Notre étude concernant la responsabilité civile du médecin en droit français et saoudien s'ouvre sur un chapitre préliminaire suivi de deux parties Ce chapitre préliminaire consacré aux généralités en matière de droit en effet indispensable pour cerner de manière globale la responsabilité du médecin et en tracer les lignes directrices avant de procéder à une étude plus détaillée de cette dernière Ceci nous a conduit à terminer d'une part la nature de cette responsabilité et d'autre part celle de l'obligation du médecin Après cette analyse générale nous avons procédé à une étude approfondie du droit français et saoudien On retrouve ici les trois éléments classiques de la responsabilité civile savoir la faute le dommage et l'existence entre les deux d'un lien de causalité La responsabilité du médecin ne peut être en principe engagée qu'en présence d'une faute commise par le médecin même développée dans notre première partie La faute pouvant entraîner la responsabilité civile du médecin peut revêtir deux aspects Il peut se agir d'une violation de son devoir d'humanité titre 1 ou d'une faute technique titre 2 se traduisant par une négligence dans l'établissement du diagnostic le choix ou l'application du traitement ou par une certaine déficience dans la surveillance Toutefois avant d'envisager ces deux sortes de fautes il nous a semblé nécessaire de consacrer un chapitre préliminaire à la définition de la faute médicale sa notion et ses modalités d'appariation La faute du médecin doit entraîner un préjudice pour le malade sujet de notre deuxième partie afin que ce dernier soit indemnisé Il existe différents types de préjudices titré qui ont été successivement envisagés ici savoir des préjudices dits classiques ou d'autres plus spécifiques Ceux-ci devront avoir un lien de causalité avec le comportement du médecin pour engager la responsabilité civile de celui-ci Cependant le médecin peut se exonérer
