Restorative Justice: Theoretical foundations Elmar G. M. Weitekamp, Hans-Jürgen Kerner, 2012-12-06 This book brings together a selection of papers originally presented and discussed at the fourth international restorative justice conference held at the University of Tübingen. The contributors include many of the leading authorities in the field of restorative justice and they provide a comprehensive review of the theoretical foundations underlying this rapidly expanding movement. Restorative Justice: Theoretical foundations addresses a wide range of fundamental questions about restorative justice considering amongst other things ways in which conceptual pitfalls can be avoided and how traditional models of peacemaking and healing developed in traditional societies can be integrated into the justice systems of late modern societies. Overall it provides an authoritative overview of contemporary thinking about restorative justice and will be essential reading for anybody concerned with the future direction of criminal justice and criminal justice systems. Leading world authorities address the theoretical foundations of restorative justice, a rapidly expanding area within criminal justice. It includes chapters on restorative justice as applied to corporate crime, family violence and cases of extreme violence. **Restorative**

Volume 26 Cecilia Chouhy, Joshua C. Cochran, Cheryl Lero Jonson, 2020-02-14 Criminal Justice Theory: Explanations and Effects undertakes a systematic study of theories of the criminal justice system which historically have received very little attention from scholars. This is a glaring omission given the risk of mass imprisonment, the increasing presence of police in inner city communities and the emergence of new policy initiatives aimed at improving the quality and effectiveness of the administration of justice. Fortunately, however, a number of disparate theoretical works have appeared that seek to provide

insight into the nature and impact of criminal justice Based on 13 original essays by influential scholars this volume pulls together the most significant of these perspectives thus creating a state of the art assessment of contemporary criminal justice theory Criminal justice theory can be divided into two main categories The first includes works that seek to explain the operation of the criminal justice system Most of these contributions have grappled with the core reality of American criminal justice its rising embrace of punitiveness and the growth of mass imprisonment The second category focuses on works that identify theories that have often guided efforts to reduce crime The issue here focuses mainly on the effects of certain theoretically guided criminal justice interventions The current volume is thus organized into these two categories explanations and effects The result is an innovative and comprehensive book that not only serves researchers by advancing scholarship but also is appropriate for advanced undergraduate or graduate classroom use New Directions in Restorative Justice Elizabeth Elliott, Robert Gordon, 2013-06-17 This book is based on papers originally presented at the 6th International Conference on Restorative Justice in Vancouver It is concerned with several new areas of practice within restorative justice with sections on restorative justice and youth aboriginal justice and restorative justice victimization and restorative justice and evaluating restorative justice *Restorative Justice Today* Katherine S. van Wormer, Lorenn Walker, 2012-08-17 *Restorative Justice Today* Applications of Restorative Interventions takes a hard look at the issues and concepts surrounding restorative justice and current restorative practices used in a broad range of areas today In a time when the cost of prisons and jails is on the rise resulting in more offenders being kept out of the community this timely and contemporary book exposes readers to a range of restorative practices that can be implemented The authors renowned experts in the area of restorative justice provide information not found in other restorative justice texts *Youth, Crime and Justice* Cyndi Banks, 2013-03-12 *Youth Crime and Justice* takes a critical issues approach to analyzing the current debates and issues in juvenile delinquency It encourages readers to adopt an analytical understanding encompassing not only juvenile crime but also the broader context within which the conditions of juvenile criminality occur Students are invited to explore the connections between social political economic and cultural conditions and juvenile crime This book engages with the key topics in the debate about juvenile justice and delinquency juvenile institutions delinquency theories gender and race youth and moral panic restorative justice youth culture and delinquency It clearly examines all the important comparative and transnational research studies for each topic Throughout appropriate qualitative studies are used to provide context and explain the theories in practice conveying a powerful sense of the experience of juvenile justice This accessible and innovative textbook will be an indispensable resource for senior undergraduates and postgraduates in criminology criminal justice and sociology **Whose Criminal Justice?** Katherine Doolin, 2011 The overarching theme of this book is the balance between the role of a central government in creating and shaping the regulatory framework of criminal justice and the potential for communities at a local level to become more involved in responding to crime and anti social behavior in their

midst These twin dynamics are explored in the two main sections of the book Through a series of UK case studies in Part I The Regulatory State the book examines how the central state has sought to address the risks and problems associated with crime and anti social behavior in modern times The case studies consider the new context for law and order which arose during the period and ask how and why new sanctions were put in place to regulate particular kinds of behavior They also highlight some of the unintended consequences notably the criminalization of more people In Part II Empowered Communities as Stakeholders in Criminal Justice the book explores the potential for local communities

Restorative Justice Margarita Zernova,2016-12-05 The legitimacy and performance of the traditional criminal justice system is the subject of intense scrutiny as the world economic crisis continues to put pressure on governments to cut the costs of the criminal justice system This volume brings together the leading work on restorative justice to achieve two objectives to construct a comprehensive and up to date conceptual framework for restorative justice suitable even for newcomers and to challenge the barriers of restorative justice in the hope of taking its theory and practice a step further The selected articles start by answering some fundamental questions about restorative justice regarding its historical and philosophical origins and challenge the concept by bringing into the debate the human rights and equality discourses Also included is material based on empirical testing of restorative justice claims especially those impacting on reoffending rates victim satisfaction and reintegration The volume concludes with a critique of restorative justice as well as with analytical thinking that aims to push its barriers It is hoped that the investigations offered by this volume not only offer hope for a better system for abolitionists and reformists but also new and convincing evidence to persuade the sceptics in the debate over restorative justice

Victims and Restorative Justice Inge Vanfraechem,Daniela Bolívar Fernández,Ivo Aertsen,2015-05-15 Restorative justice aims to address the consequences of crime by encouraging victims and offenders to communicate and discuss the harm caused by the crime that has been committed In the majority of cases restorative justice is facilitated by direct and indirect dialogue between victims and offenders but it also includes support networks and sometimes involves professionals such as police lawyers social workers or prosecutors and judges In theory the victim is a core participant in restorative justice and the restoration of the harm is a first concern In practice questions arise as to whether the victim is actively involved in the process what restoration may entail whether there is a risk of secondary victimisation and whether the victim is truly at the heart of the restorative response or whether the offender remains the focal point of attention Using a combination of victimological literature and empirical data from a European research project this book considers the role and the position of the victim in restorative justice practices focusing on legislative organisational and institutional frameworks of victim offender mediation and conferencing programmes at a national and local level as well as the victims personal needs and experiences The findings are essential reading for academics and students engaged in the study of justice victimology and law The publication will also be valuable to policymakers and professionals such as social workers lawyers and mediators
