**Contemporary Museums** Yves Girault, 2023-07-26 At the center of current debates surrounding the social function of museums, questions concerning museum activities and the participation of both inhabitants and the public arise. In 2019, these questions were the subject of many heated debates at the 34th General Assembly of ICOM in Kyoto, which intended to propose a new definition of the museum. As the representations of the tensions between Universalist and Communitarian approaches are not only largely dependent on the historical and socio-political contexts of the various countries concerned, a generational angle must also be considered. It thus seems totally anachronistic to try to defend a dichotomous vision that is far too simplistic. At the heart of these current events and international issues, this collective work studies, in an international context, the values, actions, and discourses advocated for participating in processes such as collection, selection, conservation, and interpretation of heritage elements linked to the territories, resources, knowledge, and know-how of various communities. The analysis of the tensions and asymmetries of power between various groups of actors (politicians, managers, scientists, visitors, representatives of local or diasporic populations, among others) particularly in the context of decolonization policies of museums is also a major part of this book.

**Research Handbook on Remedies in Private Law** Roger Halson, David Campbell, 2019 p. 1 This Research Handbook comprehensively and authoritatively reviews the contemporary challenges in research regarding remedies in private law. The Research Handbook on Remedies in Private Law focuses on the most important issues throughout contract, equity, restitution, and tort law as they have arisen in the major common law jurisdictions, touching upon those of other jurisdictions where pertinent.

**New Perspectives on Israeli History** Laurence J. Silberstein, 1991-10-01 In this volume, a distinguished group of international scholars draws from history, folklore, political anthropology, historiography, and cultural criticism to reexamine critical issues surrounding the birth of Israel. The authors explore such issues as the transition from yishuv to state, early state policy toward the Arab minority, the origins of the Palestinian refugee problem, the conflict over myths and symbols in the early state, early attitude toward Holocaust victims and survivors, Arab historiography of the 1948 war, Israel-Diaspora relations, and the shaping of Israeli foreign policy. The contributors to the book include Myron J. Aronoff (Rutgers University), Uri Bialer (Hebrew University of Jerusalem), Neil Caplan (Vanier College, Montreal), Benny Morris (Hebrew University of Jerusalem), Don Peretz (State University of New York Binghamton), Dina Porat (Tel Aviv University), Jehuda Reinharz (Brandeis University), Elie Rekhess (Tel Aviv University), Avraham Sela (Hebrew University of Jerusalem), Anton Shamas (University of Michigan), Laurence J. Silberstein (Lehigh University), and Kenneth Stein.

Emory University Yael Zerubavel University of Pennsylvania and Ronald W Zweig Tel Aviv University **New Perspectives on Racial Identity Development** Charmaine Wijeyesinghe, Bailey W. Jackson, 2012-07-30 For well over a century the United Fruit Company UFCO has been the most vilified multinational corporation operating in Latin America Criticism of the UFCO has been widespread ranging from politicians to consumer activists and from labor leaders to historians all portraying it as an overwhelmingly powerful corporation that shaped and often exploited its host countries In this first history of the UFCO in Colombia Marcelo Bucheli argues that the UFCO's image as an all powerful force in determining national politics needs to be reconsidered Using a previously unexplored source the internal archives of Colombia's UFCO operation Bucheli reveals that before 1930 the UFCO worked alongside a business friendly government that granted it generous concessions and repressed labor unionism After 1930 however the country experienced dramatic transformations including growing nationalism a stronger labor movement and increasing demands by local elites for higher stakes in the banana export business In response to these circumstances the company abandoned production selling its plantations and labor conflicts to local growers while transforming itself into a marketing company The shift was endorsed by the company's shareholders and financial analysts who preferred lower profits with lower risks and came at a time in which the demand for bananas was decreasing in America Importantly Bucheli shows that the effect of foreign direct investment was not unidirectional Instead the agency of local actors affected corporate strategy just as the UFCO also transformed local politics and society Restitution Joachim Dietrich, 1998 Restitution A new perspective provides a detailed critique of current and widely accepted theories seeking to unify the law of restitution on the basis of a principle of unjust enrichment Commencing with a brief history of restitution the book proceeds to illustrate the diverse legal problems addressed by the law of restitution The legal doctrines now collected under this heading are demonstrated to have fulfilled a gap filling role in our law much like the diverse doctrines of equity have done The book questions the underlying basis for unjust enrichment theories and demonstrates their inadequacy as descriptions and explanations of restitution The book then sets out alternative methods of organising and rationalising the topics of restitution The approach adopted rejects an explanation of liability in restitution on the basis of a defendant's unjust enrichment and thus challenges much of the current academic and judicial writing in the field Instead the approach adopted is to emphasise the relevance of a defendant's conduct in determining the nature and extent of any liability imposed *Equity and Trusts* Alastair Hudson, 2016-07-15 Alastair Hudson's *Equity and Trusts* is an ideal textbook for undergraduate courses on the law of trusts and equitable remedies It provides a clear current and comprehensive account of the subject The author's enthusiasm and expertise shine through helping to bring to life an area of the law which students often find challenging This Ninth Edition has been extensively re-written but remains the same book in spirit as it has always been It contains an analysis of the important decisions of the Supreme Court in *FHR European Ventures v Cedar Capital* *Jones v Kernott* and *Williams v Central Bank of Nigeria* and the important decisions in *Charity Commission v Framjee*

Rawstron v Freud Patel v Mirza Federal Republic of Brazil v Durant Hodkin Novoship v Mihaylyuk National Crime Agency v Robb St Andrews Cheam Lawn Tennis Club the after effects of the Lehman Brothers collapse and analysis of many other new cases besides Equity and Trusts remains the most comprehensive and up to date coverage of the law of Equity and Trusts while still a lively and thoughtful account of the issues raised by it This book has been cited as being authoritative in the courts of numerous countries The ninth edition is supported by the author s website at [www.alastairhudson.com](http://www.alastairhudson.com) with brand new resources including short podcasts discussing and clarifying key topics from within the book which cover an entire course complete lecture recordings made specifically to accompany this book New video documentaries bringing to life selected key topics A host of other online materials and study guides new for 2016 Review of a previous edition One of the book s great strengths is its clear exposition of some very difficult areas of the law moving seamlessly from points that puzzle students to points that puzzle practitioners Other strengths are the breadth of its approach the fact that it is extremely up to date the freshness and vividness of its approach and its willingness to place equity in a wider context The student will enjoy a clear lively and challenging account of the subject matter The practitioner will find the book well worth consulting for its clear exposition of the basic principles and of their application in difficult areas New Law Journal      **Understanding**
