Restorative Justice and Family Violence Joan Pennell, 2025-09-25 By engaging families in taking charge of their affairs restorative justice can reverse family violence But the expansion of restorative programming into family violence is stymied by fears of setting family members at risk and heightening agency liability if harm results How does this anthology counter these fears In response it provides two decades of studies documenting successes of a restorative approach with gendered and intergenerational violence It offers feminist frameworks to explain how these successes are achieved And finally the author turns to cultural and religious messages from her own upbringing as a Quaker Religious Society of Friends to explain why a restorative approach makes lasting and just peace in homes The aim is to encourage others to identify such principles in their own

backgrounds to safely and confidently expand the use of restorative programming to safeguard children and adults in the home

A Restorative Approach to Family Violence Joan Pennell, 2022-07-08 A Restorative Approach to Family Violence looks back at an early and successful demonstration of a family and culturally based model to stop severe family violence This conferencing model called family group decision making was applied by three diverse Canadian communities Inuit rural and urban to the benefit of child and adult family members Narrative inquiry identifies how engaging the family and relatives resets the narrative from misrecognition to recognition of their competence and caring Family violence poses some of the most long term and controversial questions in restorative justice Should we use a restorative approach to stop gendered and intergenerational harm Or will bringing together those who have been harmed those causing harm and their supporters only incite more violence Underlying these questions is a profound distrust of families and their cultural networks This distrust has stalled turning away from carceral interventions that particularly harm minoritized communities Moving forward in time the volume identifies blocks to trusting families and their cultural networks and means of circumventing these blocks The book offers a theory of feminist kin making to comprehend the restorative process and gives practical guidance to restorative participants practitioners policy makers and researchers

Restorative Justice and Family Violence Heather Strang, John Braithwaite, 2002-07-08 This 2002 book addresses one of the most controversial topics in restorative justice its potential for dealing with conflicts within families Most restorative justice programs specifically exclude family violence as an appropriate offence to be dealt with this way This book focuses on the issues in family violence that may warrant special caution about restorative justice in particular feminist and indigenous concerns At the same time it looks for ways of designing a place for restorative interventions that respond to these concerns Further it asks whether there are ways that restorative processes can contribute to reducing and preventing family violence to healing its survivors and to confronting the wellsprings of this violence The book discusses the shortcomings of the present criminal justice response to family violence It suggests that these shortcomings require us to explore other ways of addressing this apparently intractable problem

been victims of abusive relationships Contributions are included from a wide range of perspectives to provide a balanced approach that is not simply polemic or advocating Rather the book genuinely raises the issue for debate with the advantage of bringing into the open new research which has not been widely published previously Given its unique experience in the development of restorative justice the book includes empirical studies relating to New Zealand contextualized within the global situation by the inclusion of perspectives on practices in the UK Australia and North America This book will be key reading for people who work with violent offending of a family nature as well as for those who are interested in the study of family violence
