Restarting Fast Track Jeffrey J. Schott, 1998 *Setting National Priorities* Henry Aaron, Robert D.

Reischauer, 2011-07-01 If the subject of influence in Washington interests you this series of books deserves your respectful attention it has changed the ways in which American politicians think about the budget The Washington Post For the first time in more than four decades the federal budget has registered two consecutive surpluses and the need to reduce the deficit is not casting a pall over the policy debate This new highly accessible book examines the policy options that are available in this new environment to address the new and recurring challenges that face the nation The book which continues the Brookings Institution's highly acclaimed and influential Setting National Priorities series will serve as a guide for understanding many of the complex issues that will be discussed during the presidential and congressional campaigns of 2000 The book centers around three themes providing opportunity in the domestic arena restoring confidence in government and adapting to the post Cold War international environment It tackles such critical issues as Medicare and social security tax reform and foreign policy spending as well as many areas not included in previous editions namely education urban problems the environment trade government renewal and reform crime and drugs and families In addition to the editors the contributors are Gary Burtless I M Destler John J DiIulio Jr William Gale Bruce Katz Donald F Kettl Paul C Light Thomas E Mann Michael O Hanlon Paul R Portney Diane Ravitch Isabel V Sawhill and James Sly **Wake Up Captain and Crew**

Restart Your Engines Roy C. Richards, 2007-03 Renewal for Men and Women In Their Thirties Forties Fifties and Beyond Do you lead or participate in a collective enterprise which has grown old before its time Lagging corporations family businesses governmental entities and private foundations dampen the spirits and drain energy from managers employees and volunteers top to bottom The author's second book Wake Up Captain and Crew Restart Your Engines addresses leaders formal and informal intent upon revitalizing their stagnant or declining organizations from within The author begins from the premise that sagging enterprises are best transformed by reigniting the creative energies and collective spirit of those presently on board No matter how outstanding its products or services any organization's primary asset is the combined talent knowledge and imagination of on board personnel Rather than attempting to tear down and rebuild today's outstanding leaders are able to inspire colleagues subordinates or fellow volunteers to anticipate and adapt to a radically different continually evolving positive culture of innovation The author presents a five fold formula designed to restore positive momentum to lagging organizations large and small 1 early diagnosis and treatment of the symptoms of decline 2 identification and evaluation of collective strengths traditions and resources upon which to build 3 inspirational exercises intended to revitalize the personal lives and careers of on board participants 4 merging of individual and collective objectives into fully engaged circles of cooperation and 5 empowerment and reward for every dedicated and capable contributor The author Roy Richards is a motivational speaker Business consultant personal coach and co founder of the Middle Age Renewal

Training Institute MART His stated mission is to revitalize lagging businesses and not for profit enterprises across North America at the same time reenergizing on board leaders employees and volunteers A Phi Beta Kappa graduate of Carleton College Northfield Minnesota with a Masters in Business Administration from the University of Chicago the author writes from the unique perspective of a thirty six year business career including seventeen years climbing the corporate ladder with four major U S corporations followed by nineteen years as a successful small business owner and entrepreneur

Conflict Amid Consensus in American Trade Policy Martha Liebler Gibson, 2000 Americans have witnessed inconsistent and seemingly dramatic turnabouts in legislators attitudes toward trade with strong bipartisan support for free trade and the Uruguay Round in one instant and heated debate over participation in the World Trade Organization the next Martha L Gibson systematically traces the competing forces that interject conflict into an overall consensus on the value of a liberalized trade policy Cutting through the tangled web of congressional politics Gibson shows why it is impossible to understand trade legislation without first understanding how electoral politics and the institutional rules of Congress distort legislators interests incentives and policy goals Gibson s book clearly shows that trade legislation is not made in a vacuum but is just one in a series of simultaneous games with competing goals in which legislators engage to satisfy the conflicting demands of constituents

