actors across borders and levels of governance in highly affected countries and these actors can be the primary sources of the problem Dionne observes misaligned priorities along the global chain of actors and argues this misalignment can create multiple opportunities for failure Analyzing foreign aid flows and public opinion polls Dionne shows that while the international community highly prioritizes AIDS ordinary Africans view AIDS as but one of the many problems they face daily **Responding to AIDS**

Jensen, 2011 This book explores the strategies plans and programs for responding to the HIV AIDS epidemic in the United States When one of our fellow citizens becomes infected with the human immunodeficiency virus HIV every 9 1 2 minutes the epidemic affects all Americans Without treatment the virus slowly debilitates a person s immune system until they succumb to illness The epidemic has claimed the lives of nearly 600 000 Americans and affects many more We have the knowledge and tools needed to slow the spread of HIV infection and improve the health of people living with HIV Despite this potential however the public s sense of urgency associated with combating the epidemic appears to be declining Unless we take bold actions we face a new era of rising infections greater challenges in serving people living with HIV and higher health care costs Imprint Nova
