*A Responsive Society* Amitai Etzioni, 1991-11-20 Brings together seventeen essays on the dynamics of social change published in a wide array of journals over the course of Amitai Etzioni's long and distinguished career Applying sociological methods of study to seemingly disparate disciplines from ethics to economics politics to genetics Etzioni uncovers important interrelationships between these fields      **Responsive Community Building in High Need Contexts** David P.

Moxley, 2025-10-02 This book provides a description of what a good human service organization is and what it does The author relies on a broad framework to define good and offers a fictional account as a methodology using his considerable consulting and research experience in human service organizations as a content enriching approach to the case examples he presents in this volume The book details the fictional story of Fifth Street a non governmental organization nested in a high need community which itself is hypothetical but reflects what is occurring within communities whose residents are struggling with poverty The content of this fictional account leans on a synthesis of multiple case examples This approach will appeal to faculty and students as well as practitioners who are seeking a grand example of how human service organizations can work effectively in high need contexts Students will also gain from the ethical perspective the author presents in this monograph This is a project of hope one that can inspire us all practicing in human services to strive for the best in novel and innovative ways      **Schools and Community** Dr James Arthur, Richard Bailey, 2002-11

Communitarianism as a movement is clearly a dominant theme within New Labour's educational policy How does this affect education and the life and work of schools Research has shown that there is a correlation between academic achievement and the strength of community life and awareness within a school The aim of this book therefore is to introduce communitarian thought to classroom teachers and to those working in education The book contextualizes the current debates within education around the many topical ideas being developed by communitarian thinkers including character building the role of parents the community and the individual values education and citizenship community education and standards and ethos in schools Throughout the book makes specific reference to the practical implications for both primary and secondary schools as well as for further education colleges This is a timely book that should be of interest to all those working in schools and with children and young people It aims to be a guide to this important and highly influential movement that is shaping our educational future      Legality and

Community Philip Selznick, 2002 Bridging sociology legal and social theory and moral philosophy this volume explores the significance of Philip Selznick's work in a variety of social contexts particularly the search for responsive law and governance humane institutions and a balance between freedom and communal life      *Community* Gerard Delanty, 2013-09-13 The increasing individualism of modern Western society has been accompanied by an enduring nostalgia for the idea of community as a source of security and belonging and in recent years as an alternative to the state as a basis for politics Gerard Delanty begins this stimulating introduction to the concept with an analysis of the origins of the idea of community in

Western Utopian thought and as an imagined primitive state equated with traditional societies in classical sociology and anthropology He goes on to chart the resurgence of the idea within communitarian thought the complications and critiques of multiculturalism and its new manifestations within a society where new modes of communication produce both fragmentation and the possibilities of new social bonds Contemporary community he argues is essentially a communication community based on new kinds of belonging No longer bounded by place we are able to belong to multiple communities based on religion nationalism ethnicity life styles and gender      *Social Transformations in Chinese Societies* Yanjie Bian, Kwok-bun Chan, Tak-sing Cheung, 2006-06-01 *Social Transformations in Chinese Societies* is the official annual of The Hong Kong Sociological Association It publishes articles of original research that addresses theoretical methodological or substantive issues of sociological significance about or related to social transformations in Chinese societies The focus is mainly on Hong Kong Taiwan the mainland Singapore and Chinese overseas Review essays of exceptionally high quality are also welcome      **Community** J. Toby Reiner, 2025-07-04 People often yearn for a sense of belonging and connection they long to live in a meaningful community In the modern age however this often seems to be a chimera Does modernity doom us to be atomised individuals Does the promise of community imply a loss of autonomy and freedom and entrench inequality and hierarchy In this book J Toby Reiner examines the debates surrounding community in modern political and social thought He outlines how liberals conservatives socialists and nationalists have historically conceived of the ties that bind together political communities and how recent political philosophers such as Rawls Taylor Walzer and Sandel have debated the nature and merits of community in the contemporary world He goes on to consider how prominent conceptions of community relate to and are in tension with characteristically modern ideals such as equality and freedom He deftly shows how a meaningful conception of community can be reconciled with the demands of modern liberal societies Filled with real life examples and thought provoking discussions of the key debates this book will be essential reading for students of contemporary political theory and philosophy and of sociology      *Etzioni's Critical Functionalism* David Sciulli, 2011-01-17 Among all sociologists in the world born after 1900 Amitai Etzioni ranks ninth in total citations One reason for this is his thousands of publications span theory organizations international politics democratic politics socio economics and communitarianism and they have been adopted in undergraduate coursework within each of these areas Written for social theorists as well as general readers including undergraduates David Sciulli's book is the first to explain not only how but also why Amitai Etzioni's publications evolved from his dissertation to *Active Society* and *Socio Economics to Communitarianism*      *Communitarianism in Law and Society* Paul van Seters, 2006 In this new collection of essays Paul van Seters brings together an international group of scholars from diverse academic backgrounds to reflect upon the remarkable rise of communitarianism in contemporary studies of law and society These essays critically assess the communitarian perspective in order to gain a more systematic insight into its distinctive constraints and the special opportunities it provides      **Covenant and Contract** Adela Cortina