Dollar Overvaluation and the World Economy C. Fred Bergsten, John Williamson, 2003-02-24 The dollar rose by about 35 percent in real terms from 1995 through the end of 2001 supporting the booming US economy of the late 1990s but pushing the current account deficit to a record high of almost 5 percent of GDP This special report provides alternative views of how large a dollar depreciation would be needed to restore a sustainable position Jim O Neill Michael Rosenberg and Catherine Mann analyzes the impact of currency misalignments on each of the three major economies Martin Baily for the United States William Cline for Japan and Daniel Gros for Euroland and discusses the role of exchange market intervention in addressing the issues Kathryn Dominguez Edwin M Truman and Ernest Preeg

Improving Trade Policy Reviews in the World Trade Organization Donald B. Keesing, 1998 The Trade Policy Review Mechanism is part of the World Trade Organization Its purpose is to strengthen observance of WTO commitments and promote trade liberalization by providing all member countries with objective information about the trade policies and practices of each member individually and by establishing a forum within which members can question one another s policies and practices in a nonconfrontational manner Since the TPRM was established in 1989 as one of the first fruits of the Uruguay Round of multilateral trade negotiations some 80 trade policy reviews have been completed covering nearly 60 countries In light of eight years of experience with the process it is fair to ask whether the TPRM is meeting the goals set for it at its inception Are the reviews sufficiently probing and analytical to provide information of real value Do they cover all relevant aspects of members trade Are they unbiased and objective Does the WTO devote sufficient resources to the task of conducting the reviews and to disseminating the information that they generate Is the potential value of this information to those outside the trade

negotiations process being realized This text seeks to answer these questions and others

Markets Over Mao Nicholas R Lardy, 2014-09-10 China's transition to a market economy has propelled its remarkable economic growth since the late 1970s In this book Nicholas R Lardy one of the world's foremost experts on the Chinese economy traces the increasing role of market forces and refutes the widely advanced argument that Chinese economic progress rests on the government's control of the economy's commanding heights In another challenge to conventional wisdom Lardy finds little evidence that the decade of the leadership of former President Hu Jintao and Premier Wen Jiabao 2003-13 dramatically increased the role and importance of state-owned firms as many people argue This book offers powerfully persuasive evidence that the major sources of China's growth in the future will be similarly market rather than state-driven with private firms providing the major source of economic growth the sole source of job creation and the major contributor to China's still growing role as a global trader Lardy does however call on China to deregulate and increase competition in those portions of the economy where state firms remain protected especially in energy and finance

Global Warming and the World Trading System Gary Clyde Hufbauer, Steve Charnovitz, Jisun Kim, 2009-05-15 In 2006 a team led by the English economist Sir Nicholas Stern issued a striking report that analyzed the economic dimensions of global climate change and called for immediate collective action to reduce greenhouse gas (GHG) emissions This seminal report poses the critical question of how much emissions should be reduced within specific timeframes To answer the challenge of finding a best practices approach Global Warming and the World Trading System looks at the economic aspects of GHG emissions and seeks a policy method to reduce them without adversely affecting global trade The book begins with a survey of relevant data such as emissions reports per sector and evaluates current US climate policy options focusing on the intricacies of specific Congressional bills In this vein this study examines whether the competitiveness provisions now under consideration are compatible with the rules of the World Trade Organization (WTO) and explores the pragmatic opportunities the WTO should capitalize on in order to accomplish two goals simultaneously ensure policy space for countries to limit national GHG emissions without sacrificing the competitive position of their own industries and preserve an open trading system relatively free of discrimination and opportunistic protectionist measures Should governments use trade measures to encourage other countries to cooperate in the adoption of environmental policies The authors anticipate the potential negative environmental and economic outcomes as well as the disputes over violation of GATT articles This book addresses how to avoid serious setbacks in an effort to reduce emissions without compromising the status of both domestic and international carbon-intensive industries Most importantly the book considers what can be done by environmental organizations to head off conflict with the WTO

Trade Relations Between Colombia and the United States Jeffrey J. Schott, 2006 This volume analyzes the economic effects of a prospective free trade agreement between the United States and Colombia The study uses the Global Trade Analysis Project (GTAP) model of world trade and economic activity to analyze the expected trade and other economic impacts of the prospective FTA and to examine

bilateral trade and investment flows bilateral trade frictions and implications of the prospective accords for the bilateral regional and global trade relations of the two countries

