Comparative Public Budgeting George M. Guess,James D. Savage,2021-01-07 This analysis of budgetary systems and policies across the world examines how politics culture and economics influence public finance **The Political Economy of Inter-regional Fiscal Flows** Nuria Bosch,Marta Espasa,2010-01-01 Struggles over what a region receives or should receive from the budget of the central government are common to many countries Discussions often focus on the measures of net fiscal flows or fiscal balances provided by the government or other actors This unique book shows just how these flows are computed then interpreted and clarifies the often misunderstood economic and political motives that explain why some regions receive more monies than others The Political Economy of Inter Regional Fiscal Flows provides an overview of the main methods currently being used to measure fiscal flows highlighting the advantages of the different approaches and interpreting their results The book reviews the political economy literature that analyses the determinants of inter regional fiscal flows Particular attention is devoted to the relationship between fiscal flows and country stability with methodological contributions and country studies both focusing on this issue The contributing economists and political scientists provide a state of the art study that will prove to be of great use to academics and practitioners in public sector economics and finance Is Fiscal Policy the Answer? Blanca Moreno-Dodson,2012-11-15 The effects of fiscal policy measures both taxes and public spending adopted by developing countries in response to the 2009 global crisis are still uncertain This book discusses them using an analytical framework that allows for distilling possible implications on growth and social welfare public

expenditure and growth , *Is Decentralization Good for Development?* Jean-Paul Faguet, Caroline Pöschl, 2015 Is decentralisation good for development This book explains when the answer is Yes and when it is No It shows how decentralisation can be designed to drive development forward and focuses on the institutional incentives that can strengthen democracy boost economies and improve public sector performance *Analyzing the Distributional Impact of Reforms*, 2 Aline Coudouel, Stefano Paternostro, 2005 The analysis of the distributional impact of policy reforms on the well being or welfare of different stakeholder groups particularly on the poor and vulnerable has an important role in the elaboration and implementation of poverty reduction strategies in developing countries In recent years this type of work has been labeled as Poverty and Social Impact Analysis PSIA and is increasingly implemented to promote evidence based policy choices and foster debate on policy reform options While information is available on the general approach techniques and tools for distributional analysis each sector displays a series of specific characteristics These have implications for the analysis of distributional impacts including the types of impacts and transmission channels that warrant particular attention the tools and techniques most appropriate the data source typically utilized and the range of political economy factors most likely to affect the reform process This volume provides an overview of the specific issues arising in the analysis of the distributional impacts of policy and institutional reforms in selected sectors Each chapter offers guidance on the selection of tools and techniques most adapted to the reforms under scrutiny and offers examples of applications of these approaches This is a companion to the first volume which offers guidance on trade monetary and exchange rate policy utility provision agricultural markets land policy and education *An Opportunity for a Different Peru* Marcelo Giugale, Vicente Fretes Cibils, 2007 For the first time in the republican history of Peru the presidential transition takes place in democracy social peace fast economic growth and favorable world markets In other words there has never been a better chance to build a different Peru a richer country more equal and governable There are multiple ways to achieve that goal New reforms must stem from a widespread and participatory debate one of a common vision conceived for and by Peruvians This book aims at making a technical and independent contribution to such debate it summarizes the knowledge available about the challenges to be faced by the new administration The study does not recommend silver bullets but suggests policy options It is based on the analysis of the current reality and in six decades of relationships with Peru in which the Bank has implemented more than 100 projects and prepared more than 500 technical reports covering the wide range of development topics When necessary the study provides lessons that the Bank has learned elsewhere The study provides a conceptual framework to the analysis of the country's 34 economic sectors and the two historical perspectives behind them In doing so it offers a comprehensive reform agenda that sheds light on possible priorities and courses of action **The "Glass of Milk" Subsidy Program and Malnutrition in Peru** Harold Alderman, David C. Stifel, 2003 **Transformative Policy for Poor Women** Bina Fernandez, 2016-02-24 What accounts for the oft noted gap between well designed policies for women and their inadequate

implementation Why do such policies often fail to benefit the poorest women How do policies address the intersecting inequalities of gender class caste ethnic identity and race What are the conditions under which policy may have transformative potential for poor women This book answers these questions and many more Presenting a new feminist framework for policy analysis that can account for policy failures Bina Fernandez argues that these failures are often predictable and that it is necessary to unpack the actual policy practices within the policy implementation gap Recognising that policy is a multiply layered contingent and politically contested discursive process the author proposes the analysis of policy through four analytical categories Constitutive Contexts Representations Practices and Consequences Within each of these four categories gender class and ethnic identity are central axes of analysis The framework is given substance through an empirical case study of an anti poverty policy in India yet the wider relevance of the framework is validated through a discussion of parallels in the policy contexts of other developing countries Transformative Policy for Poor Women provides an important and required framework to understand the gap between policy pronouncement and its praxis on the ground These features make this book an important read for both scholars and practitioners seeking to understand policy in developing country contexts

Reducing Inequality in Latin America María Fernanda Valdés Valencia, 2016-09-13 This book examines the role of tax policy in the incidence of socio economic inequality With a focus on Latin American the author demonstrates that while inequality has decreased remarkably in the last decade during the very period in which inequality was increasing almost everywhere else in the world this reduction cannot be attributed to a better use of tax policy Offering both quantitative and qualitative reviews of tax policies pursued by Argentina Chile Colombia Mexico and Peru over the last two decades Reducing Inequality in Latin America contends that these countries continue to make insufficient use taxation measures in combating startlingly high levels of inequality Drawing on legal texts interviews with researchers and experts in the field and official monetary statistics to obtain a complete picture of how discretionary tax policy has been pursued in the region this volume engages with a range of recent economic theories to argue for the importance of using the tax system to reduce inequalities whilst also offering new methods for measuring tax policy in subsequent research As such it will appeal both to scholars of social science and policy makers with interests in economics social inequality public policy and international political economy

A New Social Contract for Peru Daniel Cotlear, 2006-01-01 Using the accountability framework developed by the World Development Report 2004 Making Services Work for Poor People this book analyzes the low level equilibrium and the numerous reforms attempted in recent decades in Peru and based on this analysis proposes interventions that would facilitate the creation of a new social contract for Peru