Orts,2003 Modern republicanism nevertheless turns liberal and opts for the contract between independent beings as fiat of the political world But the Contract is not self sufficient since anyone who looks back to their roots will come to the narration of reciprocal recognition The Covenant falls similarly short as those who forget the parable of independence may well have a disregard for justice In a dialogue with the most relevant philosophical currents of the age the book proposes an articulation of politics ethics and religion appropriate for our own time starting from the contract between independent beings and from the reciprocal recognition of those who know themselves to be human Jacket      **Macro Socio-economics: From Theory to Activism** David Sciulli,2016-09-16 Contributors to this volume respond to the normative capsule framing economic behaviour that Amitai Etzioni has explored The text also looks at his works on organisations public policy socio economics and communitarianism      *Changing Modern Society* Abhishek Sharma,2001      **The Monochrome Society** Amitai Etzioni,2021-02-09 Amitai Etzioni is one of the most influential social and political thinkers of our day a man synonymous with the ideas of communitarianism In this book Etzioni challenges those who argue that diversity or multiculturalism is about to become the governing American creed On the surface America may seem like a fractured mosaic but the country is in reality far more socially monochromatic and united than most observers have claimed In the first chapter Etzioni presents a great deal of evidence that Americans whites and African Americans Hispanics and Asian Americans new immigrants and decedents of the Pilgrims continue to share the same core of basic American values and aspirations He goes on to show that we need not merely a civil but also a good society one that nurtures virtues He assesses key social institutions that can serve such a society ranging from revived holidays to greater reliance on public shaming The most effective sources of bonding and of shared ideas about virtue he insists throughout come from the community not from the state Etzioni also challenges moral relativists who argue that we have no right to impose our moral values on other societies He responds to those who fear that a cohesive community must also be one that is oppressive authoritarian and exclusive And he explores and assesses possible new sources and definitions of community including computer mediated communities and stakeholding in corporations By turns provocative and reassuring the chapters here cut to the heart of several of our most pressing social and political issues The book is further evidence of Etzioni s enduring place in contemporary thought      Do Community Colleges Respond to Local Needs? Duane E. Leigh,Andrew M. Gill,2007 Describes community colleges as institutions with several missions supplying courses to students interested in transferring to a university college providing occupational training adapted to local labour market needs as well as adult basic education and workforce development Using the 1996 cohort of first time freshmen discusses results of educational research into the questions to which extent the colleges meet the education and training needs of immigrants and whether the attainment responds to changing skill demands of the local economy      International Encyclopedia of Civil Society Helmut K. Anheier,Stefan Toepler,2009-11-24 Recently the topic of civil society has generated a wave of interest and a wealth of new information Until now no publication has attempted to organize

and consolidate this knowledge The International Encyclopedia of Civil Society fills this gap establishing a common set of understandings and terminology and an analytical starting point for future research Global in scope and authoritative in content the Encyclopedia offers succinct summaries of core concepts and theories definitions of terms biographical entries on important figures and organizational profiles In addition it serves as a reliable and up to date guide to additional sources of information In sum the Encyclopedia provides an overview of the contours of civil society social capital philanthropy and nonprofits across cultures and historical periods For researchers in nonprofit and civil society studies political science economics management and social enterprise this is the most systematic appraisal of a rapidly growing field

**The Communitarian Reader** Amitai Etzioni, Drew Volmert, Elanit Rothschild, 2004 The Communitarian Reader Beyond the Essentials brings together essays by prominent social thinkers reflecting on issues ranging from moral obligations to civil liberties after 9 11 The result is a book both practical and theoretical and an essential guide for all interested in further exploring this important social movement

*Innovative Community Responses to Disaster* Brent Hales, Norman Walzer, James Calvin, 2017-10-02 Increasingly community leaders around the world face major natural and economic disasters that require them to find ways to rebuild both physical infrastructure and the local economy Doing this effectively requires an understanding of how various parts of the community are interconnected as well as information as to which revitalization approaches have succeeded in the past Community investment in recovery is essential and in some cases may require local leaders to rethink how it can be financed and arranged This book presents a conceptual framework based on the community capitals and describes approaches that have succeeded in situations where local leaders have coordinated efforts to rebuild and revitalize local conditions Contributions provide examples of successful approaches around the world thus analysing potential strategies for addressing disasters of many different types in various cultural settings In this way the book provides insights into a variety of approaches based on applications of accepted community development theory and concepts This book was originally published as a special issue of Community Development

*Community Co-production* Jane Farmer, Carol Hill, Sarah-Anne Muñoz, 2012-01-01 Governments around the globe are promoting co production and community social enterprise as policy

strategies to address the need for local 21st century service provision but can small communities engage spontaneously in social enterprise and what is the true potential for citizens to produce services This book addresses a clutch of contemporary societal challenges including aging demography and the consequent need for extended care in communities public service provision in an era of retrenching welfare and global financial crises service provision to rural communities that are increasingly hollowed out through lack of working age people and how best to engender the development of community social enterprise organizations capable of providing high quality accessible services It is packed with information and evidence garnered from research into the environment for developing community social enterprise and co producing services how communities react to being asked to co produce what to expect in terms of the social enterprises they can produce and how to make them happen This book is an antidote to the rhetoric of optimistic governments that pronounce co production as a panacea to the challenges of providing local services and by drawing on the evidence from a real life international study will make policymakers more savvy about their aspirations for co production give service professionals practical strategies for working with communities fill a gap in the academic evidence about community as opposed to individual social enterprise and reassure community members that they can deliver services through community social enterprise if the right partnerships and strategies are in place Community CoProduction will appeal to students and scholars over a broad range of disciplines including development entrepreneurship public and social policy economics and regional studies