Industrial Policy in an Era of Globalization Marcus Noland, Howard Pack, 2003 Globalization reigns supreme as a description of recent economic transformation and it carries many meanings In the policy realm the orthodox terms of engagement have been enshrined in the Washington consensus But disappointing results in Latin America and transitional economies plus the Asian financial crisis have shaken the faith in Washington and elsewhere One response has been to hark back to the more statist policies that the consensus marginalized In this regard Japan Korea and Taiwan are promoted as the poster nations that have derived great benefits from increasing integration with the international economy without surrendering national autonomy in the economic or cultural spheres effectively beating the West at its own game The fundamental questions addressed in this monograph are whether industrial policy was indeed a major source of growth in these three economies and if so can it be replicated under current institutional arrangements and if so is it worth replicating or would developing countries today be better off embracing the suitably refined orthodoxy

The United States and the World Economy: Foreign Economic Policy for the Next Decade C. Fred Bergsten, 2005

The Great Rebirth Simeon Djankov, 2014-10-10 The fall of communism transformed the political and economic landscape in more than two dozen countries across Europe and Asia In this volume published on the 25th anniversary of the fall political leaders scholars and policymakers assess the lessons learned from the great rebirth of capitalism and highlight the policies that were most successful in helping countries make the transition to stable and prosperous market economies Also discussed in this book are examples of countries reverting to political and economic authoritarianism The authors of these essays conclude that the best outcomes resulted from visionary leadership a willingness to take bold steps privatization of state owned enterprises and deregulation Recent backsliding in Russia and Hungary has cast a shadow over the legacy of the transition a quarter century ago however This volume grew out of a two day symposium of experts and practitioners reflecting on the past present and future of reform held in Budapest Hungary on May 6 7 2014

Dollar Adjustment: How Far? Against What? , The dollar rose about 35 percent in real terms from 1995 to the end of 2001 supporting the US economy of the late 1990s but pushing the current account deficit to a record high This book looks at the impact of this examining intervention to achieve desired currency values and the impact of a major dollar realignment on worldwide economies

The Shape of a Swiss-US Free Trade Agreement Gary Clyde Hufbauer, Richard E. Baldwin, 2006 At first sight a free trade agreement FTA between Switzerland and the United States seems implausible but this important new study concludes that an FTA between the two countries would be highly worthwhile to both As leading advocates of market capitalism Switzerland and the United States are well situated to conclude an FTA that breaks new ground in dismantling barriers The study finds that the annual GDP gains to each partner from expanded trade could be on the order of 1 1 billion

Global Warming and Agriculture: Impact Estimates by Country William R. Cline, 2007

C.

Fred Bergsten and the World Economy Michael Mussa, 2006 This engaging and informative book covers the range of issues on which C Fred Bergsten and the Peterson Institute have distinguished themselves over the last 25 years including trade liberalization exchange rate regimes international financial architecture debt economic sanctions and the impact of technology and globalization Most of the Institute's senior research staff have contributed chapters which are both retrospective and prescriptive , *Free Trade Between Korea and the United States?* In-böm Ch'oe, Jeffrey J. Schott, 2001 This study examines the economic and political benefits of the U S pursuing Free Trade Agreement negotiations with Korea which is pursuing FTA accords as part of a strategy to restructure its economy and sustain the recovery from its 1997 98 economic crisis The authors examine the impact of a prospective pact on other trading partners on the Asia Pacific Economic Cooperation and on the multilateral trading system *The WTO After Seattle* Jeffrey J. Schott, 2000 The WTO after Seattle presented by the Institute for International Economics analyzes the problems and challenges facing the World Trade Organization after the failure of the Seattle trade ministerial in December 1999 The volume presents balanced perspectives on world trade problems by authors from the United States Europe Asia and Latin America with recommendations on what needs to be done in key areas to launch new talks *Imagine There's No Country* Surjit S. Bhalla, 2002 Refer a critical discussion of the content in this book by Martin Ravallion in *Economic and Political Weekly* Vol 37 46 2002 pp 4638 4645
